A Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31

The keystone of Christianity is Jesus's physical, bodily resurrection. Present-day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus. The literature measures well over seven thousand sources in English language books alone. This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task. Even when a specific book is relevant, finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort. A Thematic Access-Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways. First, the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty-four subcategories, which are designed to help you find the most relevant literature quickly and efficiently. Embedded are pro and con arguments which support efficient access through brief annotations, and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views: theistic (e.g., Christian, Jewish, Muslim, etc.), agnostic, and nontheistic. The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives, allowing you to browse or find the one source accurately and with ease.

Blues in the 21st Century: Myth, Self-Expression and Trans-Culturalism Douglas Mark Ponton, Uwe Zagratzki, 2020-10-06

The book is the fruit of Douglas Mark Ponton's and co-editor Uwe Zagratzki's enduring interest in the Blues as a musical and cultural phenomenon and source of personal inspiration. Continuing in the tradition of Blues studies established by the likes of Samuel Charters and Paul Oliver, the authors hope to contribute to the revitalisation of the field through a multi-disciplinary approach designed to explore this constantly evolving social phenomenon in all its heterogeneity. Focusing either on particular artists (Lightnin' Hopkins, Robert Johnson) or specific texts (Langston Hughes' *Weary Blues* and *Backlash Blues*, Jimi Hendrix's *Machine Gun*), the book tackles issues ranging from authenticity and musicology in Blues performance to the Blues in diaspora, while also applying techniques of linguistic analysis to the corpora of Blues texts. While some chapters focus on the Blues as a quintessentially American phenomenon linked to a specific social context, others see it in its current evolutions as the bearer of vital cultural attitudes into the digital age. This multidisciplinary volume will appeal to a broad range of scholars operating in a number of different academic disciplines, including Musicology, Linguistics, Sociology, History, Ethnomusicology, Literature, Economics, and Cultural Studies. It will also interest educators across the Humanities and could be used to exemplify the application to data of specific analytical methodologies and as a general introduction to the field of Blues studies.

Understanding Religious Experiences J. Harold Ellens, 2007-11-30 Today most people feel less interested in religion and more interested in spirituality If you ask what they mean they will tell you that organized religion tends to turn them off but nonetheless they feel a hunger in the heart that they cannot seem to fill They do not mean that they would rather have disorganized religion they mean that institutional religion does not seem to satisfy their spirits and feel there must be something more some better way of experiencing whatever that is for which they are hungry Much new experimentation is going on as a result Some of it is a search for the meaning to fill the soul and satisfy the spirit much of it is a search for meaning on the spiritual level itself Spirituality reaches always toward the question about the meaning of God the meaning of relationships with others the meaning of intimacy and the meaning of soul gratifying insights into truth Here Ellens carefully and sensitively explores the full range of our spiritual natures and the variety of spiritual experiences of which we are capable describing the way our souls and psyches work in our hunger and thirst for meaning He explains in an enlightening and unconventional way why and how every human desires to reflect upon learn and share a heartfelt experience of God and of others Readers will find in this book a description of the meaning of the biblical stories about spiritual experiences in addition to descriptions of the kinds of spiritual experiences that ordinary people are having how they are achieving them and the ways in which they are filling their lives with meaning that goes beyond the horizons of material life The author paints this picture in such a way as to let us in on what biblically based authentic spirituality and spiritual experience really is and why it may or may not necessarily have anything to do with traditional institutionalized religion He carefully and vividly explains the notion of spirituality as it is illustrated in the Bible and discusses spiritual experiences such as prayer epiphany visions and other experiences He considers whether spirituality is mainly a connection with God with others or with both Readers hoping to get a better sense of what it means to be spiritual will have many of their questions answered in these pages
