Wright,2014-10-01 If the origin of the colonial period was accidental the ending was not The representatives of the thirteen colonies who approved the Declaration of Independence in 1776 charted a collision course aware of the obstacles in their path and the risks they were taking The events that led to their decision took place over a period of nearly 300 years Looking back the wonder is that it culminated so quickly For a century after its discovery the New World was little more than a lode to be mined by adventurers seeking profits It wasn't until the end of the sixteenth century that serious efforts were made to establish permanent colonies Even then the perils of the journey and threats of starvation inhibited settlement But settlers gradually came spurred in part by the fear of religious persecution but above all drawn by the hope of owning land They were a mixed lot English Separatists from Leiden French Huguenots Dutch burghers Mennonite peasants from the Rhine Valley and a few gentleman Anglicans But they shared a quality of toughness Here is their story from award winning historian Louis B Wright **The story of the sea. Ed. by Q, assisted by J.K. Laughton [and others. 2 vols., publ. in 24 pt.].** Arthur Quiller-Couch,1896 **The Cabot Voyages and Bristol Discovery under Henry VII** R.A. Skelton,2017-05-15 The voyages of John and Sebastian Cabot and their English contemporaries were made for the most part in search of a westward passage to Asia and they resulted in the revelation of North America The evidences are printed here with an indication of their origins Some are obscure in meaning incomplete in statement or mutually contradictory and we are left with the certainty that important documents have existed or may now exist which are still unknown Dr Williamson interprets the evidence we have Parts of his undertaking are in the nature of detective work and he does not claim that his solutions are final which would be impossible in the face of new evidence that may at any time occur Cabot study is a continuing mental adventure The maps are an important category of the evidence Mr R A Skelton of the British Museum has contributed a treatment of them authoritative in its explanations and a valuable admonition on what can and cannot be expected of the material This is a new print on demand hardback edition of the volume first published in 1962 **Crucial Maps in the Early Cartography and Place-Nomenclature of the Atlantic Coast of Canada** William F. Ganong,1964-12-15 The Transactions of the Royal Society of Canada for the years from 1929 to 1937 included a series in nine parts of important papers on Crucial Maps which have been a frequent source of reference ever since for students of the history of discovery and of early cartography Their author William Francis Ganong had a life long interest in the natural and human history of his native province New Brunswick Although he was primarily a botanist with four full length books and an amazing number of articles to his credit it was through his series of monographs in the Transactions of the Royal Society of Canada that the breadth of his interests became known For over fifty years he contributed almost annually to the Transactions the results of his systematic investigations into New Brunswick's physiography aborigines early explorations wars and settlements Crucial Maps which concluded in 1937 was the last series

of articles Ganong was the first investigator to employ a critical classification of maps based upon groupings by period and type although the cartography of Canada's east coast had earlier been introduced by Baron Alexander von Humboldt Ganong's contributions to cartography are enormous for example his reconstruction of Cabot's voyages while all may not agree with it is a masterpiece of inductive analysis which will remain a model in historical research his chapters on Gomez Verrazzano and Fagundes are still the chief secondary sources on these discoverers There have been notable additions to the bibliography of discovery and maps since Ganong wrote recently published works as well as the complete file of Ganong's correspondence with his fellow cartographer G R F Prowse were consulted by Theodore E Layng Map Division Public Archives of Canada in preparing the commentaries which accompany this edition of *Crucial Maps* These commentaries with Mr Layng's introduction also provide an interesting sketch of Dr Ganong and his work Another important feature of this edition is the index prepared by William Morley of the John Carter Brown Library In much of his work Ganong was a pioneer and while subsequent studies have reached different conclusions on some points many of his results have seldom been challenged Students of the present and future will still use and quote from *Crucial Maps* Royal Society of Canada Special Publications No 7     The Travels of John and Sebastian Cabot Joanne Mattern, 1999-07-20 Travel with John Cabot as he sails on several voyages to Canada     Cabot to Cartier Bernard G. Hoffman, 1961-12-15 This study was prepared in an attempt to clarify seemingly contradictory interpretations of the early history of the discovery of North America as well as to survey the early historical sources which may contribute to an ethno historical study of the Indians of those coasts first explored A major part of the book is devoted to a re analysis of the cartographical materials and to an attempt to present a more logical interpretation of this material In the course of this attempt the work discusses and rejects previously widely held viewpoints concerning the early exploration of North America and the development of North American cartography A new hypothesis is presented in this respect and is shown to fit the available evidence more adequately The study also reconsiders the documentary materials deriving from the Cartier voyages and develops new conclusions concerning their origin particularly with respect to the so called Cartier vocabularies This is a pioneer summary and original analysis based upon exhaustive research and is the most comprehensive collation available to scholars in combination with the recent map bibliography published by the Public Archives it will be of great aid to research students Dr Hoffman's hypotheses are brilliantly presented and highly stimulating The line cut illustrations and listing of nomenclature are most valuable     **The Last Voyage of John Cabot and the Rock at Grates Cove** Arthur Davies, John Cabot, 1955     **First Lessons in American History** Lawton Bryan Evans, 1922     *The Victorian Empire* James Taylor, 1897     **Biographia Britannica Or the Lives of the Most Eminent Persons** Kippis, 1784
