International Law, Museums and the Return of Cultural Objects Ana Filipa Vrdoljak, 2006-07-13 While the question of the return of cultural objects is by no means a new one it has become the subject of increasingly intense debate in recent years This important book explores the removal and the return of cultural objects from occupied communities during the last two centuries and analyses the concurrent evolution of international cultural heritage law The book focuses on the significant influence exerted by British U S and Australian governments and museums on international law and museum policy in response to restitution claims It shows that these claims far from heralding the long feared dissolution of museums and their collections provide museums with a vital new role in the process of self determination and cultural identity Compelling and thought provoking throughout this book is essential reading for archaeologists international lawyers and all those involved in cultural resource management *Encyclopedia of Transnational Crime and Justice* Margaret E. most prolific art looters Publishers Weekly Bruno Lohse 1911 2007 was one of the most notorious art plunderers in history Appointed by Hermann G ring to Hitler s art looting agency in Paris he went on to help supervise the systematic theft and distribution of more than thirty thousand artworks taken largely from French Jews and to assist G ring in amassing an enormous private art collection By the 1950s Lohse was officially denazified but was back in the art dealing world offering masterpieces of dubious origin to American museums After his death dozens of paintings by Renoir Monet and Pissarro among others were found in his Zurich bank vault and adorning the walls of his Munich home Jonathan Petropoulos spent nearly a decade interviewing Lohse and continues to serve as an expert witness for Holocaust restitution cases Here he tells the story of Lohse s life offering a critical examination of the postwar art world *Potential History* Ariella Aïsha Azoulay,2019-11-19 In this theoretical tour de force renowned scholar Ariella Asha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasised the possibility of progress while trying to destroy what came before and voraciously sought out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practising what she calls potential history Azoulay argues that we can still refuse the imperial violence that shattered communities lives and worlds from native peoples in the Americas to the Congo ruled by Belgium s brutal King Lopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In *Potential History* Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics **Absence / Presence** Stephen C. Feinstein,2005-08-11 Since the liberation of the Nazi concentration camps and recognition of the Holocaust as a watershed event of the twentieth century if not in Western Civilization itself the capacity of art to represent this event adequately has been questioned As it analyzes a cross section of Holocaust art within the context of art history *Absence Presence* addresses the discussion head on and explores the interchange between media and horror The book s contributors include case studies from a broad spectrum of artists in North America Europe and Israel to examine some of the more dominant themes in these artists work In addition to standard readings of Holocaust art the essays help illuminate the issues of eugenics the importance of art for Hitler and the Nazis the immense pilfering of art that occurred during World War II and the length and degree of the destruction of European Jewry which forced artists to reinvent their work through their own fate This selection of essays also provides alternative views to more typical readings on the

Holocaust specifically to the story of the Shoah as a relevant art subject and to those who have a right to create art about the Holocaust These issues were the subject of an intense international debate based on an exhibition at New York's Jewish Museum titled *Mirroring Evil* The retrospective brought to art a series of contemporary perspectives that represented both the outer edges as well as mainstream postmodern thinking concerning representations of the Holocaust This book which covers the art from the late 1980s through 2002 includes the work of an array of scholars curators and artists from many countries It will be of great interest to art historians Jewish scholars and anyone interested in learning more about the art and artists of the Holocaust

The Culture of Property Jordanna Bailkin, 2004-07-15 What kind of property is art Is it property at all Jordanna Bailkin s The Culture of Property offers a new historical response to these questions examining ownership disputes over art objects and artifacts during the crisis of liberalism in the United Kingdom From the 1870s to the 1920s Britons fought over prized objects from ancient gold ornaments dug up in an Irish field to a portrait of the Duchess of Milan at the National Gallery in London They fought to keep these objects in Britain to repatriate them to their points of origin and even to destroy them altogether Bailkin explores these disputes in order to investigate the vexed status of property within modern British politics as well as the often surprising origins of ongoing institutional practices Bailkin s detailed account of these struggles illuminates the relationship between property and citizenship which has constituted the heart of liberal politics as well as its greatest weakness Drawing on court transcripts gallery archives exhibition reviews private correspondence and a striking series of cartoons and photographs The Culture of Property traverses the history of gender material culture urban life colonialism Irish and Scottish nationalism and British citizenship This fascinating book challenges recent scholarship in museum studies in light of ongoing culture wars It
