Louis Le Vau Mazarins College Colberts Revenge:

Louis XIV's Architect Richard Ballard, 2023-12-30 A must read for those seeking to understand the intersection of politics and art in a pivotal moment of European history This is a study of royal absolutism in a most extreme form in modern European history and of the nature of Louis XIV s concept of personal glory and of the embodiment of France as a new superpower It is a study of political ideas expressed in architecture to establish Versailles as the centre of French world power and royal prestige It is also a personal story full of social cultural and economic history of the period as seen in the life and work of Louis Le Vau from a humble family of craftsmen who was a self taught architect in the early history of the profession skilled in technical craft skills and even grand design He was a major contributor to the architectural glories of Paris including the Louvre Vincennes Versailles and the College of the Four Nations And all achieved despite interference from the great magnates of the age like Mazarin and Colbert and constant mind changing by the King who wanted every feature in the buildings to reflect his concept of personal royal prestige Le Vau was Louis XIV s First Architect from 1654 until his death and disgrace in 1670 The social cultural economic and political backdrop is striking with court intrigue scandal corruption luxury indulgence and the rise of a rich bourgeoisie but the main thrust of the story concerns Louis XIV and the royal personal ambition and the work of a stone cutter s son who became the Sun King s instrument The study is good on the more technical features of architectural history reminiscent of Pevsner s marvellous Buildings of England series

Louis Le Vau Hilary Ballon, 1999 From Vaux le Vicomte to Versailles the buildings of Louis Le Vau shaped the image of French court society None however has had as dramatic an effect as Mazarin s Coll ge 1661-70 the Parisian landmark that now houses the Institut de France Hilary Ballon deftly portrays the brilliance and controversy of Le Vau s late career through an exploration of this masterpiece a hybrid of baroque and classical styles She tracks the design and construction of the Coll ge on the basis of splendid drawings fully illustrated here integrating into this account previously unknown dimensions of Le Vau s creative personality his financial entanglements and his feuds with government leaders The story of the Coll ge begins in 1661 with the death of Cardinal Mazarin who left an extravagant sum of money for a school to be built in his memory Le Vau responded with an ambitious architectural tribute intended to launch the development of Paris in a new artistic direction As Ballon shows many personal factors figured into the final product including Le Vau s activities as a real estate developer and entrepreneur and his explosive response to the Italian baroque master Gianlorenzo Bernini who visited Paris in 1665 The project ended up significantly over budget and officials charged Le Vau shortly after his death with embezzling funds The chief minister Jean Baptiste Colbert led the attack on Le Vau turning the ethical scandal into an aesthetic crusade to maintain a classical look for central Paris Publisher s description

The Architecture of Percier and Fontaine and the Struggle for Sovereignty in Revolutionary France Iris Moon, 2016-11-25 As the official architects of Napoleon Charles Percier 1764-1838 and Pierre Fran ois L onard Fontaine 1762-1853 designed interiors that responded to the radical ideologies and

collective forms of destruction that took place during the French Revolution The architects visualized new forms of imperial sovereignty by inverting the symbols of monarchy and revolution constructing meeting rooms resembling military encampments and gilded thrones that replaced the Bourbon lily with Napoleonic bees Yet in the wake of political struggle each foundation stone that the architects laid for the new imperial regime was accompanied by an awareness of the contingent nature of sovereign power Contributing fresh perspectives on the architecture decorative arts and visual culture of revolutionary France this book explores how Percier and Fontaine s desire to build structures of permanence and their inadvertent reliance upon temporary architectural forms shaped a new awareness of time memory and modern political identity in France The Politics of Making Mark Swenarton,Igea Troiani,Helena Webster,2013-04-15 A unique collection of contemporary writings this book explores the politics involved in the making and experiencing of architecture and cities from a cross cultural and global perspective Taking a broad view of the word politics the essays address a range of questions including What is the relationship between politics and the making of space What role has theory played in reinforcing or resisting political power What are the political difficulties associated with working relationships Do the products of our making construct our identity or liberate us A timely volume focusing on an interdisciplinary debate on the politics of making this is valuable reading for all students professionals and academics interested or working in architectural theory

The Oxford Handbook of the Baroque John D. Lyons,2019-08-08 Few periods in history are so fundamentally contradictory as the Baroque the culture flourishing from the mid sixteenth to the mid eighteenth centuries in Europe When we hear the term Baroque the first images that come to mind are symmetrically designed gardens in French chateaux scenic fountains in Italian squares and the vibrant rhythms of a harpsichord Behind this commitment to rule harmony and rigid structure however the Baroque also embodies a deep fascination with wonder excess irrationality and rebellion against order

The Oxford Handbook of the Baroque delves into this contradiction to provide a sweeping survey of the Baroque not only as a style but also as a historical cultural and intellectual concept. With its thirty-eight chapters edited by leading expert John D. Lyons, the Handbook explores different manifestations of Baroque culture from theatricality in architecture and urbanism to opera and dance, from the role of water to innovations in fashion, from mechanistic philosophy and literature to the tension between religion and science. These discussions present the Baroque as a broad cultural phenomenon that arose in response to the enormous changes emerging from the sixteenth century: the division between Catholics and Protestants, the formation of nation states, and the growth of absolutist monarchies, the colonization of lands outside Europe, and the mutual impact of European and non-European cultures. Technological developments such as the telescope and the microscope, and even greater access to high quality mirrors, altered mankind's view of the universe and of human identity itself. By exploring the Baroque in relation to these larger social upheavals, this Handbook reveals a fresh and surprisingly modern image of the Baroque as a powerful response to an epoch of crisis.

The Rise of Academic Architectural Education Alexander Griffin, 2019-07-02. Academic architectural education started with the inauguration of the Académie d'Architecture on 3 December 1671 in France. It was the first institution to be devoted solely to the study of architecture, and its school was the first dedicated to the explicit training of architectural students. The Académie was abolished in 1793 during the revolutionary turmoil that besieged France at the end of the eighteenth century, although the architectural educational tradition that arose from it was resurrected with the formation of the École des Beaux-Arts and prevails in the ideologies and activities of schools of architecture throughout the world today. This book traces the previously neglected history of the Académie's development and its enduring influence on subsequent architectural schools throughout the following centuries to the present day.

Providing a valuable context for current discussions in architectural education, *The Rise of Academic Architectural Education* is a useful resource for students and researchers interested in the history and theory of art and architecture.

Affordable Housing in New York Nicholas Dagen Bloom, Matthew Gordon Lasner, 2016. How has America's most expensive and progressive city helped its residents to live? Since the nineteenth century, the need for high quality affordable housing has been one of New York City's most urgent issues. *Affordable Housing in New York* explores the past, present, and future of the city's pioneering efforts from the 1920s to the major initiatives of Mayor Bill de Blasio. The book examines the people, places, and policies that have helped make New York livable, from early experiments by housing reformers and the innovative public-private solutions of the 1970s and 1980s to today's professionalized affordable housing industry. More than two dozen leading scholars tell the story of key figures of the era, including Fiorello LaGuardia, Robert Moses, Jane Jacobs, and Ed Koch. Over twenty-five individual housing complexes are profiled, including Queensbridge Houses, America's largest public housing complex; Stuyvesant Town-Co-op City, and recent additions like Via

Networks, Interconnection, Connectivity Ellen R. Welch, Michèle Longino, 2015-06-17 The map we draw of seventeenth century French literary and intellectual culture is usually a small one centered on Paris and Versailles to reflect the consolidation of intellectual and artistic capital under absolutism Yet this process of centralization depended on the creation of strong infrastructures connecting France's seat of political and cultural power to the provinces and the rest of the world an efficient postal system Europe's largest network of foreign embassies trade links stretching to Asia and the Americas How might a focus on these networks and on the agents materials concepts and practices that constituted them broaden our mental topography of seventeenth century French culture This question animated a rich discussion during the May 2014 conference of the North American Society for Seventeenth Century French Literature held at Duke University and the University of North Carolina Chapel Hill The present volume represents a selection of the contributions to the conference
