Butler, Samantha Bassler, 2019 The complex relationship between myths and music is here investigated Myths and stories offer a window onto medieval and early modern musical culture Far from merely offering material for musical settings authoritative tales from classical mythology ancient history and the Bible were treated as foundations for musical knowledge Such myths were cited in support of arguments about the uses effects morality and preferred styles of music in sources as diverse as theoretical treatises defences or critiques of music art sermons educational literature and books of moral conduct Newly written literary stories too were believed capable of moral instruction and influence and were a medium through which ideas about music could be both explored and transmitted How authors interpreted and weaved together these traditional stories or created their own reveals much about changing attitudes across the period Looking beyond the well known figure of Orpheus this collection explores the myriad stories that shaped not only musical thought but also its styles techniques and practices The essays show that music itself performed and created knowledge in ways parallel to myth and worked in tandem with old and new tales to construct social political and philosophical views This relationship was not static

however as the Enlightenment dawned the once authoritative gods became comic characters and myth became a medium for ridicule Overall the book provides a foundation for exploring myth and story throughout medieval and early modern culture and facilitating further study into the Enlightenment and beyond KATHERINE BUTLER is a senior lecturer in music at Northumbria University SAMANTHA BASSLER is a musicologist of cultural studies a teaching artist and an adjunct professor in the New York metropolitan area Contributors Jamie Apgar Katie Bank Samantha Bassler Katherine Butler Elina G Hamilton Sigrid Harris Ljubica Ilic Erica Levenson John MacInnis Patrick McMahon Aurora Faye Martinez Jacomien Prins Tim Shephard Jason Stoessel Fredia J Stone Davis Amanda Eubanks Winkler

cultural history in the Renaissance On the one hand scholars of this period were inspired by classical narratives on the sublime effects of music and on the other hand were affected by the profound religious upheavals which destroyed the unity of Western Christianity and in so doing opened up new avenues in the world of music These articles offer as broad a vision as possible of the ways of thinking about music which developed in the fifteenth and sixteenth centuries Postcolonial Historical Materialism Filippo Menozzi,2025-03-27 Through a reappraisal of the work of four major figures in critical theory Ernst Bloch Georg Lukács Theodor Adorno and Walter Benjamin Filippo Menozzi rethinks the tradition of critical theory in relation to pressing concerns in postcolonial studies Revealing these authors continued relevance to urgent issues in the 21st century from struggles against racism to social movements and the transmutations of global capitalism Menozzi reimagines them as central to an alternative genealogy of critical theory that moves beyond their European provenance and the limitations of Western Marxism In doing so this book challenges more broadly the view of critical theory as steeped in Eurocentrism culturally conservative and politically defeatist Contesting this in four chapters Postcolonial Historical Materialism inserts Adorno Lukács Bloch and Benjamin into key contemporary sites of militancy and debate Engaging with a wide range of European and non European sources Menozzi proposes a new concept of postcolonial historical materialism indicating how the heritage of critical theory can reopen global possibilities of utopia and revolution in a non utopian age of global emergencies social unrest and the unfinished history of decolonisation **Myth and Music** Eero Tarasti,2012-01-02 No detailed description available for Myth and Music **Music in German Philosophy** Stefan Lorenz Sorgner,Oliver Fürbeth,2011-01-15 Though many well known German philosophers have devoted considerable attention to music and its aesthetics surprisingly few of their writings on the subject have been translated into English Stefan Lorenz Sorgner a philosopher and Oliver Fürbeth a musicologist here fill this important gap for musical scholars and students alike with this compelling guide to the musical discourse of ten of the most important German philosophers from Kant to Adorno Music in German Philosophy includes contributions from a renowned group of ten scholars including some of today's most prominent German thinkers all of whom are specialists in the writers they treat Each chapter consists of a short biographical sketch of the philosopher concerned a summary of his writings on aesthetics and finally a detailed exploration of his thoughts on music The book is prefaced by the editors original introduction presenting music philosophy in Germany before and after Kant as well as a new introduction and foreword to this English language addition which places contemplations on music by these German philosophers within a broader intellectual climate
