Searching For Health

Lingsheng Yao

Searching For Health:

Searching for Health Kapil Parakh, Anna Dirksen, 2021-04-20 An insider's guide to searching online communicating with your physician and maximizing your health from a doctor who works at Google We've all been there Late at night staring into the glow of a phone trying to make sense of some health related issue that we know nothing about In *Searching for Health* Dr Kapil Parakh with Anna Dirksen brings to life knowledge he gained from working at Google and practicing medicine Helping readers avoid common pitfalls get the information they need and partner effectively with their health team to figure out a path to good health together the book distills decades of scientific research into a set of easy to follow tips It also incorporates firsthand accounts of common challenges on the path to good health an inside look at how doctors approach and assess health related information techniques that consumers can use to locate evidence based information online whether in blogs social media postings forums or news stories guidance on how individuals can make the best use of new technologies such as health trackers and other applications recommendations to help patients assess health information for themselves and make decisions based on what they find brief summaries of the scientific studies underpinning the recommendations and online and offline resources including handy checklists and worksheets to help readers prepare for appointments discuss tough topics with their doctors and take control of their health In addition to helping readers find evidence based information online the book provides insights into what you can expect from a visit to a doctor or hospital how to make a decision about surgery or other treatment what tests doctors will order which symptom trackers are really effective and what questions to ask about medications supplements and more *Searching for Health* is a valuable resource for charting a healthier path through life **Web Search: Public Searching of the Web** Amanda Spink, Bernard J.

Jansen, 2006-02-21 This book brings together results from the Web search studies we conducted from 1997 through 2004 The aim of our studies has been twofold to examine how the public at large searches the Web and to highlight trends in public Web searching The eight year period from 1997 to 2004 saw the beginnings and maturity of public Web searching Commercial Web search engines have come and gone or endured through the fall of the dot com companies We saw the rise and in some cases the demise of several high profile publicly available Web search engines The study of the Web search is an exciting and important area of interdisciplinary research Our book provides a valuable insight into the growth and development of human interaction with Web search engines In this book our focus is on the human aspect of the interaction between user and Web search engine We do not investigate the Web search engines themselves or their constantly changing interfaces algorithms and features We focus on exploring the cognitive and user aspects of public Web searching in the aggregate We use a variety of quantitative and qualitative methods within the overall methodology known as transaction log analysis *Searching the Web for Health* Gary Paul Bryant, 2004 Sick and tired of trying to muddle through the enormous volume of confusing health information on the web Finding it impossible to distinguish factual remedies from contrived

marketing plays Searching the Web for Health is the up to date resource you can rely on to show you how to get the most out of surfing the web for the health information you need Whether you want to relieve a bad cough or find the most advanced research on cancer treatment Searching the Web for Health will help you separate fact from fiction and give you the strategies knowledge and expert resources you need to navigate through the web with ease and confidence Written by a technology professional and consumer health advocate Searching the Web for Health weeds out the medical miracles from the medical marketing including 400 hospital university and private company websites all actively involved in cutting edge health care Search engines and directories to steer you towards finding your answers Health information on the web Search techniques With Searching the Web for Health you can now actively and informatively contribute to the medical decisions that affect your life

What Matters for Health and Happiness Among the Older Adults in Asia Nai Peng

Tey, Halimah Awang, Shekhar Chauhan, 2024-03-11 People want to live a healthy and happy later life A large body of literature shows the close association between health status and happiness and between health and active engagement in work exercise and social and religious activities However the causation between the two can run both ways and it is difficult to determine the causal effect with cross sectional data Various authors have shown the significant influence of socioeconomic factors and human needs on older people's health status and happiness A better understanding of the factors affecting healthy and happy aging is essential for policymaking to improve the well being of older people The availability of data from HRS family studies in several Asian countries CHARLS in China LASI in India JSTAR in Japan KLoSA in Korea IFLS in Indonesia HART in Thailand MARS in Malaysia and Longitudinal Study of Ageing and Health in Viet Nam see Gateway to Global Aging Data provides an excellent opportunity for researchers to examine factors affecting health and happiness among older adults within and across Asian countries This research topic aims to gather papers that investigate the socioeconomic attitudinal and behavioural factors affecting the health status and happiness life satisfaction of older adults in Asia The dependent variables may include physical health mental health disability ADL IADL cognitive functioning self rated health health expenditure feeling of happiness and life satisfaction The independent variables may be age gender marital status place of residence educational level active engagement work exercise social and religious activities family and social relationship and support outlook in life smoking drinking and access to and utilization of healthcare services etc Manuscripts can be based on individual countries or cross country analysis preferably using the panel data to establish the causal effects of the independent variables on the dependent variables

Technology and Adolescent Mental Health Megan A.

Moreno, Ana Radovic, 2018-03-01 This comprehensive book provides a framework for healthcare providers working with the dual challenges and opportunities presented by the intersection of mental health and technology Technology and Adolescent Mental Health provides recent evidence based approaches that are applicable to clinical practice and adolescent care with each chapter including a patient case illustrating key components of the chapter contents Early chapters address the

epidemiology of mental health while the second section of the book deals with how both offline and online worlds affect mental health presenting both positive and negative outcomes and focusing on special populations of at risk adolescents The third section of the book focuses on technology uses for observation diagnosis or screening for mental health conditions The final section highlights promising future approaches to technology and tools for improving intervention and treatment for mental health concerns and illnesses This book will be a key resource for pediatricians family physicians internal medicine providers adolescent medicine and psychiatry specialists psychologists social workers as well as any other healthcare providers working with adolescents and mental health care *International Handbook of Health Literacy* Ullrich Bauer, Paulo Pinheiro, Diane Levin-Zamir, Orkan Okan, Kristine Sørensen, 2019-07-31 Available Open Access under CC BY NC licence Health literacy addresses a range of social dimensions of health including knowledge navigation and communication as well as individual and organizational skills for accessing understanding evaluating and using information Particularly over the past decade health literacy has globally become a major public health concern as an asset for promoting health wellbeing and sustainable development This comprehensive handbook provides an invaluable overview of current international thinking about health literacy highlighting cutting edge research policy and practice in the field With a diverse team of contributors the book addresses health literacy across the life span and offers insights from different populations and settings Providing a wide range of major findings the book outlines current discourse in the field and examines necessary future dialogues and new perspectives *Searching Skills Toolkit* Caroline De Brún, Nicola Pearce-Smith, 2011-09-23 The distinguishing feature of this pocket sized searching skills book like all the Toolkit series titles is its user friendliness The guiding principle is that readers do not want to become librarians but they are faced with practical difficulties when searching for evidence such as lack of skills lack of time and information overload They need to learn simple search skills and be directed towards the right resources to find the best evidence to support their decision making A user friendly Hands On guide to literature searching which is an essential skill for all involved in health care research and development researchers and students from all disciplines **Social Informatics** Anwitaman Datta, Stuart Shulman, Baihua Zheng, Shou-De Lin, Aixin Sun, Ee-Peng Lim, 2011-10-12 This book constitutes the proceedings of the Third International Conference on Social Informatics SocInfo 2011 held in Singapore in October 2011 The 15 full papers 8 short papers and 13 posters included in this volume were carefully reviewed and selected from 68 full paper and 13 poster submissions The papers are organized in topical sections named network analysis eGovernance and knowledge management applications of network analysis community dynamics case studies trust privacy and security peer production Stress and Anxiety. Theory, practice and measurement Kathleen A. Moore, Petra Buchwald, 2020-09-20 The selection of peer reviewed chapters in this edition of Stress and Anxiety addresses three major areas of topical interest Theory practice and measurement Authors ask What is the meaning of stress and offer a reconceptualization of the topic They take us on a journey across decades of strategies we use to cope with stress

Recommendations for practice based on theory form a significant part of this edition A focus on children and practice implications at home and in the school are presented All papers presented in this volume are not only relevant to theory and understanding factors which influence behaviour but most importantly there are significant implications for practice and measurement *The Essential Guide to the Internet for Health Professionals* Sydney Chellen,2013-07-23 First published in

2003 Routledge is an imprint of Taylor Francis an informa company **Technology and Adolescent Health** Megan A. Moreno,Andrea J. Hoopes,2020-03-20 Technology and Adolescent Health In Schools and Beyond discusses how today s adolescents are digital natives using technology at home and in school to access information for entertainment to socialize and do schoolwork This book summarizes research on how technology use impacts adolescent mental health sleep physical activity and eating habits In addition it identifies monitoring and screening technology based tools for use with adolescents
