Season In Heaven True Tales From The Road To Kathmandu:

A Season in Heaven David Tomory, 1998 *Far Out* Mark Liechty, 2017-02-21 Westerners have long imagined the Himalayas as the world's last untouched place and a repository of redemptive power and wisdom. Beatniks, hippie seekers, spiritual tourists, mountain climbers, diverse groups of people have traveled there over the years searching for their own personal Shangri La. In *Far Out*, Mark Liechty traces the Western fantasies that captured the imagination of tourists in the decades after World War II, asking how the idea of Nepal shaped the everyday cross-cultural interactions that it made possible. Emerging from centuries of political isolation but eager to engage the world, Nepalis struggled to make sense of the hordes of exotic enthusiastic foreigners. They quickly embraced the phenomenon, however, and harnessed it to their own ends by building tourists' fantasies into their national image and crafting Nepal as a premier tourist destination. Liechty describes three distinct phases: the postwar era when the country provided a Raj-like throwback experience for rich Americans; Nepal's emergence as an exotic outpost of hippie counterculture in the 1960s; and its rebranding into a hip adventure destination which began in the 1970s and continues today. He shows how Western projections of Nepal as an isolated place inspired creative enterprises and paradoxically allowed locals to participate in the global economy. Based on twenty-five years of research, *Far Out* blends ethnographic analysis, a lifelong passion for Nepal, and a touch of humor to produce the first comprehensive history of what tourists looked for and found on the road to Kathmandu.

Nepal Rising: Journey from Monarchy to Democracy Dr. TC Rao, 2024-04-09 *Nepal Rising: Journey from Monarchy to Democracy* chronicles the transformative narrative of Nepal's transition from a monarchy to a democratic republic. Spanning three decades of political upheaval, the book delves into the historical, social, and cultural forces that shaped Nepal's path towards democracy. It explores the people's resilience and their quest for freedom, equality, and justice in the face of political turmoil, civil unrest, and natural disasters. The narrative follows key events such as the 1990 People's Movement, the Maoist insurgency, and the abolition of the monarchy, offering insights into the challenges and triumphs of this monumental shift. Through personal anecdotes, political analysis, and societal perspectives, the book captures the spirit of Nepal's journey, highlighting the country's rich tapestry of diversity, struggle, and hope for the future.

Lifestyle Migration Michaela Benson, 2016-05-06 Relatively affluent individuals from various corners of the globe are increasingly choosing to migrate, spurred on by the promise of a better and more fulfilling way of life within their destination. Despite its increasing scale, migration academics have yet to consolidate and establish lifestyle migration as a subfield of theoretical enquiry. Until now, this volume offers a dynamic and holistic analysis of contemporary lifestyle migrations, exploring the expectations and aspirations which inform and drive migration alongside the realities of life within the destination. It also recognizes the structural conditions and constraints which frame lifestyle migration, laying the groundwork for further intellectual enquiry. Through rich empirical case studies, this volume addresses this important and increasingly common form of migration in a manner that will interest scholars of

cultural practices of this new middle class examining such phenomena as cinema and video viewing popular music film magazines local fashion systems and advertising He explores three interactive and mutually constitutive ethnographic terrains a burgeoning local consumer culture a growing mass mediated popular imagination and a recently emerging youth culture He shows how an array of local cultural narratives stories of honor value prestige and piety flow in and around global narratives of progress modernity and consumer fulfillment Urban Nepalis simultaneously adopt and critique these narrative strands braiding them into local middle class cultural life Building on both Marxian and Weberian understandings of class this study moves beyond them to describe the lived experience of middle classness how class is actually produced and reproduced in everyday practice It considers how people speak and act themselves into cultural existence carving out real and conceptual spaces in which to produce class culture

Backpack Ambassadors Richard Ivan Jobs, 2017-05-23 Even today in an era of cheap travel and constant connection the image of young people backpacking across Europe remains seductively romantic In Backpack Ambassadors Richard Ivan Jobs tells the story of backpacking in Europe in its heyday the decades after World War II revealing that these footloose young people were doing more than just exploring for themselves Rather with each step each border crossing each friendship they were quietly helping knit the continent together From the Berlin Wall to the beaches of Spain the Spanish Steps in Rome to the Pudding Shop in Istanbul Jobs tells the stories of backpackers whose personal desire for freedom of movement brought the people and places of Europe into ever closer contact As greater and greater numbers of young people trekked around the continent and a truly international youth culture began to emerge the result was a Europe that even in the midst of Cold War tensions found its people more and more connected their lives more and more integrated Drawing on archival work in eight countries and five languages and featuring trenchant commentary on the relevance of this period for contemporary concerns about borders and migration Backpack Ambassadors brilliantly recreates a movement that was far more influential and important than its footsore travelers could ever have realized

Consuming Germany in the Cold War David F. Crew, 2003-09-01 Sitting in the ruins of the Third Reich most Germans wanted to know which of the two post war German states would erase the material traces of their wartime suffering most quickly and most thoroughly Consumption and the quality of everyday life quickly became important battlefields upon which the East West conflict would be fought This book focuses on the competing types of consumer societies that developed over time in the two Germanies and the legacy each left Consuming Germany in the Cold War assesses why East Germany increasingly fell behind in this competition and how the failure to create a viable socialist consumer society in the East helped lead to the fall of the Berlin Wall in 1989 By the 1970s East Germans were well aware that the regime's bombastic promises that the GDR would soon overtake the West had become increasingly hollow For most East German citizens West German consumer society set the standards that East Germany repeatedly failed to meet By exploring the ways in which East and West Germany have functioned as each other's other since 1949 this book suggests some of the possibilities for a new narrative of post war German history While taking into account the very different paths pursued by East and West Germany since 1949 the contributors demonstrate the importance of competition and highlight the connections between the two German successor states as well as the ways in which these relationships changed throughout the period By understanding the legacy that forty plus years of rivalry established we can gain a better understanding of the current tensions between the eastern and western regions of a united Germany
