The Early Sculpture of Picasso, 1901-1914 Ron Johnson, 1976 *The Sculptures of Pablo Picasso* Pablo Picasso, Robert Rosenblum, 2003 *Picasso* Werner Spies, Christine Piot, Pablo Picasso, 2000 Artwork by Pablo Picasso Text by Werner Spies
Sculpture by Picasso Werner Spies, 1971 **Picasso** Anna Coliva, Diana Widmaier-Picasso, 2019-08-31 Picasso's contribution to the revitalization of modern sculpture cannot be underestimated His work of over fifty years is examined in seven essays and illustrated by more than 50 exhibited works First published to accompany an exhibition in Rome at Galleria Borghese that took place in early 2019 In 1917 Pablo Picasso traveled to Rome and Naples with Jean Cocteau and Igor Stravinskij During this trip for the first time he could admire directly Hellenistic and Roman sculpture that of the Renaissance and Baroque eras but also the Roman frescoes of Pompei The first exhibition dedicated to Picasso's sculpture to be held in Rome and its accompanying catalogue were conceived as a journey through the centuries that chronologically follows the interpretation of forms and different themes stories and myths bodies and figures objects and fragments in sculpture The exhibition of masterpieces of the great Spanish master is accompanied by previously unpublished images of his sculpture studios by Edward Quinn that narrate the context in which these works were born The catalogue includes essays that explore the visual and conceptual dialogue between the works of Picasso and works of the past illustrating and examining over fifty works some of which have never been exhibited before **Picasso's Paintings, Watercolors, Drawings and Sculpture: 1949-1969** Pablo Picasso, Fernand Mourlot, 2009 A revised and expanded edition in 2 volumes of the work originally published in 1970 It illustrates and describes all the lithographs by Pablo Picasso with the information needed by collectors dealers and curators **The Sculptures of Picasso** Pablo Picasso, 2005 This highly luxurious publication presents the sculptures of Picasso photographed by Brassa one of the most important photographers of the twentieth century An authentic text written for this work in 1948 by Daniel Henry Kahnweiler the former art dealer of Picasso is also included Brassa met Picasso in 1932 when he was commissioned to take a series of pictures of the artist's studio and of some plaster sculptures done at Boisgeloup for the review *Minotaure* Several years later he was again contacted to photograph Picasso's work for the first book published on the subject of the artist's sculptures Hence between 1932 and 1946 Brassa photographed all of Picasso's sculpted works This long term working relationship led to a fruitful exchange between the two artists on the respective nature of photography and sculpture which is reflected in this volume *The Sculptures of Picasso* is an atypical vision of lesser known works by Picasso Indeed the medium used to depict the sculptures is nearly as unsettling as the objects themselves and the confusion is emphasized by the contrast between flatness and fullness An art dealer Daniel Henry Kahnweiler became a good friend of Picasso's in 1907 when he first visited the artist's studio Picasso actually painted a now famous portrait of Kahnweiler in 1910 70 illustrations **Picasso's Concrete Sculptures** Sally H. Fairweather, Pablo Picasso, 1982 Picasso's concrete sculptures When Pablo Picasso first learned of the

Betograde Process for pouring and engraving concrete he jumped out of his chair as if he had sat on a pin He was so excited His lightning eye and intuitive intelligence instantly recognized the creative uses that he might be able to make of this new technique Indeed Picasso's collaboration with Norwegian artist Carl Nesjar during the next fifteen years led to a series of exuberant public sculptures in Spain France Sweden Norway Holland Israel and the United States New York Princeton Cambridge and Rolling Meadows near Chicago Picasso's Concrete Sculptures is a comprehensive history of that collaboration from the preparation and selection of maquettes through all the stages of approval to actual construction and engraving Author Sally Fairweather is a prominent Chicago art dealer who was instrumental in the realization there of the monumental Picasso concrete sculpture The Bather and she subsequently undertook the prodigious task of researching and writing this first published study of the entire series of sculptures Nearly 100 plates many in full color illustrate every one of these majestic works in its final setting as well as showing the maquettes on which they were based the photographs signed by Picasso to document his approval step by step shots of construction in progress and more This volume also includes a bibliography and index and a fully documented catalogue raisonné of all the Picasso Nesjar works in concrete including some not yet erected Picasso's Concrete Sculptures is an indispensable addition to the literature on this greatest of modern masters filling an important gap in his knowledge of his oeuvre Front flap

Picasso Pablo Picasso, Tacoma Art Museum, 1998 Picasso's interest in ceramics arose briefly at the turn of the century and later between 1945 and 1973 ran parallel to sculpture and engraving In his sixties Picasso tackled ceramics again attracted by the material's potential by the way its plastic properties allowed him to adapt it to his imagination A number of skilled ceramists lived near his home in Vallauris including the Ramie family whose Madoura workshop produced the vast majority of the Spanish artist's work This volume presents 61 ceramic pieces by Picasso that range from unfired clay to ceramics fired at high temperature and porcelain decorated with paint and enamel All of the works are illustrated in color including plates dishes vases bottles and zoomorphic jugs wall floor roof tiles and fragments of brick handled and metamorphosed by the artist's hand Also included are pieces that are sculptures in their own right Some items are enameled or painted others incised or engraved while the function of still others was transformed through the magical power of the artist Picasso succeeded in giving Mediterranean ceramics new impetus in tune both his genius and 20th century art
