China as a Sea Power, 1127-1368 Lo Jung-pang, 2012-01-01 Lo Jung pang argues that during each of the three periods when imperial China embarked on maritime enterprises the Qin and Han dynasties the Sui and early Tang dynasties and Song Yuan and early Ming dynasties coastal states took the initiative at a time when China was divided maritime trade and exploration subsequently peaked when China was strong and unified and declined as Chinese power weakened At such times China's people became absorbed by internal affairs and state policy focused on threats from the north and the west These cycles of maritime activity each lasting roughly five hundred years corresponded with cycles of cohesion and division strength and

weakness prosperity and impoverishment expansion and contraction In the early 21st century a strong and outward looking China is again building up its navy and seeking maritime dominance with important implications for trade diplomacy and naval affairs Events will not necessarily follow the same course as in the past but Lo Jung pang s analysis suggests useful questions for the study of events as they unfold and decades to come

The Metamorphosis of Magic from Late Antiquity to the Early Modern Period Jan N. Bremmer, Jan R. Veenstra, 2002 Deities demons and angels became important protagonists in the magic of the Late Antique world and were also the main reasons for the condemnation of magic in the Christian era Supplicatory incantations rituals of coercion enticing suffumigations magical prayers and mystical songs drew spiritual powers to the human domain Next to the magician s desire to regulate fate and fortune it was the communion with the spirit world that gave magic the potential to purify and even deify its practitioners The sense of elation and the awareness of a metaphysical order caused magic to merge with philosophy notably Neoplatonism The heritage of Late Antique theurgy would be passed on to the Arab world and together with classical science and learning would take root again in the Latin West in the High Middle Ages The metamorphosis of magic laid out in this book is the transformation of ritual into occult philosophy against the background of cultural changes in Judaism Graeco Roman religion and Christianity This volume the first in the new series Groningen Studies in Cultural Change offers the papers presented at the workshop The Metamorphosis of Magic from Late Antiquity to the Early Modern Period held from 22 to 24 June 2000 and organised by Jan N Bremmer and Jan R Veenstra The papers have been written by scholars from such varying disciplines as classics theology philosophy cultural history and law Their contributions shed new light upon several old obscurities they show magic to be a significant area of culture and they advance the case for viewing transformations in the lore and practice of magic as a barometer with which to measure cultural change

British Sea Anglers' Society's Quarterly British Sea Anglers' Society, 1908 British Sea Anglers' Society's Quarterly, 1909 The Complete Novels of Herman Melville: Sea Tales, Maritime Adventures & Philosophical Novels Herman Melville, 2024-01-15 In The Complete Novels of Herman Melville Sea Tales Maritime Adventures Philosophical Novels readers

are invited to embark on a literary voyage through Melville's profound exploration of the human condition encapsulated in his vivid depictions of the sea and its metaphorical significance. This comprehensive collection integrates Melville's seafaring narratives with his deep philosophical inquiries characterized by rich symbolism and complex characterizations. Through masterful prose he combines elements of adventure, existential contemplation, and social criticism, establishing a unique voice that continues to resonate in American literature, particularly within the Transcendentalist movement and its responses to Romanticism. Herman Melville, born in 1819, was heavily influenced by his early maritime experiences as a sailor in the Pacific, which informed his understanding of the sea as both a physical and metaphysical realm. His works reflect the tension between nature and civilization, grappling with themes of isolation, fate, and the conflict of individual morality versus societal expectations. Melville's extensive travels and encounters with diverse cultures fostered a unique worldview, positioning him as a pioneer of American realism and inquiry into the human psyche. This anthology is essential for scholars and general readers alike, offering a comprehensive insight into one of America's most enigmatic literary figures. It stands as not only a historical artifact but also a profound philosophical treatise, making it a must-read for those seeking to understand the intricacies of human experience as articulated through the lens of the restless seas.

The Commedia Dell'arte of Flaminio Scala Flaminio Scala, 2008. The *Commedia dell'Arte* of Flaminio Scala presents a translation and commentary of selected scenarios composed or collected by the actor-manager Flaminio Scala that were first published in 1611. Thirty of Scala's 50 scenarios are included, complete with a detailed scene-by-scene analysis that demonstrates the methodology of Italian improvised theatre in the early modern period for the purposes of study as well as re-creation.
