### **Maya Palaces and Elite Residences**

Jessica Joyce Christie, 2010-01-01 Maya palaces have intrigued students of this ancient Mesoamerican culture since the early twentieth century when scholars first applied the term palace to multi room gallery like buildings set on low platforms in the centers of Maya cities Who lived in these palaces What types of ceremonial and residential activities took place there How do the physical forms and spatial arrangement of the buildings embody Maya concepts of social organization and cosmology This book brings together state of the art data and analysis regarding the occupants ritual and residential uses and social and cosmological meanings of Maya palaces and elite residences A multidisciplinary team of senior researchers reports on sites in Belize Blue Creek Western Honduras Copan the Peten Tikal Dos Pilas Aguateca and the Yucatan Uxmal Chichen Itza Dzibilchaltun Yaxuna Archaeologist contributors discuss the form of palace buildings and associated artifacts their location within the city and how some palaces related to landscape features Their approach is complemented by art historical analyses of architectural sculpture epigraphy and ethnography Jessica Joyce Christie concludes the volume by identifying patterns and commonalties that apply not only to the cited examples but also to Maya architecture in general

*White Roads of the Yucatán* Justine M. Shaw, 2008 Maya sacbeob or raised white roads are often considered a single class of features with a sole purpose In this first systematic examination of their functions meanings arrangements and construction styles Justine Shaw reveals that these causeways served a variety of cultural and natural functions In *White Roads of the Yucatán* author Justine Shaw presents original field data collected with the Coahuah Regional Archaeological Survey at two ancient Maya sites Ichmul and Yo okop Both centers chose to invest enormous resources in the construction of monumental roadways during a time of social and political turmoil in the Terminal Classic period Shaw carefully examines why it was at this point and no other that the settlements made such a decision She argues that both settlements used the sacbeob as a method of socially integrating the largest most diverse and dispersed population in the Coahuah region She further demonstrates that their use of the sacbeob in concert with other innovative strategies allowed Ichmul and Yo okop to outlast many of the sites that they may have sought to emulate and to flourish during a time of tremendous sociopolitical and economic change In addition to her detailed discussion of these two sites Shaw provides an exhaustive review of the literature of Maya sacbeob archaeology describing various interpretations of construction features and variability This synthetic and interpretive treatment will aid researchers working on a variety of complex civilizations with road systems as

Braswell, 2009-07-21 The contributors to this volume present extensive new evidence from archaeology iconography and epigraphy to offer a more nuanced understanding of the interaction between the Early Classic Maya and Teotihuacan Winner Choice Outstanding Academic Book 2005 Since the 1930s archaeologists have uncovered startling evidence of interaction between the Early Classic Maya and the great empire of Teotihuacan in Central Mexico Yet the exact nature of the relationship between these two ancient Mesoamerican civilizations remains to be fully deciphered Many scholars have assumed that Teotihuacan colonized the Maya region and dominated the political or economic systems of certain key centers perhaps even giving rise to state level political organizations Others argue that Early Classic rulers merely traded with Teotihuacan and skillfully manipulated its imported exotic goods and symbol sets to increase their prestige Moving beyond these traditional assumptions the contributors to this volume present extensive new evidence from archaeology iconography and epigraphy to offer a more nuanced understanding of the interaction between the Early Classic Maya and Teotihuacan Investigating a range of Maya sites including Kaminaljuyu Cop n Tikal Altun Ha and Oxkintok they demonstrate that the influence of Teotihuacan on the Maya varied in nature and duration from site to site requiring a range of models to explain the patterns of interaction Moreover they show that the interaction was bidirectional and discuss how the Maya in turn influenced Teotihuacan     **Living with the Dead** James L. Fitzsimmons, Izumi Shimada, 2020-03-13 Scholars have recently achieved new insights into the many ways in which the dead and the living interacted from the Late Preclassic to the Conquest in Mesoamerica The eight essays in this useful volume were written by well known scholars who offer cross disciplinary and synergistic insights into the varied articulations between the dead and those who survived them From

physically opening the tomb of their ancestors and carrying out ancestral heirlooms to periodic feasts sacrifices and other lavish ceremonies heirs revisited death on a regular basis The activities attributable to the dead moreover range from passively defining territorial boundaries to more active exploits such as dancing at weddings and witnessing royal accessions The dead were and continued to be a vital part of everyday life in Mesoamerican cultures This book results from a symposium organized by the editors for an annual meeting of the Society for American Archaeology The contributors employ historical sources comparative art history anthropology and sociology as well as archaeology and anthropology to uncover surprising commonalities across cultures including the manner in which the dead were politicized the perceptions of reciprocity between the dead and the living and the ways that the dead were used by the living to create define and renew social as well as family ties In exploring larger issues of a good death and the transition from death to ancestry the contributors demonstrate that across Mesoamerica death was almost never accompanied by the extinction of a persona it was more often the beginning of a social process than a conclusion

**Making Senses of the Past** Jo Day, 2013-03-19 Since the nineteenth century museums have kept their artifacts in glass cases to better preserve them and drawings and photographs have become standard ways of presenting the past These practices have led to an archaeology dominated by visual description even though human interaction with the surrounding world involves the whole body and all of its senses In the past few years sensory archaeology has become more prominent and Making Senses of the Past is one of the first collected volumes on this subject This book presents cutting edge research on new theoretical issues The essays presented here take readers on a multisensory journey around the world and across time In ancient Peru a site provides sensory surprises as voices resound beneath the ground and hidden carvings slowly reveal their secrets In Canada and New Zealand the flicker of reflected light from a lake dances on the faces of painted rocks and may have influenced when and why the pigment was applied In Mesopotamia vessels for foodstuffs build a picture of a past cuisine that encompasses taste and social activity in the building of communities While perfume and flowers are examined in various cultures in the chamber tombs of ancient Roman Palestine we are reminded that not all smells are pleasant Making Senses of the Past explores alternative ways to perceive past societies and offers a new way of wiring archaeology that incorporates the senses

**Understanding Early Classic Copan** Ellen E. Bell, Marcello A. Canuto, Robert J. Sharer, 2004 The book is not just multidisciplinary but interdisciplinary linking for example the architecture of monuments with epigraphy language concepts and human events

Death and the Classic Maya Kings James L. Fitzsimmons, 2010-01-01 Like their regal counterparts in societies around the globe ancient Maya rulers departed this world with elaborate burial ceremonies and lavish grave goods which often included ceramics red pigments earflares stingray spines jades pearls obsidian blades and mosaics Archaeological investigation of these burials as well as the decipherment of inscriptions that record Maya rulers funerary rites have opened a fascinating window on how the ancient Maya envisaged the ruler's passage from the world of the living to the realm of the ancestors Focusing on the Classic

Period AD 250 900 James Fitzsimmons examines and compares textual and archaeological evidence for rites of death and burial in the Maya lowlands from which he creates models of royal Maya funerary behavior Exploring ancient Maya attitudes toward death expressed at well known sites such as Tikal Guatemala and Copan Honduras as well as less explored archaeological locations Fitzsimmons reconstructs royal mortuary rites and expands our understanding of key Maya concepts including the afterlife and ancestor veneration Archaeology of Performance Takeshi Inomata, Lawrence S. Coben, 2006-03-09 Performances in the premodern communities shaped identities created meanings generated and maintained political control But unlike other social scientists archaeologists have not worked much with these concepts Archaeology of Performance shows how the notions of theatricality and spectacle are as important economics and politics in understanding how ancient communities work Without sacrificing conceptual rigor the contributors draw on the wide ranging literature on performance Without sacrificing material evidence they try to see how performance creates meaning and ideology Drawing on evidence from societies large and small Archaeology of Performance offers an important new ways of understanding ancient theaters of power **Urbanism in the Preindustrial World** Glenn R. Houk, Barbara Arroyo, Terry G. Powis, 2019-12-11 This volume brings together a wide spectrum of new approaches to ancient Maya studies in an innovative exploration of how the Preclassic and Classic Maya shaped their world Moving beyond the towering temples and palaces typically associated with the Maya civilization contributors present unconventional examples of monumental Maya landscapes Featuring studies from across the central Maya lowlands Belize and the northern and central Maya highlands and spanning over 10 000 years of human occupation in the region these chapters show how the word monumental can be used to describe natural and constructed landscapes political and economic landscapes and ritual and sacred landscapes Examples include a massive system of aqueducts and canals at the Kaminaljuyu site a vast arena designed for public spectacle at Chan Chich and even the complex realms of Maya cosmology as represented by the ritual cave at Las Cuevas By including physical conceptual and symbolic ways monumentality pervaded ancient Maya culture this volume broadens traditional understandings of how the Maya interacted with their environment and provides exciting analytical perspectives to guide future study A volume in the series *Maya Studies* edited by Diane Z Chase and Arlen F Chase **Megadrought and Collapse** Harvey Weiss, 2017-09-01 *Megadrought and Collapse* is the first book to treat in one volume the current paleoclimatic and archaeological evidence of megadrought events coincident with major prehistoric and historical examples of societal collapse Previous works have offered multi causal explanations for collapse from overpopulation overexploitation of resources and warfare to poor leadership and failure to adapt to environmental changes In earlier synthetic studies of major instances of collapse the full force of climate change has often not been considered This volume includes nine case studies that span the globe and stretch over fourteen thousand years from the paleolithic hunter gatherer collapse of the 12th millennium BC to the 15th century AD fall of the Khmer capital at Angkor Together the studies constitute a primary sourcebook in which principal investigators in archaeology and paleoclimatology present their original research Each case study juxtaposes the latest paleoclimatic evidence of megadrought so called for its severity and its decades to centuries long duration with available archaeological records of synchronous societal collapse The megadrought data are derived from all five archival paleoclimate proxy sources speleothems cave stalagmites tree rings and lake marine and glacial cores The archaeological records in each case are the most recently retrieved With *Megadrought and Collapse* Harvey Weiss and his team of expert contributors have assembled an authoritative investigation that is certain to engage environmental history readers across disciplines in the sciences and social sciences **Unmaking Waste** Sarah Newman, 2023-05-26 In *Unmaking Waste* Sarah Newman asks what happens when there are disagreements about what constitutes waste and what one should do with it both at singular moments in time for example when ideas about waste collide in emerging colonial contexts and across time such as between those who left

things behind in the past and the archaeologists who recover them Newman examines ancient Mesoamerican understandings of waste Euro American perceptions of waste in New Spain and early modern European ideals of civility and Christian understandings of good and bad expressed metaphorically through cleanliness and filth These differing perceptions Newman argues demands that we rethink centuries of assumptions imposed on other places times and peoples so long as waste remains a category misunderstood to be common sensical and stable archaeological methods will prove unequal to their task Newman instead proposes anamorphic archaeology an approach that emphasizes the possibility that archaeological objects have multiple physical and conceptual lives

*Rabinal Achi* Dennis Tedlock,2003-09-04 Tedlock s photographs and diagrams accompany the text capturing nuances not apparent in the dialogue alone He also provides an introduction and commentary that explains the historical events compressed into the play the Spanish influence on the Mayan dramatic tradition and the cultural and religious world preserved in this remarkable play
