## **Los Parentescos:**

A Companion to Carmen Martín Gaite Catherine O'Leary, Alison Ribeiro de Menezes, 2014-08-21 A comprehensive examination of the full range of Carmen Martín Gaite's work. Carmen Martín Gaite produced a large body of work in various genres over the course of her five-decade career, though she is primarily known as a novelist, short story writer, and social commentator. Her work at times reflects and at times defies the pattern of development in Spanish fiction since the 1950s. This Companion offers a re-reading of Martín Gaite's works, emphasizing her early experimentalism which culminated in mid-career works notably *El cuarto de atrás* and stressing how in the late 1960s and early 1970s when the majority of Spanish novelists were engaged in a critique of history, Martín Gaite turned to the writing of cultural history exploring its intersection with narrative fiction in a positivist rather than a nihilistic mode. Her exploration of gender issues, particularly mother-child relations, towards the end of her career anticipated new directions in feminist thought. Discussions of often ignored works such as poetry, drama, children's literature, and literary translations offer insight into sidelined aspects of this writer's literary output. Catherine O'Leary is Reader in Spanish at the University of St Andrews. Alison Ribeiro de Menezes is Professor of Spanish at the University of Warwick.

**Multilingualism in the Middle Ages and Early Modern Age** Albrecht Classen,2016-09-12 Bi and multilingualism are of great interest for contemporary linguists since this phenomenon deeply reflects on language acquisition language use and sociolinguistic conditions in many different circumstances all over the world Multilingualism was however certainly rather common already if not especially in the premodern world For some time now research has started to explore this issue through a number of specialized studies The present volume continues with the investigation of multilingualism through a collection of case studies focusing on important examples in medieval and early modern societies that is in linguistic and cultural contact zones such as England Spain the Holy Land but also the New World As all contributors confirm the numerous cases of multilingualism discussed here indicate strongly that the premodern period knew considerably less barriers between people of different social classes cultural background and religious orientation But we also have to acknowledge that already then human communication could fail because of linguistic hurdles which prevented

mutual understanding in religious and cultural terms

Approaches to Teaching the Works of Carmen Martín Gaite Joan L. Brown, 2013-01-01 The career of Spain's celebrated author Carmen Martín Gaite spanned the Spanish Civil War, Franco's dictatorship, and the nation's transition to democracy. She wrote fiction, poetry, drama, screenplays for television and film, and books of literary and cultural analysis. The only person to win Spain's National Prize for Literature (Premio Nacional de las Letras) twice, Martín Gaite explored and blended a range of genres from social realism to the fantastic, as she took up issues of gender, class, economics, and aesthetics in a time of political upheaval. Part 1 of this volume provides resources for instructors and a literary historical chronology. The essays in part 2 approaches consider Martín Gaite's best-known novel, *The Back Room* / *El cuarto de atrás*, and other works from various perspectives: narratological, feminist, sociocultural, and stylistic. In an appendix, the volume editor, who was a friend of the author, provides a new translation of Martín Gaite's only autobiographical sketch alongside the original Spanish.
