The problems and challenges of the Niger Delta predate Nigeria as a Republic The resultant violence can be traced to 1966 when the late Isaac Boro and his colleagues attempted to secede from Nigeria due in large part to the underdevelopment of the region Historical reality aside since 1970 oil has displaced agriculture as Nigeria s primary revenue earner and it has for the last four decades been the nation s breadbasket But in spite of this the Niger Delta remains vastly underdeveloped and has been given the least federal presence These deficiencies led to high unemployment social dislocations youth restiveness and extralegalities It was these realities that bred disaffection with the government and the multinational oil companies and eventually to violent militancy Between 2003 and 2009 it also led to low intensity conflict between militant youths and the Nigerian government In the summer of 2009 however the Nigerian government extended an offer of presidential pardon amnesty to the militants The amnesty program was intended to bring peace and quiet to the region However this has not been the case In spite of the financial and political resources that have been expended the region continues on the path of volatility This book looks at the issue of nationhood the cause and cost of the crisis past approaches and current efforts at solving the crisis In addition it offers a tenable solution to the decades old crisis Furthermore the case is made that unless there is a fundamental restructuring of the Nigerian state and its governing structure and institutions the problems of the region and the larger problems that makes the country such a difficult to place to live in and govern is likely to continue

Fostering transformation and growth in Niger's agricultural sector Fleur Wouterse,Ousmane Badiane,2023-08-07 For Niger the development of agriculture is essential to strategies to raise incomes and eradicate poverty in a sustainable manner without further depleting its natural resource base While traditional approaches to agricultural development have emphasized food security and have been rather technology focused African countries are increasingly emphasizing the role of innovation in development Fostering transformation and growth in Niger s agricultural sector seeks to further the understanding of potential innovations that can sustainably transform the agriculture sector in Niger This publication uses the agricultural value chain perspective to provide a reference point for improvements in supporting services and the business environment The first part describes several innovations that could contribute to enhancing agricultural productivity Particularly interesting is the emphasis on the grassroots nature of some of these innovations The second part offers a reference point for improvements in supporting services the business and institutional environments that can contribute to pro poor initiatives and to a stronger linkage of smallholders to markets The comprehensive approach taken in

this book ensures its contribution to an understanding of transformative innovations in agriculture as well as enabling conditions

The Unfinished Revolution in Nigeria's Niger Delta Cyril Obi, Temitope Oriola, 2018-06-04 The 1990s heralded waves of spectacular forms of local resistance and globalized protest against oil exploitation and environmental pollution in oil producing regions of the developing world One of the most spectacular local uprisings against global oil multinationals was led by the Ogoni people who were protesting against the exploitation and marginalization of oil producing ethnic minority communities in the Niger Delta region of Nigeria However the hanging on November 10 1995 of nine Ogoni ethnic minority and environmental justice activists including Ken Saro Wiwa only served to exacerbate protests in later years Within a decade dozens of locally rooted insurgent groups emerged in the Niger Delta and construed themselves as part of the social movement for ethnic minority rights and environmental justice which dates back to colonial times However the trajectory of the revolutionary momentum has changed over time reflecting a mix of progressive opportunistic and retrogressive trends This book provides a critical study of the trajectory of struggles in the Niger Delta since 1995 paying attention to continuities and changes including recent developments linked to the shift from local resistance to the rupturing of the Presidential Amnesty peace deal largely to the Movement for the Emancipation of the Niger Delta and the resurgence low intensity sporadic armed militancy led by the Niger Delta Avengers militia among others The contributors critically interrogate the nature of the region's political economy socio economic trends and trajectories over the past two decades This collection also accentuates the lessons learnt prospects for self determination socio economic and environmental justice and peace in the aftermath of the hanging
