Love In The Western World:

Love in the Western World Denis De Rougemont, 1983-08-21 In this classic work often described as *The History of the Rise Decline and Fall of the Love Affair* Denis de Rougemont explores the psychology of love from the legend of Tristan and Isolde to Hollywood At the heart of his ever relevant inquiry is the inescapable conflict in the West between marriage and passion the first associated with social and religious responsibility and the second with anarchic unappeasable love as celebrated by the troubadours of medieval Provence These early poets according to de Rougemont spoke the words of an Eros centered theology and it was through this heresy that a European vocabulary of mysticism flourished and that Western literature took on a new direction Bringing together historical religious philosophical and cultural dimensions the author traces the evolution of Western romantic love from its literary beginnings as an awe inspiring secret to its commercialization in the cinema He seeks to restore the myth of love to its original integrity and concludes with a philosophical perspective on modern marriage

Gary Lachman, 2015-12-08 Running alongside the mainstream of Western intellectual history there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy inferior position somewhere underground This other stream forms the subject of Gary Lachman s epic history and analysis *The Secret Teachers of the Western World* In this clarifying accessible and fascinating study the acclaimed historian explores the Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative

blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today Publisher's description *Sex In The Western World* Jean-Louis Flandrin, S. Law, Religion and Love Paul Babie, Vanja-Ivan Savić, 2017-09-01 Increasingly the modern neo liberal world marginalises any notion of religion or spirituality leaving little or no room for the sacred in the public sphere While this process advances the conservative and harmful behaviours associated with some religions and their adherents exacerbate this marginalisation by driving out those who remain religious or spiritual And all of this is seen through the lens of social

science which seems to agree that religion remains important if not in spiritual sense at least as a source of folklore and a means of identification religions remain rooted in the societies from which they emerged and the legal systems of many of those societies emerged from religious sources even if those societies remain unwilling to admit that fact In the modern materialistic world of conformity religion is less a source of guidance than a label of identification The world therefore faces two issues First the decreasing level of spirituality in the West widens the gap between worshippers and those who have left their faith eg agnostics and atheists or those who look at religion as a matter of picking and choosing from a range of options And second the strong connections to religion which remain in many nations but which are often misused in the secular public sphere both in the West and internationally In such divided worlds both religious and secular forces tend to lock themselves into closed groupings of pure truth and in so doing increase the level of disagreement in turn producing radicalism In short the modern world is divided in two ways between religious and non religious although some have argued that the non religious secular is itself a form of civil religion and between those subscribing to divergent understandings of the same religious tradition While hyperbolic and histrionic the term culture wars nonetheless best captures what we see happening in the public sphere today The question emerges then how best to accommodate the democratic principle which posits that the majority should feel that it lives in a society of its own with the human rights principle holding that is necessary to ensure the full protection of the minority's rights How to balance these seemingly opposed principles We are very familiar with the differences that appear between secular and sacred in the modern world yet what of the similarities amongst scriptures and laws which seek to encourage mutual understanding cooperation and even cohabitation Because religion itself is a source of law a set of exhortations or commands as much as a set of rights every major religion offers an approach to encountering the Other in a positive constructive affirming way and it is here that religions reveal much that they have in common This book draws together the work of scholars engaged in exploring the possibilities for a utopian world in the sense fostered by St Thomas More The essays explore those dimensions of religious and civil law where love however that is defined by relevant texts fosters and encourages acceptance of the Other and will offer perspectives on the ways in which religious or civil state law command one to act in the spirit of love *Women and Men in Love* Anthony Edward Waite, 2007 It has often been assumed that Europeans invented and had the exclusive monopoly over courtly and romantic love commonly considered to be the highest form of relations between men and women This view was particularly prevalent between 1770 and the mid twentieth century but was challenged in the 1960s when romantic love came to be seen as a universal sentiment that can be found in all cultures in the world However there remains the historical problem that the Europeans used this concept of love as a fundamental part of their self image over a long period traces of it still remain and it became very much caught up in the concept of marriage This book challenges the underlying Eurocentrism of this notion while exploring in a more general sense the connection between identity and emotions *Women and Men in Love* Luisa

Passerini,2012-07 It has often been assumed that Europeans invented and had the exclusive monopoly over courtly and romantic love commonly considered to be the highest form of relations between men and women This view was particularly prevalent between 1770 and the mid twentieth century but was challenged in the 1960s when romantic love came to be seen as a universal sentiment that can be found in all cultures in the world However there remains the historical problem that the Europeans used this concept of love as a fundamental part of their self image over a long period traces of it still remain and it became very much caught up in the concept of marriage This book challenges the underlying Eurocentrism of this notion while exploring in a more general sense the connection between identity and emotions The Secret History of Western Sexual Mysticism Arthur Versluis,2008-03-25 The first book to reveal the history of Western sexual mysticism Reveals the secret sexual practices that have been used since ancient Greece to achieve mystical union with God Details the sects and individuals who transmitted the radical sexual practices that orthodox Christianity never completely silenced Distinguishes between sexual magic and sexual mysticism Beginning with the ancient Greek Mystery traditions Gnosticism and the practices in early Christianity Arthur Versluis uncovers the secret line of Western sexual mysticism that like the Tantra of the East seeks transcendence or union with God through sexual practices Throughout antiquity and right into the present day sexuality has played an important if largely hidden role in religious traditions and practices This includes not only Christian but also kabbalistic and hermetic alchemical currents of sexual mysticism many discussed together here for the first time In the Mystery tradition of hieros gamos sacred marriage and the Gnostic tradition of spiritual marriage we see the possibility of divine union in which sexual union is the principal sign or symbol Key to these practices is the inner or archetypal union of above and below the intermingling of the revelatory divine world with the mundane earthly one Versluis shows that these secret currents of sexual mysticism helped fuel the rise of the troubadours and their erotic doctrine the esoteric teachings of Jacob Boehme in the late 16th century the 19th century utopian communities of John Humphrey Noyes and Thomas Lake Harris the free love movement of the 20th century and the modern writings of Denis de Rougemont and Alan Watts

Transforming the Struggles of Tamars Lina Androviene,2014-05-29 This book explores the unprecedented challenge of involuntary singleness for women and the implications of disregarding this challenge for the Christian and particularly baptistic communities of faith It argues that these communities not only fail involuntarily single women but also in so doing suffer a serious detriment to their own communal health and Christian witness Taking the challenge of involuntary singleness as a test case this book explores the method of convictional theology and argues for a holistic framework that can draw together the personal communal and visionary spheres of human existence Although primarily a work of theological ethics it also draws from a number of different disciplines including cultural studies and sociology as well as intersections of science and theology *In Defense of Love* Ron Rosenbaum,2024-09-17 Rosenbaum offers a spirited and enjoyable defense of his version of love The Wall Street Journal A stirring manifesto on love in the modern age now available for the first time in

paperback In a work of ambition and brio legendary journalist Ron Rosenbaum tackles his hardest topic yet everyone's favorite four letter word He begins by investigating the neuroscience of love arguing that our understanding of love is imperiled by quantification and algorithms which distill our behavior into mathematical formulas our personality into brain chemical categories and our curiosity into quiz questions The very capacity that makes us human Rosenbaum posits is being taken over by numbers To save it he turns to literature and pop culture discussing writing about love from a vast range of sources including Tolstoy novellas trailblazing Updike manuscripts David Foster Wallace and Chrissie Hynde Part of love's essence is its mystery says Rosenbaum and when he eventually finds his own answer to the riddle of love a happy ending it turns up in a completely unexpected place In Defense of Love is more than an examination of the intersection of love with literature and science It is a celebration of the uncanny and the persistent the sublime and the ridiculous the inexorable power of love Love, Beauty or Morality Alberto Castelli,2024-05-23

This book is moved by two main questions Is Love a matter of beauty or mortality In other words is love an ethical ideal Also modernity understood as the age of mechanical reproduction has shaped not simply our cities but our very same way of feeling How has our conception of love changed if it has in the past two centuries This book is to address these questions It is not to trace the evolution of the idea of love in Western culture from Plato to the present day It aims to bring to the surface different shades of love lingering at the heart of Western culture to rehabilitate the myth of love to its original credibility Our confused civilization has split love into sensual and moral aspects but to be aware of it is perhaps to defeat a dilemma that seems so unnatural This book is about how we make sense of our lives through love and how nineteenth and twentieth century literature records it **Assorted Prose**

John Updike,2012-09-18 John Updike's first collection of nonfiction pieces published in 1965 when the author was thirty three is a diverting and illuminating gambol through midcentury America and the writer's youth It opens with a choice selection of parodies casuals and Talk of the Town reports the fruits of Updike's boyish ambition to follow in the footsteps of Thurber and White These jeux d'esprit are followed by Hub Fans Bid Kid Adieu an immortal account of Ted Williams's last at bat in Fenway Park The Dogwood Tree a Wordsworthian evocation of one Pennsylvania childhood and five autobiographical essays and stories Rounding out the volume are classic considerations of Nabokov Salinger Spark Beckett and others the earliest efforts of the book reviewer who would go on to become in The New York Times's estimation the pre eminent critic of his generation Updike called this collection motley but not unshapely Some would call it a classic of its kind **Reinventing**

Love Mona Chollet,2024-07-02 A new work by the author of In Defense of Witches that seeks to redefine heterosexual relationships and give women back their voice As feminist principles have taken wider hold in society and basic ideas about equality for women can seem a given many women still struggle in one of the most important areas of life love Whether it's finding a partner seeking a commitment from one or struggling in a relationship that is unfulfilling or even potentially abusive women still find that deeply engrained notions of gender and behavior can be obstacles to a healthy loving

relationship In her new book acclaimed French feminist Mona Chollet tackles some of these long held and pervasive ideas that remain stumbling blocks for many women in heterosexual relationships Drawing from popular culture politics and literature Reinventing Love provides a provocative accessible look at how heterosexual relationships can improve and evolve under a feminist lens

The Myth of Romantic Love and Other Essays Michael Novak, 2017-07-28 Written by noted Catholic philosopher Michael Novak the selections in The Myth of Romantic Love and Other Essays highlight the arc of his intellectual career Collectively demonstrating the fundamental unity of Novak s work the sixteen essays in this book span a broad range of political economic and social topics The selections offer clarity of thinking for the sake of concrete ends For example The Myth of Romantic Love the chapter from which the title of this work is drawn sharply distinguishes the love that popular culture portrays from the true Christian vision of love And The Family out of Favor argues if things go well with the family life is worth living when the family falters life falls apart Thus true Christian love manifest in marriage and family life is a greater resource for civilized society than any other institution Although this collection shows that Novak s viewpoints did evolve over time he remains a thinker that is clearly rooted in the ancient and medieval Catholic tradition From his discussions of gender relations to economics culture and politics his perspective honors the primacy of man and his immediate experience and thereby ultimately glorifies the Creator Novak s writing will infuriate some readers and inspire many others but both comrades in arms and intellectual opponents will find the clarity and intensity of his writings undeniable
