growth while decreasing Canadian fisheries dependency on foreign markets But fishery managers and policymakers fundamentally miscalculated consumer demand wrongly assuming that Canadians could and would eat more seafood Fisheries continued to extract more fish than the environment and the market could sustain and the collapse of the nation s fisheries that we are now seeing has as much to do with failed assessments of market demand as it does with faulty extraction practices Using internal communications between industry leaders and Ottawa bureaucrats as well as advertising and promotional material published in the nation s leading magazines national and local newspapers and radio programming Eating the Ocean traces the flawed understanding of not only supply but demand a misguided gamble that caused fisheries to become the most mismanaged resource economy in early twentieth century Canada [Jumpstart Your Customer Service](#) Shawn Doyle,Lauren Anderson,2014-04-03 Turn Your Customers Into Raving Fans Great customer service can be all the difference between a mediocre company and a profitable one In this fun and easy to read book you will discover 10 Jolts to Jumpstarting Your Own Customer Service Wether you are a small business owner customer service manager or an employee working in customer service this book will upgrade your performance and help you Create raving fans through exceptional customer service Lower marketing expenses by retaining your current customers and getting free word of mouth Create a work environment that you are excited to go to each day Written by small business and customer service activists Shawn Doyle CSP and Lauren Anderson They share practical steps that you can take advantage of right now You will be inspired with real world stories of extraordinary customer service that will help you see your own small business or position in a whole new way So what are you waiting for Jumpstart Your Customer Service today **Fishing News International** ,1976
