### **Cape Bretoniana**

Beaton Institute of Cape Breton Studies, 2005-01-01 Nova Scotia's Cape Breton Island is a beautiful region with a unique community whose history and ethnic composition have resulted in the evolution of a powerful sense of identity and place. While outsiders may think only of the island's perennial economic woes and long economic dependence on coal mining and steel production it is also the home of a rich vibrant and distinct culture. Brian Douglas Tennyson's *Cape Bretoniana* is the first bibliography to gather together all known publications relating to the history culture economy and politics of Cape Breton Island. With more than 6000 entries it not only provides a comprehensive listing of publications and post graduate theses but also detailed annotations on the listings. Each entry lists the author title place of publication publisher date of publication volume and issue number in the case of periodicals and page references followed by a brief description of the item. Cape Breton has never been so thoroughly documented. This bibliography will help to ensure that even in a world becoming increasingly homogenized by the forces of globalization unique cultural identities like Cape Breton's can be preserved and nurtured.

*The Economy of British America, 1607-1789* John J. McCusker, Russell R. Menard, 2014-01-01 By the American Revolution the farmers and city dwellers of British America had achieved individually and collectively considerable prosperity. The nature and extent of that success are still unfolding. In this first comprehensive assessment of where research on prerevolutionary economy stands what it seeks to achieve and how it might best proceed the authors discuss those areas in which traditional work remains to be done and address new possibilities for a new economic history.

**Rebels Rising** Benjamin L. Carp, 2007-08-22 The cities of eighteenth century America packed together tens of thousands of colonists who met each other in back rooms and plotted political tactics debated the issues of the day in taverns and mingled together on the wharves or in the streets. In this fascinating work historian Benjamin L. Carp shows how these various urban meeting places provided the tinder and spark for the American Revolution. Carp focuses closely on political activity in colonial America's five most populous cities in particular he examines Boston's waterfront community New York

tavern goers Newport congregations Charleston's elite patriarchy and the common people who gathered outside Philadelphia's State House He shows how because of their tight concentrations of people and diverse mixture of inhabitants the largest cities offered fertile ground for political consciousness political persuasion and political action The book traces how everyday interactions in taverns wharves and elsewhere slowly developed into more serious political activity Ultimately the residents of cities became the first to voice their discontent Merchants began meeting to discuss the repercussions of new laws printers fired up provocative pamphlets and protesters took to the streets Indeed the cities became the flashpoints for legislative protests committee meetings massive outdoor gatherings newspaper harangues boycotts customs evasion violence and riots all of which laid the groundwork for war Ranging from 1740 to 1780 this groundbreaking work contributes significantly to our understanding of the American Revolution By focusing on some of the most pivotal events of the eighteenth century as they unfolded in the most dynamic places in America this book illuminates how city dwellers joined in various forms of political activity that helped make the Revolution possible
