Street Smart Gabriel Roth, 2017-07-05. The poor health of today's roads, a subject close to the hearts of motorists, taxpayers and government treasurers around the world, has resulted from faulty incentives that misdirect government decision makers according to the contributors to *Street Smart*. During the 1990s, bad government decision making resulted in the U.S. Interstate Highway System growing by only one seventh the rate of traffic growth. The poor maintenance of existing roads is another concern. In cities around the world, highly political and wasteful government decision making has led to excessive traffic congestion that has created long commutes, reduced safety and caused loss of leisure time. *Street Smart* examines the privatization of roads in theory and in practice. The authors see at least four possible roles for private companies beyond the well known one of working under contract to design, build or maintain governmentally provided roads. These include testing and licensing vehicles and drivers, management of government owned facilities, franchising and outright private ownership. Two chapters describe the history of private roads in the United Kingdom and the United States. Contemporary examples are provided of road pricing, privatizing and contracting out, are evident in environs as diverse as Singapore, Southern California and Scandinavia and cities as different as Bergen, Norway and London, England. Finally, several chapters examine strategies for implementing privatization. The principles governing providing scarce resources in free societies are well known. We apply them to such necessities as energy, food and water, so why not to road space. The main obstacle to private or semi private ownership of roads is likely to remain the reluctance of the political class to give up a lucrative source of power and influence. Those who want decisions about road services to be controlled by the interplay of consumers and suppliers in free markets rat

Street Smart Richard A. Blake, 2014-10-17. New York has appeared in more movies than Michael Caine and the resulting overfamiliarity to moviegoers poses a problem for critics and filmmakers alike. Audiences often mistake the New York image of skyscrapers and bright lights for the real thing when in fact the City is a network of clearly defined villages, each with a unique personality. Standard film depictions of New Yorkers as a rush hour mass of undifferentiated humanity obscure the connections formed between people and places in the City's diverse

neighborhoods Street Smart examines the cultural influences of New York's neighborhoods on the work of four quintessentially New York filmmakers Sidney Lumet Woody Allen Martin Scorsese and Spike Lee The City's heterogeneous economic and ethnic districts where people live work shop worship and go to school often bear little relation to the image of New York City created by the movies To these directors their home city is as tangible as the smell of fried onions in the stairwell of an apartment building and it is this New York not the bustling glittery illusion portrayed in earlier films that shapes their sensibilities and receives expression in their films Richard A Blake shows how the Jewish enclaves on Manhattan's Lower East Side profoundly influence Sidney Lumet's most noted characters as they struggle to form and maintain their identities under challenging circumstances Both Woody Allen's light comedies and his more serious cinematic fare reflect the director's origins in the Flatbush neighborhood in Brooklyn and the displacement he felt after relocating to Manhattan Martin Scorsese's upbringing on Elizabeth Street in Manhattan's Little Italy resonates in his gritty portraits of urban modernity Blake also looks at the films of Spike Lee whose adolescence in Fort Greene a socioeconomically diverse Brooklyn neighborhood exposed him to widely ranging views that add depth to his complicated treatises on power culture and race Lumet Allen Scorsese and Lee's individual identities were shaped by their neighborhoods and in turn their life experiences have shaped their artistic vision In Street Smart Richard A Blake examines the critical influence of place on the films of four of America's most accomplished contemporary filmmakers [Top 10 Los Angeles](#) Andrea Schulte-Peevers, Catherine Gerber, 2010-03-29 Drawing on the same standards of accuracy as the acclaimed DK Eyewitness Travel Guides DK Top 10 Los Angeles uses exciting photography and excellent cartography to provide a reliable and useful travel companion Dozens of Top 10 lists provide vital information on each destination as well as insider tips from avoiding the crowds to finding out the freebies The DK Top 10 Guides take the work out of planning any trip [Bibliographic Guide to Maps and Atlases](#), 1998
