Love Power And Justice The Dynamics Of Authentic Morality:

Love, Power, and Justice William S. Hatcher, 1998

Bahá'í Ethics in Light of Scripture: Doctrinal fundamentals

Udo Schaefer, 2007 There is a fundamental discrepancy between man as he is and man as he could be if only he recognized his true being and purpose Ethics is the discipline by which man can understand how he can pass from the first condition to the second Udo Schaefer's *Bah Ethics in Light of Scripture* is an attempt to analyse the underlying structures and detect the interior architecture of the Bah moral system and is a step towards developing a Bah moral theology Doctrinal Fundamentals the first of two volumes provides a historical overview of the Bah Faith a systematic survey of its doctrines and an overview of the origin and derivation of moral values It considers the metaphysical nature of human beings and human responsibilities looks at reason and conscience and explores liberty and its limits Schaefer's second volume deals with concrete values the virtues divine commandments and principles of social ethics from a Bah perspective *The Anatomy of Ethical Leadership*

Lyse Langlois, 2011 Maximizing productivity without regard for human consequences the quest for profit above all else the stifling of individual personality and creative expression a competitive atmosphere these are the reigning features of the modern workplace Although many writers have called attention to the debilitating effects of this dehumanization of the working environment solutions have been less in evidence In *The Anatomy of Ethical Leadership* Lyse Langlois frames the problem in terms of ethics pointing to the fact that managers are often uncertain how to integrate ethical considerations into their process of decision making She explores the instrumental often highly legalistic patterns of thought that pervade modern organizations and proposes instead a new emphasis on dialogue and on modes of reasoning that make room for the complexity of ordinary reality To that end she outlines a trajectory for ethical responsible and authentic decision making the TERA model that managers *The Oxford Handbook of Medical Ethnomusicology* Benjamin Koen, 2011-04-27 This volume

establishes the discipline of medical ethnomusicology and expresses its broad potential It also is an expression of a wider paradigm shift of innovative thinking and collaboration that fully embraces both the health sciences and the healing arts

Toward a Socially Responsible Psychology for a Global Era Elena Mustakova-Possardt, Mikhail Lyubansky, Michael

Basseches, Julie Oxenberg, 2013-08-13 This book explores the concept of socially responsible psychology in a global age and how it might be used to organize integrate and bring enhanced focus a field that has the potential to contribute to solutions to the world's most pressing problems In this volume the editors explore the central and defining features of socially responsible psychology challenges that this work would face and the mechanisms and processes by which psychological work could be synergistically integrated with the work of other disciplines For this purpose the volume also examines a variety of factors currently that limit psychology in carrying out this goal *The Universe Within Us* Jane E. Harper, 2009 A

provocative look at the purpose of life through a mixture of religion science and personal experience

Overcoming

Violence Against Women and Girls Michael L. Penn, Rahel Nardos, 2003 This book provides university students policy

makers activists public health workers clinicians and lay citizens alike with a vivid overview of the scope of the problem of gender based violence worldwide as well as a sense of the important work now underway to eradicate it An integration of a vast range of data and insights from all the major disciplines that have contributed to our understanding of this problem this book is invaluable as a classroom text The authors have been guided throughout this work by the desire to contribute a document that would move the current international discourse along by providing an historical interdisciplinary overview that is at once critical constructive and visionary *Global Citizenship Education* ,2008-01-01 The essays in this edited collection argue that global citizenship education realistically must be set against the imperfections of our contemporary political realities As a form of education it must actively engage in a critically informed way with a set of complex inherited historical issues that emerge out of a colonial past and the savage globalization which often perpetuates unequal power relations or cause new inequalities The essays in the book explore these issues and the emergent world ideologies of globalism as well as present territorial conflicts ethnic tribal and nationalist rivalries problems of increasing international migration and asylum growing regional imbalances and increasing world inequalities Contributors to this collection each on their own way argues that global citizenship education needs to project new values to reality test and debate the language concepts and theories of global citizenship and the proto world institutions that seek to give expression to nascent aspirations for international forms of social justice and citizen participation in world government Many of the contributors argue that global citizenship education offers the prospect of extending the liberal ideologies of human rights and multiculturalism and of developing a better understanding of forms of post colonialism One thing is sure as the essays presented in this book demonstrate so clearly there can be no one dominant notion of global citizenship education as notions of global citizenship and education are all contested and open to further argument and revision Global citizenship education does not name the moment of global citizenship or even its emergence so much as the hope of a form of order where the rights of the individual and of cultural groups irrespective of race gender ethnicity or creed are observed preserved and protected by all governments in order to become the basis of citizen participation in new global spaces that we might be tempted to call global civil society

Home-grown Terrorism Thomas. M. Pick, Anne Speckhard, Beatrice Jacuch, 2009 This book is part of the NATO Science for Peace and Security Series E Human and Societal Dynamics and is based upon the presentations of a NATO Research Workshop by the same title There are many recent examples of terrorist acts committed by radicalised Europeans with an immigrant heritage in 2004 the Dutch filmmaker Theo Van Gogh was assassinated by a Dutch citizen from Morocco origins because he produced a movie portraying Islam in an unconventional manner The same year in the United Kingdom the police foiled a potential terrorist attack and arrested eight men all of whom were British citizens of Pakistani descent Why some individuals with a migrant background become radicalised Issues about marginalisation societal exclusion lack of integration feelings of isolation powerlessness and humiliation are all part of the

problem No amount of military or other coercive action will in itself do the trick of countering terrorism effectively without remedial action based upon a thorough knowledge of the underlying processes involved This book is meant to be a small but significant step in that direction With this purpose it gathers the views of a wide range of multidisciplinary experts about how to prevent home grown terrorism and what strategies should be developed to hinder its development It includes recommendations on how to counteract processes that provide a fertile subsoil for terrorism to develop how to interfere in the recruitment of potential terrorists and specific research recommendations with a special focus on young Muslims in Europe This publication is of interest to all international relations and security and defence specialists with a special relevance to those involved in the study of terrorism as a global threat **Equals and Partners** Patricia Verge, 2018-03-26 Canada is poised to reconcile its centuries long fraught history with Indigenous peoples and to establish justice What fundamental spiritual principles should guide this challenging process and bring together peoples who have been separated for so long In this part memoir part scholarly work Patricia Verge records her decades long friendship with the Stoney Nakoda Nation in southern Alberta She explores how her spiritual journey has been intimately entwined with service among Indigenous people and confronts her own ignorance of the true history of Canada taking for her guidance this quote from the writings of the Bah Faith a massive dose of truth must be administered to heal An engaging and timely work **Equals and Partners** is ultimately a story of love and commitment to the principle of the oneness of humanity Eleven Paul Hanley, 2014-09-16 Eleven billion people will crowd this marvelous planet by century s end If the global economy were to grow five fold during this period as predicted humanity s ecological footprint would exceed Earth s biocapacity by 400% We need to chart a new course to the future The sweeping changes that make a full world work involving dual processes of destruction and reconstruction will transform global culture agriculture and ultimately the human race **ELEVEN** is a call to consciousness Only an ethical revolution will allow us to carry forward an ever advancing civilization Paul Hanley proposes a transformational model that will help individuals institutions and communities make an eleven billion world work for everyone and the planet **Close Connections** John S. Hatcher, 2005 **Close Connections** will appeal to anyone interested in spirituality and its link to everyday life For more than twenty five years John Hatcher has studied the nature and purpose of physical reality by exploring the theological and philosophical implications of the authoritative Baha i texts His latest book explains how the gap between physical and spiritual reality is routinely crossed and describes the profound implications that result from the interplay of both worlds **The Bahá'í World** , 2005 Empowerment of Women--miles to Go , 2001 Contributed articles **American Journal of Psychotherapy** , 1947 International Educator , 2004 *Race and Religion in Early Nineteenth Century America, 1800-1850* Joseph R. Washington, 1988 This volume examines certain 19th century ethicists commitment to solving the problems of slavery and racism by shipping the American born black population back to Africa **Subject Guide to Books in Print** , 2001 **The Slovak Economy and EU Membership** Bruno S.
