Los Angeles :

Looking for Los Angeles Charles G. Salas, Michael S. Roth, 2001 In *Looking for Los Angeles* 12 contributors present their responses to the world's newest major city. A variety of perspectives and approaches are covered. The text balances the importance of place with the importance of culture.

Discover Los Angeles Letitia Burns O'Connor, 1997 This complete guidebook describes the rich and varied cultural resources of Los Angeles. Organized by neighborhood, the book offers in-depth information on more than 200 cultural resources in the area along with contact information and hours of operation. Places such as museums, landmarks, parks, and libraries are included along with maps noting their locations. A special chapter is devoted to educational programs for children and teens, making this book an excellent reference for teachers, parents, and visitors alike. Kevin Starr, California State Librarian, provides an introductory overview of the city's cultural history and treasures. In addition, local experts provide personal listings of cultural venues. Noriko Fujinami lists public art and murals that can be found in this city of murals. Sharon K. Emanuelli lists some of Los Angeles's important commercial art galleries and other art resources. Margaret Trumbull talks about virtual L.A. Peter Henn lists Tinseltown's many attractions for film buffs. Ellen Kraut Hasagawa points out the places where one can explore literary L.A. Tom Provenzano lists the spots where one can sample the lively Los Angeles theater scene, and Carol Reese lists the famous and not so famous architectural and historical monuments in the city.

The Fragmented Metropolis Robert M. Fogelson, 1993-06-09 Here, with a new preface, a new foreword, and an updated bibliography, is the definitive history of Los Angeles from its beginnings as an agricultural village of fewer than 2,000 people to its emergence as a metropolis of more than 2 million in 1930, a city whose distinctive structure, character, and culture foreshadowed much of the development of urban America after World War II.

A People's Guide to Los Angeles Laura Pulido, Laura R. Barraclough, Wendy Cheng, 2012-04-23 *A People's Guide to Los Angeles* offers an assortment of eye-opening alternatives to L.A.'s usual tourist destinations. It documents 115 little-known sites in the City of Angels where struggles related to race, class, gender, and sexuality have occurred. They introduce us to people and events usually ignored by mainstream media and, in the process, create a fresh history of Los Angeles. Roughly dividing the city into six regions—North Los Angeles, the Eastside, and San Gabriel Valley, South Los Angeles, Long Beach, and the Harbor, the Westside, and the San Fernando Valley—this illuminating guide shows how power operates in the shaping of places and how it remains embedded in the landscape.

The Los Angeles River Blake Gumprecht, 2001-04-30 Winner of the J.B. Jackson Prize from the Association of American Geographers, *Three centuries ago the Los Angeles River meandered through marshes and forests of willow and sycamore. Trout spawned in its waters, and grizzly bears roamed its shores. The bountiful environment the river helped create supported one of the largest concentrations of Indians in North America. Today, the river is made almost entirely of concrete, chain-link fence, and barbed wire. Line its course shopping carts and trash litter its channel. Little water flows in the river most of the year, and nearly all that does is treated sewage and oily street runoff. On*

much of its course the river looks more like a deserted freeway than a river The river's contemporary image belies its former character and its importance to the development of Southern California Los Angeles would not exist were it not for the river and the river was crucial to its growth Recognizing its past and future potential a potent movement has developed to revitalize its course The Los Angeles River offers the first comprehensive account of a river that helped give birth to one of the world's great cities significantly shaped its history and promises to play a key role in its future **Los Angeles** John Walton Caughey, LaRee Caughey, 2023-09-01 Los Angeles City of Angels A city with a remarkable history over 200 years old Interwoven with the Caughey's commentary are over 100 of the choicest essays on Los Angeles The saga of cowtown turned post war metropolis unfolds before the reader Los Angeles City of Angels A city with a remarkable history over 200 years old Interwoven with the Caughey's commentary are over 100 of the choicest essays on Los Angeles The saga of cowtown turned post war metropolis unfolds before the reader *City at the Edge of Forever* Peter Lunenfeld, 2021-08-10 An engaging account of the uniquely creative spirit and bustling cultural ecology of contemporary Los Angeles How did Los Angeles start the 20th century as a dusty frontier town and end up a century later as one of the globe's supercities with unparalleled cultural economic and technological reach In *City at the Edge of Forever* Peter Lunenfeld constructs an urban portrait layer by layer from serendipitous affinities historical anomalies and uncanny correspondences In its pages modernist architecture and lifestyle capitalism come together via a surfer girl named Gidget Joan Didion's yellow Corvette is the brainchild of a car crazy Japanese American kid interned at Manzanar and the music of the Manson Family segues into the birth of sci fi fandom One of the book's innovations is to brand Los Angeles as the alchemical city Earth became real estate when the Yankees took control in the nineteenth century Fire fueled the city's early explosive growth as the Southland's oil fields supplied the inexhaustible demands of drivers and their cars Air defined the area from WWII to the end of the Cold War with aeronautics and aerospace dominating the region's industries Water is now the key element and Southern California's ports are the largest in the western hemisphere What alchemists identify as the ethereal fifth element or quintessence this book positions as the glamour of Hollywood a spell that sustains the city but also needs to be broken in order to understand Los Angeles now Lunenfeld weaves together the city's art architecture and design juxtaposes its entertainment and literary histories and moves from restaurant kitchens to recording studios to ultra secret research and development labs In the process he reimagines Los Angeles as simultaneously an exemplar and cautionary tale for the 21st century Los Angeles, a City Apart David L. Association for Chicana and Chicano Studies City plazas worldwide are centers of cultural expression and artistic display They are settings for everyday urban life where daily interactions economic exchanges and informal conversations occur thereby creating a socially meaningful place at the core of a city At the heart of historic Los Angeles the Plaza represents a quintessential public space where real and imagined narratives overlap and provide as many questions as answers about the development of the city and what it means to be an Angeleno The author a social and cultural historian who specializes in nineteenth and early twentieth century Los Angeles is well suited to explore the complex history and modern day relevance of the Los Angeles Plaza From its indigenous and colonial origins to the present day Estrada explores the subject from an interdisciplinary and multiethnic perspective delving into the pages of local newspapers diaries and letters and the personal memories of former and present Plaza residents in order to examine the spatial and social dimensions of the Plaza over an extended period of time The author contributes to the growing historiography of Los Angeles by providing a groundbreaking analysis of the original core of the city that covers a long span of time space and social relations He examines the impact of change on the lives of ordinary people in a specific place and how this change reflects the larger story of the city Los Angeles Best Books on,1941 Federal Writers Project of the Work Progress Administration introduction by David Kipen
