CMG President of the New South Wales Court of Appeal The imperial view of Australian law was that it was a weak derivative of English law In *An Unruly Child* Bruce Kercher rewrites history He reveals that since 1788 there has been a contest between the received legal wisdom of Mother England and her sometimes unruly offspring The resulting law often suited local interests but was not always more just Kercher also shows that law has played a major role in Australian social history From the convict settlements and the Eureka stockade in the early years to the Harvester Judgement the White Australia Policy and most recently the Mabo case central themes of Australian history have been framed by the legal system *An Unruly Child* is a groundbreaking work which will influence our understanding of Australia's history and its legal system

Governing Social Protection in the Long Term Gaby Ramia, 2020-06-30 This open access book examines the comparative evolution of social protection in Australia and New Zealand from 1890 to the present day focusing on the relationship between employment relations and social policy Utilising longstanding and more recent developments in historical institutionalist methodology Ramia investigates the relationship between these two policy domains in the context of social protection theory He argues that treating employment relations as dynamic and as inextricably intertwined with changes in the welfare state over time allows for more accurate portrayal of similarity and difference in social protection The book will be of most interest to researchers advanced undergraduate and postgraduate students in social policy employment relations public policy social and political history and comparative politics *Researching Terrorism, Peace and Conflict Studies* Ioannis Tellidis, Harmonie Toros, 2015-02-11 This book examines potential synergies between the fields of Terrorism Studies and Peace and Conflict Studies The volume presents theoretically and empirically informed contributions which shed light on whether the two fields can inform each other on issues of mutual interest and importance The book examines key themes including the conceptualisation of peace and violence the exceptionalisation of terrorist violence the relationship between scholarship and political power the dysfunctionality of the liberal peace and the opportunities offered by post liberal peacebuilding frameworks and the implications and challenges of cyber terrorism and cyber conflict Furthermore the book intends to be a launching pad for future debate on whether the recent critical turn in terrorism studies can offer a pathway

for peace studies to engage with the so far largely ignored question of power. Consisting of not only key scholars but also practitioners and policy makers the contributors present a number of case studies including Colombia, Northern Ireland, the Basque Country and Iraq where they explore the relationships between terrorism and peace and conflict approaches. They critically analyse the statist approach inherent in both terrorism approaches and liberal peacebuilding frameworks, the role of the grassroots levels of society, the inefficiency of simplistic frameworks of understanding and implementation and the chains of governance from international and transnational actors to national actors and finally from national to local actors. This book will be of much interest to students of terrorism studies, peace and conflict studies, IR and security studies.
