Seapower As Strategy Navies And National Interests:

Seapower as Strategy Norman Friedman, 2001 A noted defense analyst and naval weapons expert lays out the roles of navies and naval strategy in the twenty first century Drawing upon historical examples Norman Friedman first explains how and why naval strategy differs from other kinds of military strategy and then provides a sense of the special flavor of a maritime or naval approach to national security problems The various uses of navies are described and illustrated by extended case studies covering the last quarter millennium Friedman presents these observations in the context of U S post Cold War security concerns and concepts He explains how and why the United States currently espouses a maritime strategy and argues that navies are likely to regain a dominant position due to changes both in their own technology and in air and ground forces He urges countries with the appropriate geographical and economic advantages namely the United States the United Kingdom Japan and Australia to use their inherent maritime leverage Rare among books on naval strategy this work combines an examination of the vital role of coalition partners especially those with significant ground forces with a comprehensive survey of relevant technology and the way that strategy can be reflected in the design of an evolving fleet The author is known for his ability to explain modern technology to lay audiences and his book is suitable for all those interested in public policy questions as well as national security professionals and students of strategy The book s publication at a time of potential change in U S national strategy only reinforces its value as a document worthy of study

Seapower Geoffrey Till, 2018-06-19 This is the fourth revised and updated edition of Geoffrey Till s *Seapower A Guide for the Twenty first Century* The rise of the Chinese and other Asian navies worsening quarrels over maritime jurisdiction and the United States maritime pivot towards the Asia Pacific region reminds us that the sea has always been central to human development as a source of resources and as a means of transportation information exchange and strategic dominion It has provided the basis for mankind s prosperity and security and this is even more true in the early twenty first century with the emergence of an increasingly globalised world trading system Navies have always provided a way of policing and sometimes exploiting the system In contemporary conditions navies and other forms of maritime power are having to adapt in order to exert the maximum power ashore in the company of others and to expand the range of their interests activities and responsibilities While these new tasks are developing fast traditional ones still predominate Deterrence remains the first duty of today s navies backed up by the need to fight and win if necessary How navies and their states balance these two imperatives will tell us a great deal about our future in this increasingly maritime century This book investigates the consequences of all this for the developing nature composition and functions of all the world s significant navies and provides a guide for anyone interested in the changing and crucial role of seapower in the twenty first century *Seapower* is essential reading for all students of naval power maritime security and naval history and highly recommended for students of strategic studies international security and international relations

Security Studies in a New Era of Maritime Competition Jonathan D.

Caverley, Peter Dombrowski, 2023-06-06 How do two conventionally powerful nuclear armed but commercially oriented great powers reliant on sea lanes and global maritime infrastructure engage in a long term strategic rivalry When do such competitions lead to crisis instability and even war This book presents a research agenda using a variety of methods to explore this unique competitive environment for China and the United States The most likely great power friction points today are located at sea Any shots fired between China and the United States will likely be between navies and air forces rather than armies While much security studies understandably concentrates on land forces basic concepts such as the importance of territory the offense defense balance technological competition economic warfare and crisis stability do not comfortably apply to maritime competition The chapters in this volume consider the use of naval power including blockades naval diplomacy fleet engagements and nuclear escalation across the spectrum of global politics and international conflict The volume encourages applying the many classic approaches of security studies to this high stakes relationship while considering maritime conflict as distinct from other forms such as land and nuclear that have traditionally occupied the field This work will be of great interest to students of strategic studies international relations maritime security and Asian American politics The chapters in this book were originally published as a special issue of Security Studies

Understanding Contemporary Strategy David J. Lonsdale, Thomas M. Kane, 2012-03-12 Understanding Contemporary Strategy provides an accessible and comprehensive introduction to the theory and practice of modern strategy Covering all the main issues in the field the book explores the major themes through a combination of classical and modern strategic theory history and current practice The book is split into three main sections Definition and Context including discussion of the human technological intelligence ethical and grand strategic dimensions Strategy in the Geographic Environments land sea air and space Contemporary Strategic Challenges terrorism insurgency and nuclear strategy Each chapter presents the reader with a succinct summary of the topic but also provides a challenging analysis of current issues supporting students with pedagogical features such as suggested further reading boxed case studies and study questions This book will be essential reading for upper level students of strategic studies war studies military history and international security

China's Rising Sea Power Peter Howarth, 2006-04-18 This is a fascinating insight into China's strategic abilities and ambitions probing the real depths of its plans for the twenty first century China's Rising Sea Power explores similarities between China's strategic outlook today and that of earlier continental powers whose submarine fleets challenged dominant maritime powers for regional hegemony Germany in two World Wars and the Soviet Union during the Cold War Using insights from classical naval strategic theory Peter Howarth examines Beijing's strategic logic in making tactical submarines the keystone of China's naval force structure He also investigates the influence of Soviet naval strategy and ancient Chinese military thought on the PLA Navy's strategic culture contending that China's increasingly capable submarine fleet could play a key role in Beijing's use of force to resolve the Taiwan issue This book will be of great interest to all students and scholars

of security and strategic studies Asian politics geopolitics and military naval strategy

The Royal Navy and Maritime Power in the Twentieth Century Ian Speller, 2004-08-02 This book adopts an innovative new approach to examine the role of maritime power and the utility of navies It uses a number of case studies based upon key Royal Navy operations in the twentieth century to draw out enduring principles about maritime power and to examine the strengths and limitations of maritime forces as instruments of national policy Individual chapters focus on campaigns and operations from both World Wars and a series of post 1945 crises and conflicts from the Palestine Patrol in the 1940s to Royal Navy operations in support of British policy in the 1990s Each case study demonstrates critical features of maritime power including operations during the transition to war fleet operations in narrow seas logistics submarine operations the impact of air power on maritime operations blockade maritime power projection amphibious warfare jurisdictional disputes and the law of the sea and peace support operations The contributors to this book all have considerable experience lecturing on these issues at the United Kingdom Joint Services Command and Staff College where maritime campaign analysis is used to teach the principles of maritime power to officers of the Royal Navy The book combines an authoritative examination of critical Royal Navy operations during the twentieth century with a sophisticated analysis of the nature of maritime power As such it is of both historical interest and contemporary relevance and will prove equally valuable to academic historians military professionals and the general reader

The Politics of Maritime Power Andrew T. H. Tan, 2010-10-18 Since the crucial maritime battles that were fought during the Second World War in both the Atlantic and Pacific Oceans and the post war period which saw a naval standoff between a vast US navy and a growing Soviet navy the focus of international maritime power has changed Major maritime powers have deployed warships aircraft carriers and heavy land forces around the globe for purposes of diplomacy such as in maintaining far flung alliances for deterrent purposes such as in the Taiwan Straits for warfighting such as in its crucial support roles in recent conflicts in Afghanistan and both Gulf Wars and for complex emergencies such as tsunami and earthquake rescue in Indonesia and Pakistan Increasingly maritime power is employed in counter terrorism such as in joint patrols counter terrorism exercises and in intercepting ships suspected of carrying weapons of mass destruction The Politics of Maritime Power is an exploration of the contemporary facets of maritime power particularly as an instrument of the state in the post Second World War era This reference volume is divided into four parts with chapters exploring various aspects of modern maritime power written by maritime experts a series of maps which show major maritime zones a glossary which contains over 240 entries on various aspects of maritime power and a detailed bibliography

The Modernisation of the Republic of Korea Navy Ian Bowers, 2018-08-11 This book sheds light on one of the most under studied but powerful navies in the world Using a multifaceted approach it examines how the Republic of Korea Navy ROKN has sought to transform itself from a coastal naval force focused solely on deterring North Korea to a navy capable of operating in the blue waters of East Asia and beyond The project argues that peninsular and regional security dynamics

technological developments the US South Korea alliance and internal politics combine to inform and shape ROKN modernisation

Building the Tatmadaw Maung Aung Myoe, 2009-01-22 Ever since Myanmar regained her independence in January 1948 the Tatmadaw Myanmar Armed Forces has been crucial in restoring and maintaining law and order It is one of the most important institutions in Myanmar politics Various aspects of the Tatmadaw have been studied The most notable area of study has been the political role of the military This study looks at the organizational development of the Myanmar armed forces It analyses four different aspects of the Tatmadaw military doctrine and strategy organization and force structure armament and force modernization and military training and officer education It sets out security perceptions and policies charting developments in each phase against the situation at the time and also notes the contributions of the leading actors in the process Since early 1990s the Tatmadaw has implemented a force modernization programme This work studies rationales and strategy behind the force modernization programme and examines the military capabilities of the Tatmadaw Drawing extensively from archival sources and existing literature this empirically grounded research argues that while the internal armed security threat to the state continues to play an important role it is the external security threat that gives more weight to the expansion and modernization of the Tatmadaw since 1988 It also argues that despite its imperfections the Tatmadaw has transformed from a force essentially for counter insurgency operations into a force capable of fighting in limited conventional warfare

The Royal Navy in the Cold War Years, 1966-1990 Edward Hampshire, 2024-07-30 During the period covered by this new book the Royal Navy faced some of its greatest challenges both at sea confronting the increasingly capable and impressive Soviet Navy and on shore when it faced policy crises that threatened the survival of much of the fleet During this remarkable period the Navy had rarely been so focussed on a single theater of war the Eastern Atlantic but also rarely so politically vulnerable The author sets out to analyze shadowing operations and confrontations at sea with Soviet ships and submarines the Navy's role in the enormous NATO and Warsaw Pact naval exercises that acted out potential war scenarios individual operations from the Falklands and the 1990 91 Gulf War to the Beira and Armilla patrols the development of advanced naval technologies to counter Soviet capabilities policy making controversies as the three services fought for resources including the controversial 1981 Nott defense review and what life was like in the Cold War navy for ratings and officers The book the first to cover this subject in depth for more than thirty years will make use of the full range of archival sources that have been publicly available over the last two decades but of which little use has been made by historians This work is destined to become a definitive naval history of the period and also provide a fascinating and gripping narrative of a navy under threat from many directions but which survived and eventually prospered winning a remarkable victory in the far South Atlantic more than 7 000 miles from its expected battleground in the North Atlantic Elegantly written for a wide audience it will be a very significant volume for professional and enthusiast alike

Two-Edged Sword Nicholas Tracy, 2012-10-01 In the first major study of the Royal Canadian Navy's contribution to

foreign policy Nicholas Tracy takes a comprehensive look at the paradox that Canada faces in participating in a system of collective defence as a means of avoiding subordination to other countries Created in 1910 to support Canadian autonomy the Royal Canadian Navy has played an important role in defining Canada's relationship with the United Kingdom the United States and NATO Initially involved with participation in Imperial and Commonwealth defence the RCN's role shifted following the Second World War to primarily ensuring the survival of the NATO alliance and deflecting American influence over Canada Tracy demonstrates the ways in which the Navy's priorities have realigned since the end of the Cold War this time partnering with the US and NATO navies in global policing Insightful detailed and grounded in solid historical scholarship *A Two Edged Sword* presents a complete portrait of the shifting relevance and future of a cornerstone of Canadian defence

Understanding Naval Warfare Ian Speller, 2023-09-11 This updated new edition of *Understanding Naval Warfare* offers the reader an accessible introduction to the study of modern naval warfare providing a thorough grounding in the vocabulary concepts issues and debates set within the context of relevant history The third edition explains traditional concepts and explores current and emerging ideas concerning the theory and practice of naval warfare relating these to recent events including Sino American naval competition and the Russian Ukraine War Navies operate in an environment that most people do not understand and that many avoid They are equipped with a bewildering range of ships craft and other vessels and types of equipment the purpose of which is often unclear Writings on naval warfare are usually replete with references to esoteric concepts explained in specialist language that can serve as a barrier to understanding This book cuts through the obscure and the arcane to offer a clear coherent and accessible guide to the key features of naval warfare which will equip the reader with the knowledge and understanding necessary for a sophisticated engagement with the subject The new edition is divided into two key parts The first focuses on concepts of naval warfare and introduces readers to the ideas associated with the theory and practice of naval operations and includes a chapter where the history of the last century of naval warfare is explored in order to illustrate the key concepts The second part focuses on the conduct of war at sea and on peacetime roles for contemporary navies and now includes new material on hybrid warfare and grey zone operations and on joint warfare multi domain operations and integrated deterrence within the context of evolving great power rivalry at sea This textbook will be essential reading for students of naval warfare sea power and maritime security and is highly recommended for those studying military history strategic studies and security studies in general

Japan's Foreign Relations in Asia James D.J. Brown, Jeff Kingston, 2018-01-02 Japan's Foreign Relations in Asia has been specifically designed to introduce students to Japan's foreign relations in Asia since 1990 a period in which there have been dramatic developments in Japan including the reinterpretation of the Constitution and expanded US Japan defence cooperation The geopolitical dynamics and implications of these new developments are profound and underscore the need for a new textbook on this subject Covering not only the key regional players of China and the Koreas this textbook also encompasses chapters

on Japan's relations with India Myanmar Indonesia Vietnam the Philippines and Thailand along with its multilateral engagement and initiatives Combined with transnational chapters on critical issues key themes covered by this book include An historical overview of key post war developments Japan's evolving security policy Analysis of the region's escalating maritime disputes An evaluation of Japanese soft power in Asia Written by leading experts in accessible jargon free style this new textbook will appeal to undergraduate and postgraduate students of Japanese politics international relations and foreign policy and Asian affairs in general

The Security of Sea Lanes of Communication in the Indian Ocean Region

Dennis Rumley, Sanjay Chaturvedi, Mat Taib Yasin, 2016-03-31 First published in 2007 this book focuses on the security of sea lanes of communication It was a joint publication between the Maritime Institute of Malaysia MIMA and the Indian Ocean Research Group IORG and is an important book for three particular reasons First it takes a step forward in identifying key policy themes that can be applied to interstate cooperation around the Indian Ocean Region IOR Second the particular theme discussed is not only central to the economic well being of Indian Ocean countries but also to many of the world's most important trading states and finally the various discussions within the book raise a host of issues to which regional as well as non regional policy makers should give serious consideration

Naval Modernisation in South-East Asia Geoffrey Till, Jane Chan, 2013-08-15 This edited volume analyses the naval arms race in South East Asia and reviews the content purposes and consequences of the naval policies and development of the main countries of the region The rise of naval capability in the countries of the Asia Pacific Region is increasingly recognised as a major indicator of the rise of Asia and its increasing importance in the world's political economic and strategic future Most coverage focusses solely on the navies of the big four the US China India and Japan however the region's other navies though much smaller are significant too Given the current focus on the South China Sea and the Obama administration's pivot to Asia naval development in South East Asia is of particular relevance This book first identifies the issues involved in defence acquisition in this area It then goes on to establish some templates of naval modernisation as a means of assessing the policies of individual countries in the region by looking at the naval policies of the big four Finally the general issue of naval modernisation in South East Asia is illustrated through a more detailed examination of some of the major issues common to all countries of the area These include the defence industrial perspective specific examinations of submarine and surface ship acquisition processes and a review of the balance to be struck between naval and coastguard forces in the area This book will be of much interest to students of naval power maritime security South East Asian politics strategic studies and IR in general

Influence Without Boots on the Ground: Seaborne Crisis Response Larissa Forster, 2013 This thesis was accepted as a doctoral dissertation by the Faculty of Arts of the University of Zurich in the fall semester 2010 on the recommendation of Prof Dr Albert A Stahel and Prof Dr Peter Dombrowski U S Naval War College p ii

Power at Sea Lisle A. Rose, 2007 Volume 1 Traces the social issues technological advances and combative encounters of the international naval race from 1890 through WWI as the largest

industrial nations U S Great Britain Japan and Germany scrambled to secure global markets and empire using their battleship navies as pawns of power politics Provided by publisher Twenty-First Century Seapower Peter Dutton, Robert Ross, Øystein Tunsjø, 2013-05-02 This book offers an assessment of the naval policies of emerging naval powers and the implications for maritime security relations and the global maritime order Since the end of the Cold War China Japan India and Russia have begun to challenge the status quo with the acquisition of advanced naval capabilities The emergence of rising naval powers is a cause for concern as the potential for great power instability is exacerbated by the multiple maritime territorial disputes among new and established naval powers This work explores the underlying sources of maritime ambition through an analysis of various historical cases of naval expansionism It analyses both the sources and dynamics of international naval competition and looks at the ways in which maritime stability and the widespread benefits of international commerce and maritime resource extraction can be sustained through the twenty first century This book will be of much interest to students of naval power Asian security and politics strategic studies security studies and IR in general

Contemporary Military Theory Jan Angstrom, J.J. Widen, 2014-07-17 The book aims to provide the reader with a state of the art introduction to classic and modern military theory The text accounts for the most important theories within the field by developing and analyzing these theories as well as problematizing both their normative and explanatory aims While focusing on military theory the book does not only reflect a single way of relating to knowledge of war and warfare but furthers learning by introducing contrasting perspectives as well as constantly criticizing the theories There is a clear need for an introductory text for the entire field of military theory that focuses whole heartedly on the theories not on their context or how they are expressed in practice during war This book covers such questions as how we should understand the changing character of war the utility of force and how the pursuit of political ends is achieved through military means It draws upon and illustrates military thought through a wide ranging number of examples from the Napoleonic Wars to the current war in Afghanistan This book will be of great interest for students of military theory strategic studies security studies and defence studies

Why Taiwan? Geostategic Rationales for China's Territorial Integrity Alan M. Wachman, 2008 Why has the PRC been so determined that Taiwan be part of China Why since the 1990s has Beijing been feverishly developing means to prevail in combat with the U S over Taiwan's status Why is Taiwan worth fighting for To answer this book focuses on the territorial dimension of the Taiwan issue and highlights arguments made by PRC analysts about the geostrategic significance of Taiwan rather than emphasizing the political dispute between Beijing and Taipei It considers Beijing's quest for Taiwan since 1949 against the backdrop of recurring Chinese anxieties about the island's status since the seventeenth century

The Enigmatic Realm of **Seapower As Strategy Navies And National Interests**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **Seapower As Strategy Navies And National Interests** a literary masterpiece penned by a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of people who partake in its reading experience.
