Roads in the Deserts of Roman Egypt Maciej Paprocki, 2019-07-19 Egypt under the Romans 30 BCE 3rd century CE was a period when local deserts experienced an unprecedented flurry of activity In the Eastern Desert a marked increase in desert traffic came from imperial prospecting quarrying activities and caravans transporting wares to and from the Red Sea ports In the Western Desert resilient camels slowly became primary beasts of burden in desert travel enabling caravaneers to lengthen daily marching distances across previously inhospitable dunes Desert road archaeology has used satellite imaging landscape studies and network analysis to plot desert trail networks with greater accuracy however it is often difficult to date roadside installations and thus assess how these networks evolved in scope and density in reaction to climatic social and technological change Roads in the Deserts of Roman Egypt examines evidence for desert roads in Roman Egypt and assesses Roman influence on the road density in two select desert areas the central and southern section of the Eastern Desert and the central Marmarican Plateau and discusses geographical and social factors influencing road use in the period demonstrating that Roman overseers of these lands adapted remarkably well to local desert conditions improving roads and developing the trail network Crucially the author reconceptualises desert trails as linear corridor structures that follow expedient routes in the desert landscape passing through at least two functional nodes attracting human traffic be those water sources farmlands mines quarries trade hubs military installations or actual settlements The route of least resistance across the desert varied from period to period according to the available road infrastructure and beasts of burden

employed Roman administration in Egypt not only increased the density of local desert node networks but also facilitated internodal connections with camel caravans and transformed the Sahara by establishing new or embellishing existing nodes effectively funnelling desert traffic into discernible corridors Significantly not all desert areas of Egypt are equally suited for anthropogenic development but almost all have been optimised in one way or another with road installations built for added comfort and safety of travellers Accordingly the study of how Romans successfully adapted to desert travel is of wider significance to the study of deserts and ongoing expansion due to global warming *Kelly's Ilford, Manor Park, Little Ilford and East Ham directory. 1st-13th annual issue* Kelly's directories, ltd,1902 **WayMaker** Ann Voskamp,2022-03-15 Are you facing repeated roadblocks or feeling life shift in ways you never expected Bestselling author Ann Voskamp offers the hope giving message that God always makes a path through the impossible no matter the obstacle Encounter the WayMaker in surprising places and watch him pen poetry out of pain It s true heartache grief suffering and obstacles they all come in waves There is no controlling life s storms there is only learning the way to walk through the waves In WayMaker bestselling author Ann Voskamp hands us a map that makes meaning of life and shows the way through to the places we ve only dreamed of reaching In the face of suffering through seemingly unbearable situations we can rest in the fact that we are not alone In her signature captivating poetic style Ann reveals how God is present in the totality of our lives making a way for the Marriage that seems impossible Woman who longs for a child of her own Parents who ache for the return of their prodigal Sojourner caught between a rock and a hard place Wayfarer who feels as though there is no way through to her dreams Deeply personal Ann shares the moments of her life where the WayMaker transformed brokenness into beauty Learn to encounter the WayMaker in surprising ways in your own life and begin to see Him working in every miraculous detail Even now the Way is making the way to walk through waves and into a life more deeply fulfilling than your wildest dreams
