Lost Cause Causation The Mind Body Pro:

The Lost Cause Celia Elizabeth Green, 2003 The concept of causation enters into many fields of philosophy This analysis has been written with special reference to philosophy of mind but is of general relevance **Descartes on Causation** Tad M. Schmaltz, 2013-01-31 This book is a systematic study of Descartes theory of causation and its relation to the medieval and early modern scholastic philosophy that provides its proper historical context The argument presented here is that even though Descartes offered a dualistic ontology that differs radically from what we find in scholasticism his views on causation were profoundly influenced by scholastic thought on this issue This influence is evident not only in his affirmation in the Meditations of the abstract scholastic axioms that a cause must contain the reality of its effects and that conservation does not differ in reality from creation but also in the details of the accounts of body body interaction in his physics of mind body interaction in his psychology and of the causation that he took to be involved in free human action In contrast to those who have read Descartes as endorsing the occasionalist conclusion that God is the only real cause a central thesis of this study is that he accepted what in the context of scholastic debates regarding causation is the antipode of occasionalism namely the view that creatures rather than God are the causal source of natural change What emerges from the defense of this interpretation of Descartes is a new understanding of his contribution to modern thought on causation Enzyklopädie Philosophie und Wissenschaftstheorie Jürgen Mittelstraß, 2024-03-15 Die Enzyklop die Philosophie und Wissenschaftstheorie das gr te allgemeine Nachschlagewerk zur Philosophie im deutschsprachigen Raum wurde 1980 begonnen und 1996 mit dem vierten Band abgeschlossen Sie erschien 2005 bis 2018 in einer komplett aktualisierten und erweiterten 8 b ndigen Neuauflage die hiermit nun in einer kartonierten Sonderausgabe vorliegt Die Enzyklop die umfasst in Sach und Personenartikeln nicht nur den klassischen Bestand des philosophischen Wissens sondern auch die neuere Entwicklung der Philosophie insbesondere in den Bereichen Logik Erkenntnis und Wissenschaftstheorie sowie Sprachphilosophie Zugleich finden Grundlagenreflexionen in den Wissenschaften und deren Geschichte ausf hrliche Ber cksichtigung Die umfassenden Bibliographien und Werkverzeichnisse wurden f r die 2 Auflage in allen Artikeln auf den neuesten Stand gebracht *Human Action, Deliberation and Causation* J.A.M Bransen, S.E. Cuypers, 2012-12-06 There is an interesting and far reaching disagreement between Smith and Frederick Stoutland In his *The Real Reasons* Stoutland argues that one of the mistakes that turned the belief desire model of action into the received view is the underlying commitment to the idea that there is an underlying unity to all action explanations According to Stoutland the unity is no deeper than the superficial fact that actions are responses of agents to the world and the challenge for the philosophy of action is to make sense of that fact without falling victim to the un fruitful assumption that reasons should be understood as the normative content of determinate representational inner states of agents Stoutland suggests an alternative according to which reasonable agents possess the know how to respond appropriately to the normative import of the external situations they find themselves in These

situations are Stout land claims the real reasons Stoutland raises an important issue If beliefs and desires should be understood as reasons as introducing normative constraints that de serve respect it seems we are bound to distinguish between on the one hand the content of our beliefs and desires and on the other hand their objects Moreover it seems we have good reasons to believe that the content of our beliefs and desires derives its normative import qua normative import from the objects of our beliefs and desires **Science and Health with Key to the Scriptures** Mary Baker Eddy,1894
