Lost Childhood And The Language Of Exile:

Lost Childhood and the Language of Exile Judit Szekacs-Weisz, Ivan Ward, 2022-04-21 The book contains reflections from Eva Almassy Jacqueline Amati Mehler Pina Antinucci Antal Bokay Julia Borossa John Clare Ferenc Ero s Susan Haxell Eva Hoffman Kathleen Kelley Laine Leon Kleimberg W Gordon Lawrence Judit Me sza ros Gershon J Molad George Pick Rachel Rosenblum Tamara Stajner Popovic Riccardo Steiner Judit Szekacs Weisz Judith E Vida Shula Wilson and Ali Zarbafi Lost Childhood and the Language of Exile invites the reader to enter a territory which is not only multilingual but multidimensional defined and shaped by history politics economy and sociocultural transformations The contributions give important insights on the psychodynamic processes involved in working with and being part of exiled and immigrant populations The majority of the stories take as their base the upheaval caused by the Second World War but their stories are still sadly relevant today with the ongoing plight of refugees the world over By presenting their experiences the contributors provide a vital record of what it means to leave your homeland behind to make a new life in a new land and to live and work in a second tongue The aim was and is to provide stimulus for further thinking and research Two contributors Ali Zarbafi and Shula Wilson took up that challenge and we were delighted to publish their contribution to this debate in their edited work *Mother Tongue and Other Tongues Narratives in Multilingual Psychotherapy* 2021

Narratives of Place, Belonging and Language Máiréad Nic Craith, 2012-02-10 Examining identity in relation to globalization and migration this book uses narratives and memoirs from contemporary authors who have lived in between two or more languages It explores the human desire to find one s own place in new cultural contexts and looks at the role of language in shaping a sense of belonging in society

Enduring Migration through the Life Cycle Eileen McGinley, Arturo Varchevker, 2018-04-17 In this book the authors share an interest in and experience of migration in relation to stressed or traumatised patients whom they have treated or through their areas of expertise through the developmental life cycle

Mother Tongue and Other Tongues Shula Wilson, Ali Zarbafi, 2021-07-28 We are living in times where the issue of identity and difference has taken on a more defensive hue The tide is turning towards an inward looking nostalgia of sameness based on fear rather than on understanding The experience of hearing another language the way it is spoken and being faced with the image of the other is now more complex imbued with projections of powerlessness fear terrorism and survival The issue of identity appears to have become even more complex All cultures are concerned with how we speak and communicate as this represents identity history and home Communication is also essential for survival both emotionally and socially The speaking person is an individual but also part of a culture or cultures with dense collective and individual shapes The issue of identity that feeling of belonging is essential full of possibility and at times very uncomfortable as it touches the tensions between who we are and who we are becoming This sits next to more complex historical experiences and memories of languages and cultures being changed or lost or banished due to the colonial imperial and regional moves of powerful nations in search of conquest and economic gain

This collection addresses how language affects therapists and their patients and how it can be understood culturally and therapeutically Drawn from talks given at the Multi lingual Psychotherapy Centre MLPC the contributors not only bring a therapeutic slant but also their other roles as academics writers and artists These reflections memories and stories give a glimpse of the multilingual journey the MLPC has been exploring for over twenty years and leave much food for thought The book contains contributions from Cedric Bouet Willaumez Giselle China Patricia Gorringer Natsu Hattori Monique Morris Esti Rimmer and Edna Sovin

The Omnipotent State of Mind Jean Arundale, 2022-06-23 This book presents an examination and exploration of the concept of omnipotence its qualities and expression as a psychic state its origins in the psyche and its appearance in the psychoanalytic process and in society Linked with narcissism but underdeveloped as a concept in its own right omnipotence is explored in this book from a range of psychoanalytic perspectives including its positive value in normal development through to its potential as a destructive element in the personality The Omnipotent State of Mind is presented in five parts each exploring a specific theme The contributors explore omnipotence in infants children adolescents and adults consider why it is so difficult to give up and examine how the omnipotent state of mind is expressed in culture and society The range of attitudes towards omnipotence within different psychoanalytic traditions is represented by the international selection of contributors The Omnipotent State of Mind will be of great interest to psychoanalysts in practice and in training to psychoanalytic psychotherapists and to other professionals interested in omnipotent states of mind

Supervision in a Changing World Deirdre Dowling, Julie Kitchener, 2023-08-31 Supervision in a Changing World explores the range of skills and knowledge a child and adolescent psychotherapist brings to the practice of supervision Featuring contributions from leading child psychotherapists drawing on their clinical and supervisory experiences chapters highlight a range of individual supervision approaches Key issues covered include the history of thinking around supervision ethical considerations the interplay between the supervisee and supervisor experience the complexities of service supervision working with trauma and supervising work with children and adolescents with disabilities The book will also give direct insight into preparing process notes and report writing research supervision supervising colleagues in different settings and countries and the training school perspective Attention is also paid to diversity and power dynamics and the implications of remote supervision both before and since Covid 19 One of the few works specifically dedicated to child psychoanalytic psychotherapy supervision this book aims to meet the needs of child psychotherapist supervisors and those training to become supervisors It will also be useful for professionals in allied professions and those who are interested in therapeutic work with children

The Émigré Analysts and American Psychoanalysis Adrienne E. Harris, 2023-05-31 This book explores the impact of migration including its causes upon the key ideas and directions of psychoanalytic theory and practice from the twentieth century until today Having originated with a conference called migr Analysts developed through the Sandor Ferenczi Center at the New School for Social Research this collection encompasses a wide array of often personal insights into the historical effects of

exile and migration upon psychoanalysis Divided into three sections the book first attends to the political crises that affected the exile of psychoanalysts after the Second World War tracing their journeys from Eastern Europe to the United States secondly the rise of antisemitism and the impact of the Holocaust upon these analysts is closely examined and finally this book attends to the protection and safety of analysts forced into exile in our contemporary moment with reference to the work being done by existing national and international psychoanalytic institutions As an engaging and thoroughly detailed account of the influence of exile upon American psychoanalysis this book will be of as much interest to scholars of history and twentieth century culture as to psychoanalysts and psychoanalytic psychotherapists in training and in practice

Language, Symbolization, and Psychosis Giovanna Ambrosio, Simona Argentieri, Jorge Canestri, 2018-04-24 In this book the authors compare different psychoanalytic thinking and models all of a rigorously Freudian stamp on three concepts of great theoretical and clinical importance language symbolization and psychosis Therapy with Displaced and Highly Mobile Individuals Anastasia Piatakhina Giré, 2023-12-11 This book provides therapists with an understanding of displacement related issues to help them better serve potential clients such as emigrants expats migrants digital nomads all those who have left their original home country behind and moved to a different culture and place With the spread of communication technologies psychotherapists are expanding their practice to the online setting and into the unfamiliar waters of transcultural counselling with highly mobile and displaced individuals Building on her research the author brings up new concepts in therapy practice with emigrants calling for a displacement focused transcultural approach for a modern psychotherapy practice blended or online in a world shaped by ubiquitous displacement Giré's own experience of relocations and multicultural families have helped her develop a personal approach to universal topics of the therapeutic endeavour such as displacement multilingualism and shame Meeting displaced individuals mental health needs is a priority for the mental health community Therapy with Displaced and Highly Mobile Individuals will be of interest to all therapists working online with this client group and for all those interested in psychotherapy therapists or not who want to learn about the psychological issues created by displacement

Peter Pan, the Lost Child Kathleen Kelley-Laine, 2022-10-27 Originally published in 1992 in French as *Peter Pan ou l'Enfant Triste* the book was translated into English in 1997 and released as *Peter Pan The Story of Lost Childhood* This new English language version is translated by author Kathleen Kelley Laine and enriched with the addition of an epilogue from the author plus a new foreword from renowned psychoanalyst Jonathan Sklar Peter Pan young innocent and heartless with his baby tooth smile is one of the most popular heroes of fiction of both children and adults for over one hundred years The author explores this mythical figure both as a story as well as a metaphor revealing the hidden traumas and psychological conundrums of this Lost Child The evocative and lyrical style takes the reader through multiple levels of understanding of this seemingly simple fairy tale into the tragic story of its author J M Barrie and of other Peter Pans who never grow up In *Peter Pan the Lost Child* psychoanalyst Kathleen Kelley Laine explores

Peter Pan's light hearted escapades and uncovers a sad lost child behind the baby tooth smile She uses the story as a framework for the stories of her patients to show how their own Peter Pan manifests giving a unique insight into how childhood events can block growth into adulthood She also investigates the sinister side of author James Mathew Barrie as it relates to his Peter Pan tale and addresses her own family history and its links to The Boy Who Would Not Grow Up Little by little as the book progresses Kelley Laine's lost childhood emerges as a child who fled with her family from war torn Hungary after the Second World War to the promised land of Canada These three interwoven storylines take the reader on a literary journey to uncover secrets and hidden emotions Kelley Laine makes clear that the child who cannot grow up the Peter Pan raging inside the adult needs to be heard and understood Only then can that lost child have a chance to find the road to maturity

Growing up with risk Thom, Betsy, Sales, Rosemary, 2007-05-16 *Growing up with risk* provides a critical analysis of ways in which risk assessment and management now a pervasive element of contemporary policy and professional practice are defined and applied in policy theory and practice in relation to children and young people Drawing on conceptual frameworks from across the social sciences the book examines contrasting perspectives on risk that occur in different policy domains and professional and lay discourses discussing the dilemmas of response that arise from these sometimes contested viewpoints from playground safety to risks associated with youthful substance use The contributors address issues of gender ethnicity and socio economic status which impact on definitions and responses to risk and consider related concepts such as risk resilience care control and dependence autonomy Written in an accessible manner each chapter provides a specific policy case study to illustrate the cross cutting themes and issues that will make it a key text for researchers and students It also offers policy makers and practitioners a valuable insight into the complexities of balancing responsibility for protecting the young with the benefits of risk taking and the need to allow young people to experiment

Globalization and Children Natalie Hevener Kaufman, Irene Rizzini, 2007-05-08 ALLISON JAMES Globalization seems to be the word on everyone's lips with politicians as much as academics extolling its benefits as well as its contradictions For some globalization means in practice that whether in Bangkok or Boston in London or Rio as travelers from wealthy countries they can be sure to find the beer the pizzas and the jeans that they can at home they can be both at home and away simultaneously For others though globalization has had rather different often less beneficial consequences In their everyday lives people have come to find themselves tied in albeit in often unseen ways into larger economic and political systems over which they have no control yet these systems cause radical changes often for the worse rather than the better in the pattern of their daily lives And it is those who have least voice whose lives are usually affected the most In this book attention is drawn systematically really for the first time to a consideration of how processes of globalization variously impact upon the lives of children Such an approach is not only most welcome in the field of childhood studies but also long overdue It will at last enable us to begin to contextualize in a broader framework some of the many issues to do with children's rights and participation which have long

been discussed as separate and discrete issues within childhood studies

Bringing Our Histories into School-Based Therapy Lyn French, Reva Klein, 2023-05-02 This is a book that delves into the relationship between therapists sometimes fraught engagement with their own emotional histories and those of their clients offering a creative template for opening up important conversations Each of the chapter authors contributing to this volume focuses on seminal life events that inflect the emotional tenor and quality of attunement in the consulting room A broad range of subjects is covered which either highlight themes around identity or reflect the kinds of challenges that bring young people to therapy including bereavement the experience of otherness dislocation and migration disrupted family relationships and life threatening illness With compelling clinical vignettes illuminating the resonances between therapists stories and those of the clients they present this book is an engaging and insightful read for all practitioners in the field especially those working in child and adolescent mental health

Jungian Analysts Working Across Cultures Catherine Crowther, Jan Wiener, 2021-06-01 Jungian Analysts Working Across Cultures From Tradition to Innovation gives a fascinating account of the wide variety of experiences of Jungian analysts working in different cultures across the world They describe and reflect on experiences of both offering and receiving training within these cross cultural partnerships This is a book not only about training but is also an enlightening cultural commentary for our times The powerful bi directionality of cultural influence and discovery is apparent in different ways in every chapter prompting a re appraisal of concepts essential to the core values of Jungian practice which show an outdated adherence to culture bound attitudes The publication of this book is a timely reminder that when Jungian analysis as we know it is floundering in some Western countries new projects in countries seeking to develop an analytic culture give hope for sustaining our professional practice

Relational Transactional Analysis Heather Fowlie, Charlotte Sills, 2018-06-14 Through different voices and styles of contributions including papers edited talks and panel discussion this collection explores and applies the principles of relational transactional analysis It sets them in social cultural and political contexts and considers a number of important implications of this particular relational turn in psychotherapy The book advances relational transactional analyses and in doing so reflects the creativity and vibrancy of contemporary TA The editors have skilfully brought together different generations of TA practitioners in an accessible and stimulating volume I commend the editors and highly recommend the book Dr Keith Tudor author of a number of books and co author of the article Co creative transactional analysis in the Transactional Analysis Journal He is Associate Professor Auckland University of Technology Auckland Aotearoa New Zealand

Immigration in Psychoanalysis Locating Ourselves presents a unique approach to understanding the varied and multi layered experience of immigration exploring how social cultural political and historical contexts shape the psychological experience of immigration and with it the encounter between foreign born patients and their psychotherapists Beltsiou brings together a diverse group of contributors including Ghislaine Boulanger Eva Hoffman and Dori Laub to discuss their own identity as immigrants and

how it informs their work They explore the complexity and the contradictions of the immigration process the tension between loss and hope future and past the idealization and denigration of the other stranger and what it takes to tolerate the existential dialectic between separateness and belonging Through personal accounts full of wisdom and nuance the stories of immigration come to life and become accessible to the reader Intended for clinicians students and academics interested in contemporary psychoanalytic perspectives on the topic of immigration this book serves as a resource for clinical practice and can be read in courses on psychoanalysis cultural psychology immigrant studies race and ethnic relations self and identity culture and human development and immigrants and mental health Psychoanalysis and Literature , Marilyn

Charles,2015-03-25 Psychoanalysis offers many concepts that are extremely useful clinically but not always accessible in the original In Psychoanalysis and Literature The Stories We Live Marilyn Charles pairs case vignettes with examples from literature to highlight the essential human struggles that play out in the consulting room This pairing depathologizes those struggles and offers a conceptual framework that can help the clinician facilitate these journeys of discovery Describing first how literature affords an opportunity for vicarious engagement with struggles endemic to the human condition she then focuses on trauma dreams and cultural collisions turning more explicitly to the developmental challenges of identity relatedness aging and generativity Psychoanalysis and Literature is accessible relevant and timely From Budapest to Psychoanalysis Veronica Csillag,2022-09-27 This book follows the personal and professional journeys of three Jewish women from Budapest originally classmates in the same high school The book shows how they and their families were marked by the Shoah and explores the impact of the social cultural and political milieu in which they travelled upon their development as psychoanalysts Following an introduction by the Hungarian psychoanalyst Judit M sz ros who gives a broad historical review of Hungarian Jewry during the Shoah and the Soviet era the three authors provide autobiographical accounts of their own psychoanalytic evolution and interconnectedness They describe their motivations for emigrating from Hungary their early struggles to fit in and their eventual acculturation The authors explore their coming of age as clinicians in their adopted homelands and explain how their theoretical orientation and clinical styles were shaped by their respective analytic environments their training experiences and their own personal histories They offer clinical vignettes to illustrate their respective psychoanalytic perspective The book closes with an afterword from American psychoanalyst Adrienne Harris who contemplates the authors immigration experiences alongside her own Replete with personal cultural and political history this book will prove both informative and fascinating for psychoanalysts psychotherapists as well as the general public

Diversity, Discipline and Devotion in Psychoanalytic Psychotherapy Gertrud Mander,2018-04-17 This book is a selection of papers written over 25 years of practising psychoanalytic psychotherapy of training and supervising psychotherapists psychodynamic counsellors and supervisors It reflects a preoccupation with the growth and diversification of counselling and psychotherapy with the imperatives of training supervision and regulation and with the significant

changes in the profession due to the invention of brief time limited intermittent and recurrent psychotherapy An overall theme is the conviction that what patients and therapists share is vulnerability and that the therapist is a wounded healer whose reparative tendency informs his professional choice his therapeutic empathy and his capacity to bear the rigours of therapeutic work Thus an unconscious connection between the helper and the helped is the driving force of every therapeutic relationship for better and for worse Its responsible management requires thorough training ongoing supervision and a firm frame in order to contain the powerful forces operating when two strangers meet for the purpose of therapy **Today's**

Youth and Mental Health Soheila Pashang, Nazilla Khanlou, Jennifer Clarke, 2018-03-01 This book focuses on the social and intersectional determinants of mental health among youth The innovative and cutting edge text arises out of multidisciplinary fields of academic researchers policy makers practitioners artists and youth Contributions from Canada Germany Portugal South Korea Burkina Faso Afghanistan and Jamaica addresses the complexities and the opportunities for youth across contexts Each chapter entails an introduction to the topic literature review and research findings discussion and implications in regard to research policy and practice A unique aspect of the book is the inclusion of a critical response to each chapter s content from diverse stakeholders such as policy makers front line workers practitioners community activists artists and youth The book is a critical and current contribution to exploring youth mental health and specifically the ways in which youth learn live and resist in a world around them Topics examined include youth social engagement civic integration and political participation at multiple local regional and transnational levels
