WTIU ,1998 **Library Journal** ,1998-05 *C.H.O.I.C.E.S. Model: Choosing Love Instead of Fear* John L.

Stone,2023-12-05 C H O I C E S Model Choosing Love Instead of Fear is a self empowerment book which was 35 years in the making and based on extensive research That research distilled down to its essence demonstrates that stress is not as is often portrayed in popular culture the enemy Data from two separate fields academia and industry while having opposing views on who is responsible for reducing felt stress both agree that the primary mitigator of harmful distress is locus of control LOC Internal LOC locates the control within the individual whereas external LOC locates the control from outside forces The consensus by academia and industry is the more LOC is internal the less distress is felt Chosen versus imposed stressors yield less harmful impacts from the distress This research becomes a powerful tool to help reduce distress by restoring control to the individual Life can be so overwhelming that automatic knee jerk reactions are used to fend off a constant barrage of stressors The CHOICES Model provides a way to be proactive The more this is done consciously the greater the sense of wellbeing The book presents seven life areas which give purpose and meaning The areas include Community Health Occupation Investment Creativity Education and Spirituality Each is essential to a quality life The premise of this book is that an individual s perception of their own personal power increases with every small success and one area of success gives the individual confidence to believe in themselves enough to attempt challenges in the other domains There s a chapter for each of these seven equally important domains Each area is defined along with the rationale and tools necessary for personal development Community is important because we are social beings with needs for belonging Letting someone know you care allows joy to spring through both your hearts No matter our physical or mental condition health matters to all of us Our personal level of wellbeing sets the limits for what can be our personal best Build strength and immunity when feeling well and be gentle with yourself when you re not Occupation is important because we all have a need to be part of something bigger than ourselves a calling to make a difference and a desire to leave a meaningful legacy This needn t be one s vocation It is literally what occupies our time and energy It may be an avocation or volunteer service work However we spend our time let our life s work lift our hearts and move us all into better days Investment is not limited to finances This area is all about how we spend our resources Besides money it includes our time energy and level of commitment Let s be generous and give of ourselves without expecting anything in return In this way we all have the power to be superheroes Creativity is important because it defines who we are We build a life We express who we are We make something that only we can imagine Expressions from our hearts are never wasted When we bring something new into this world we give birth to something that will survive us Education is something we do naturally and have done since we took our first breath Lifelong learning helps us make our way in the world We know that reading to a child instills curiosity and ignites intelligence Let s read to a child tonight and if that s not possible let s all continue reading to our inner child Finally spirituality provides

transcendence to see and feel beyond our limitations and provides love when facing the void Namaste The light within me bows to the light within you Let s spread this message and celebrate the sacred in each other *The Library Journal* ,1998-04 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately *Words on Cassette* ,2000 *Words on Cassette* ,2002 R R Bowker Publishing,2002 The Video Source Book David J. A Curse of Silver and Scars Marie-Hélène Lebeault, 2025-09-29 The house is cursed. The man is broken. She's here to file a report until she falls into their story. For seven years, the Blackthorn Estate has rotted in silence, sealed behind magical wards and steeped in grief. Prince Corwin, scarred in body and soul, has become a ghost of the man he once was. His crumbling estate reacts to every flicker of his emotional unraveling. Enter Mira Thorne, Guild assessor, magic expert, and no one's damsel. Her job is to evaluate the estate's failing enchantments and leave. But Blackthorn is no ordinary ruin, and Corwin is no ordinary recluse. The house is alive. The magic is shifting. And something or someone is haunting the walls with unfinished love. Mira expects to uncover corruption, not heartbreak. But the deeper she digs, the more the estate resists, and the more she finds herself caught between the rules she's sworn to follow and the love story that refuses to die. **A Curse of Silver and Scars** is a lyrical, emotionally charged Beauty and the Beast retelling with a slow burn, clean romance, haunted estate magic, and themes of grief, memory, and the cost of choosing compassion over law. For readers who love Sentient houses with secrets, Cursed, emotionally guarded heroes, Tragic love, and quiet healing. Romantasy without spice but all the yearning. Stay in the loop. In Search Of The Mind Grigorian, 2009 **General Pedagogy** Martha M. A. Zama, Margaret Nalova Endeley, 2023-02-24 **General Pedagogy: A Guide to Effective Teaching** demystifies the scientific art of teaching by providing facts, principles, and concrete examples in real-life situations such that neither the novice teacher who peruses it will stutter in front of students on the first day of school nor will the experienced teacher write and execute the same old lesson plans on that day. The best teachers are those who show you where to look but don't tell you what to see, is a popular quote attributed to Alexandra K. Trenfor, which aptly summarizes the kind of teachers this book intends to produce when used as a teacher training resource. Real teachers facilitate learning; they do not simply tell learners the answers to their questions and concerns. Accordingly, the authors take the readers through well-researched themes in the academic discipline of teaching wherein they present, analyse, and discuss pertinent issues. Although they provide useful suggestions for teaching success, the authors encourage teachers to interpret facts, ideas, and suggestions presented against the sociocultural contexts of their practice. The materials are presented creatively while adding a personal touch intended to facilitate effective and efficient learning. For coherence and better comprehension, the book has been

carefully crafted in eighteen chapters lodged in six parts The first part introduces the reader to the concepts of teaching and teaching effectiveness The theoretical underpinnings of these concepts are brought out in the second part which paves the way for the third part that describes generic teaching approaches strategies and methods Part four and five comprise essential teaching skills and teaching tools for the 21st century while part six wraps up with the transition from teacher training laboratories to classrooms in the real world The last two chapters intentionally prepare the teacher to overcome challenges of professional work in contemporary African classrooms
