**A Search for the Liberal College** J. Winfree Smith,1983      *A Search for Better University Education* Gary Bauslaugh,2015-09-10 Many people have something to say about what is wrong with our universities but Gary Bauslaugh spent decades trying to do something about it In this compelling entertaining and highly informative memoir Bauslaugh doesn't just relate his own experiences he shines a spotlight on exactly what is wrong with the traditional university undergraduate curriculum and how it is failing our students and our society Gary Bauslaugh has provided us with a remarkably vivid account of what is really going on in our institutions of higher learning Vivid both because it is almost entirely a first person narrative a modern cover of Henry Adams 19th Century classic *The Education of Henry Adams* and also because it is so deeply and richly informed As student professor and administrator Bauslaugh seems never to have stopped thinking both critically and sympathetically but always insightfully about what is happening around him and why The takeaway is a qualified indictment of North American post secondary education along with a powerfully argued case for reform And did I mention that it's a wonderfully fun read John Dixon philosopher and former President of BC Civil Liberties Association      Scenes of Instruction Dana B. Buller, 2017-01-24 The essential guidebook for effective faculty hiring committees *Best Practices for Faculty Search Committees* presents a clear direct action plan for faculty and administration involved in hiring Written by a veteran university administrator this book lays out a step by step process for selecting the right candidate for the job Practical guidance on application review interviewing and evaluation walks you through established and effective methods while case studies and examples from a variety of institutions provide insight into real world implementation Whether you re serving on a faculty search committee for the first time or simply seeking a more efficient route to the best candidate this book provides invaluable guidance that can streamline the search and selection process Tenure track and long term opportunities don t come about every day so it s essential for hiring committees to make the correct choice While the search process may be codified to an extent by your institution there is still plenty of room for error or misjudgment this book helps you keep the process on track and moving forward until the best candidate is identified Develop criteria for efficient and informative application review Conduct in depth interviews that provide a clear picture of fit Evaluate final candidates on the most pertinent points for the job Most faculty search resources are technical in nature with little guidance on getting the job done properly and efficiently best practices tend to be unwritten and frequently verge into habit rather than critically evaluated method *Best Practices for Faculty Search Committees* provides clear concise concrete guidance for a more efficient effective and successful candidate search
