Lord Methuen And The British Army:

Lord Methuen and the British Army Stephen M. Miller, 2012-11-12 This study analyzes the readiness of the British military establishment for war in 1899 and its performance in the South African War 1899-1902. It focuses on the career of Field Marshal Paul Sanford 3rd Baron Methuen whose traditional military training used so effectively in Queen Victoria's small wars was put to the test by the modern challenges of the South African War. A subsidiary aim of this work is to correct and refine the historical consensus that Methuen's campaigning in the South African War was plagued by practical errors and poor judgement. The South African War was a crucial transitional episode in the history of the British army. Unlike Great Britain's other expeditions it required the concentrated resources of the entire empire. It was a modern war in the sense that it employed the technology, the weaponry, the communications and the transportation of the second industrial revolution.

Lord Methuen and the South African War Stephen M. Miller, 1996 **The Boer War** John Gooch, 2013-10-23 This collection of essays by leading British and South African scholars looking at the Boer War focuses on three aspects: how the British Military functioned, the role of the Boers, Afrikaners and Zulus, and the media presentation of the war to the public.

A Cultural History of Firearms in the Age of Empire Karen Jones, 2016-03-16 Firearms have been studied by imperial historians mainly as means of human destruction and material production. Yet firearms have always been invested with a whole array of additional social and symbolical meanings. By placing these meanings at the centre of analysis, the essays presented in this volume extend the study of the gun beyond the confines of military history and the examination of its impact on specific colonial encounters. By bringing cultural perspectives to bear on this most pervasive of technological artefacts, the contributors explore the densely interwoven relationships between firearms and broad processes of social change. In so doing, they contribute to a fuller understanding of some of the most significant consequences of British and American imperial expansions. Not the least original feature of the book is its global frame of reference. Bringing together historians of different periods and regions, *A Cultural History of Firearms in the Age of Empire* overcomes traditional compartmentalisations of historical knowledge and encourages the drawing of novel and illuminating comparisons across time and space. The

Nineteenth Century and After, 1924 **Encyclopedia of African Colonial Conflicts** Timothy J. Stapleton, 2016-11-07 Two volumes introduce the history of colonial wars in Africa and illustrate why African countries like the Democratic Republic of Congo, Nigeria, Somalia and Sudan continue to experience ethnic, political and religious violence in the early 21st century. This sweeping study examines the wars of colonial conquest fought in Africa during the 19th and early 20th centuries. From Britain's efforts to wrest control of the Sudan from military leader Muhammad Ahmad al Mahdi to Italy's decisive defeat at the Battle of Adowa in Ethiopia to Leopold II's brutal reign over the Belgian Congo, the work surveys the devastation reaped upon the continent by colonization and illustrates how its combative influence continues to resonate in Africa today. Written by scholars in the fields of history and politics, this complete reference includes entries on wars, campaigns, rebellions, battles,

leaders and organizations The work delves into key historical periods including the Scramble for Africa ca 1880 to 1910 early European colonial wars in Africa such as the Dutch in the Cape and the Portuguese in Angola and Mozambique and African rebellions against the early colonial state in the 1890s and early 1900s Entries feature prominent events and personalities as well as lesser known occurrences and players

insights into the archaeology and topography of the site also detailing forgotten burial sites of human casualties from all sides. Consequently, original findings emerge with regards to Boer positioning and tactics: a British outflanking manoeuvre at Magersfontein Hill that almost worked and Boer counter attacks and the use of mobility rather than the previously expounded notion that they sat passively parked in trenches as most narratives present. Insights into military commanders emerge never before published. Importantly, the war between the Generals which this work uncovers, relying on unpublished recollections of conversations between senior officers from both sides. The loathing between two prominent Boer generals, as too the incompetence of the leading British General, glossed over for 122 years. Captured in this infighting were loyal, efficient and brave British and Boer commanders and ordinary soldiers from both sides. Many of whose voices speak through this narrative for the first time, doing justice and testimony to their unique yet terrifying experiences and observations of warfare in Victory and Defeat on the South African Veld.
