experiences **The Oxford Children's Book of Famous People** Oxford Univ Pr,2002 The Oxford Children's Book of Famous People is a one stop guide to the people who matter This stylish and information packed book tells the stories of 1000 women and men whose lives have influenced the course of history Learn about the famous and the infamous leaders from Genghis Khan to Tony Blair scientists and thinkers from Aristotle to Stephen Hawking personalities from Rasputin to Michael Jordan The text is organized alphabetically for easy reference but there are also chronological and thematic directories linking people in time and by area of achievement In this new edition the entries have been updated and there are new biographies of such figures as George W Bush J K Rowling Julia Roberts and Steve Redgrave *Documenting Global Leadership* George Modelski,1988-06-18 The book traces the evolution of world politics through documents that illustrate the responsibilities burdens and opportunities of global leadership The Great Powers and Global Struggle, 1490-1990 Karen A. Rasler,William R. Thompson,2014-07-11 In The Great Powers and Global Struggle Karen A Rasler and William R Thompson focus on two themes the rise and fall as well as the relative decline of major world powers over the past five hundred years and the way in which these processes have set the stage for the outbreak of global war Their interdisciplinary approach encompasses political science economics sociology geography and history The most significant wars occur when regional leaders historically in Western Europe challenge global leaders By studying the wars of Napoleon Louis XIV Phillip II and the Italian Indian Ocean wars of the sixteenth century through World Wars I and II to the present the authors challenge the long held idea that prosperity leads to over consumption and underinvestment and thus decline a theory traceable to ancient times that remains the principal explanation for global decline today Arguments about global structural change and its implications abound but rarely is the abstract translated into concrete historical terms with emphases on specific actors and empirical documentation Rasler and Thompson reinterpret the past five hundred years of major power warfare and provide extensive tests of the eighteen generalizations critical to their argument They conclude that those who argue that global war and repositioning are no longer a concern among the major powers lack critical understanding of the behavior that contributes to such conflict **Top 101 World Leaders** Jeanne Nagle,2013-12-15 Political leaders have the power to effect great change and unite disparate peoples Unfortunately as Lord Acton and others have noted power also can corrupt those who wield it Throughout time the world has witnessed the reigns of both benevolent and brutal leaders some guiding nations to greatness and others perpetrating unspeakable atrocities This inclusive volume examines the lives of some of history's most notable and notorious leaders from around the globe Readers are invited to consider the nature of governance and the qualities that define true leadership History and Leadership Mark E. Blincoe,John R. Shoup,2022-06-19 Leaders and managers are rightly tasked to take their organizations and communities to a desired future They are expected to be forward looking with compelling vision statements As a result they are often too busy in the present managing the future to be bothered with the past Yet it is organizational histories that provide the contexts and clues for the future History and

Leadership The Nature and Role of the Past in Navigating the Future demonstrates that intentional historical perspective taking provides a sort of wisdom for doing business in the present and future and equips leaders to leverage the past to help their organizations thrive This book appeals to several audiences It will serve as a supplementary text for undergraduate and graduate students in both the humanities and leadership studies The book also appeals to practicing leaders and managers who wish to develop their emotional cultural and social intelligence by exploring perennial issues and lessons found in well developed histories This book also serves as a stand alone read for a range of professionals who want a more recreational and non traditional read on history and leadership The book cultivates an appreciation for history and equips readers to be connoisseurs of history for the betterment of themselves and society *The History of Nations* Henry Cabot Lodge,1913

The Limits of Private Governance Florian Grisel,2021-09-09 Is there a future for the law In this book Florian Grisel addresses one of the most fascinating questions raised by social scientists in the past few decades Since the 1980s socio legal scholars have argued that governance based on social norms or private governance can offer an alternative to regulation by the law On this account private governance could be socially efficient and even optimal compared with other modes of governance The Limits of Private Governance supplements this optimistic analysis of private governance by assessing the long term evolution of a private order in the fishery of Marseille In the last eight centuries the fishers of Marseille have regulated their community without apparent means of legal support from the French state In the early 15th century they even created an organisation called the Prud homie de P che in order to regulate their fishery Based on archival evidence interviews and ethnographic data Grisel examines the evolution of the Prud homie de P che and argues that the strong social norms in which it is embedded are not only powerful tools of governance but also forces of inertia that have constrained its regulatory action The lessons drawn from this book will appeal to academics policy makers and members of the general public who have an interest in the governance of our modern societies *War: A Short History* Jeremy Black,2014-03-04 In this concise history of war Jeremy Black ranges widely giving due attention to non western as well as western traditions The history of war is inextricably bound to the history of the world Through a detailed exploration of world scale issues of warfare presented within a chronological framework that spans human history Jeremy Black skilfully illustrates this fact whilst providing the reader with other astute insights and compelling interpretations of war War A Short History is a dramatic move away from the formulaic western approach to military history Too narrow in its focus on wars specific to the west and too simple because of an over reliance on a technologically deterministic reading of warfare this approach has been rejected by Jeremy Black in favour of a global model that takes all factors into account when considering the strengths and weaknesses of a particular military tradition This is a book that is as important for its relevance to current world issues of conflict as it is for its thorough consideration of a monumentally significant aspect of human history <http://history.black.continuumbooks.com>

Thompson,2009-01-05 We are all familiar with the popular and academic analyses of the ongoing and future ascent of China Two of the associated questions are whether and when China might succeed the United States as the lead state in the world system These are interesting questions albeit ones that are not likely to be answered in the immediate future An alternative focus examines instead periods of systemic transition eras in which it is conceivable that a new leader might emerge at the expense of an older system leader Framing the question this way presumes that a future systemic transitions remain a possibility and b transitions do not occur abruptly but may require several decades to set up structural situations in which a transition might take place Neither of these assumptions are carved in stone and are open to question It may be that future systemic transitions are unlikely Or it may be that they will not occur as they have in the past All of these possibilities are assessed from a variety of different perspectives **Current History (New York).** ,1922 Daily Report, Foreign Radio Broadcasts United States.
