Imagining Arcadia in Renaissance Romance Marsha S. Collins, 2016-03-22

From Theocritus Idylls to James Cameron's Avatar Arcadia remains an enduring presence in world culture and a persistent source of creative inspiration Why does Arcadia still exercise such a powerful pull on the imagination This book responds by arguing that in sixteenth century Europe a dramatic shift took place in imagining Arcadia The traditional visions of Arcadia collided and fused with romance the new experimental form of prose fiction producing a hybrid dynamic world of change and transformation Emphasizing matters of fictional function and world making over generic classification Imagining Arcadia in Renaissance Romance analyzes the role of romance as a catalyst in remaking Arcadia in five canonical sixteenth century texts Sannazaro's Arcadia Montemayor's La Diana Cervantes La Galatea Sidney's Arcadia and Lope de Vega's Arcadia Collins analyses of the reimagined Arcadia in these works elucidate the interplay between timely incursions into the fictional world and the timelessness of art highlighting issues of freedom identity formation subjectivity and self fashioning the intersection of public and private activity and the fascination with mortality This book addresses the underrepresentation of Spanish literature in Early Modern literary histories especially regarding the rich Spanish contribution to the pastoral and to idealizing fiction in the West Companion chapters on Cervantes and Sidney add to the growing field of Anglo Spanish comparative literary studies while the book's comparative and transnational approach extends discussion of the pastoral beyond the boundaries of national literary traditions This book's innovative approach to these fictional worlds sheds new light on Arcadia's enduring presence in the collective imagination today

J. Harrison,2011 The study of the reception of the ancient novel and of its literary and cultural heritage is one of the most appealing issues in the story of this literary genre In no other genre has the vitality of classical tradition manifested itself in such a lasting and versatile manner as in the novel However this unifying centripetal quality also worked in an opposite direction spreading to and contaminating future literatures Over the centuries from Antiquity to the present time there have been many authors who drew inspiration from the Greek and Roman novels or used them as models from Cervantes to Shakespeare Sydney or Racine not to mention the profound influence these texts exercised on for instance sixteenth to eighteenth century Italian Portuguese and Spanish literature Volume I is divided into sections that follow a chronological order while Volume II deals with the reception of the ancient novel in literature and art The first volume brings together an international group of scholars whose main aim is to analyse the survival of the ancient novel in the ancient world and in the Middle Ages in the Renaissance in the 17th and 18th centuries and in the modern era The contributors to the second volume have undertaken the task of discussing the survival of the ancient novel in the visual arts in literature and in the performative arts The papers assembled in these two volumes on reception are at the forefront of scholarship in the field and will stimulate scholarly research on the ancient novel and its influence over the centuries up to modern times thus enriching not only Classics but also modern languages and literatures cultural history literary theory and comparative literature **Cultural Crossroads in the Ancient Novel** Marília P. major study in English of Vasily Zhukovsky 1783 1852 poet translator of German romantic verse and mentor of Pushkin this book brings overdue attention to an important figure in Russian literary and cultural history Vinitsky's psychological biography argues that Zhukovsky very consciously set out to create for himself an emotional life reflecting his unique brand of romanticism different from what we associate with Pushkin or poets such as Byron or Wordsworth For Zhukovsky ideal love was harmonious built on a mystical foundation of spiritual kinship Vinitsky shows how Zhukovsky played a pivotal role in the evolution of ideas central to Russia's literary and cultural identity from the end of the eighteenth century into the decades following the Napoleonic Wars

Love and its Critics Michael Bryson, Arpi Movsesian, 2017-07-10 This book is a history of love and the challenge love offers to the laws and customs of its times and places as told through poetry from the Song of Songs to John Milton's Paradise Lost It is also an account of the critical reception afforded to such literature and the ways in which criticism has attempted to stifle this challenge Bryson and Movsesian argue that the poetry they explore celebrates and reinvents the love the troubadour poets of the eleventh and twelfth centuries called fin amor love as an end in itself mutual and freely chosen even in the face of social religious or political retribution Neither eros nor agape neither exclusively of the body nor solely of the spirit this love is a middle path Alongside this tradition has grown a critical movement that employs a hermeneutics of suspicion in Paul Ricoeur's phrase to claim that passionate love poetry is not what it seems and should be properly understood as worship of God subordination to Empire or an entanglement with the structures of language itself in short the very things it resists The book engages with some of the seminal literature of the Western canon including the Bible the poetry of Ovid and works by English authors such as William Shakespeare and John Donne and with criticism that stretches from the earliest readings of the Song of Songs to contemporary academic literature Lively and enjoyable in its style it attempts to restore a sense of pleasure to the reading of poetry and to puncture critical insistence that literature must be outwitted It will be of value to professional graduate and advanced undergraduate scholars of literature and to the educated general reader interested in treatments of love in poetry throughout history

Persistent Forms Ilya Kliger, Boris Maslov, 2015-12-14 Since the mid 1980s attempts to think history and literature together have produced much exciting work in the humanities Indeed some form of historicism can be said to inform most of the current scholarship in literary studies including work in poetics yet much of this scholarship remains undertheorized Envisioning a revitalized and more expansive historicism this volume builds on the tradition of Historical Poetics pioneered by Alexander Veselovsky 1838-1906 and developed in various fruitful directions by the Russian Formalists Mikhail Bakhtin and Olga Freidenberg The volume includes previously untranslated texts of some of the major scholars in this critical tradition as well as original contributions which place that tradition in dialogue with other thinkers who have approached literature in a globally comparatist and evolutionary historical spirit The contributors seek to challenge and complement a historicism that stresses proximate sociopolitical contexts through an engagement with the *longue durée* of literary forms and institutions In particular Historical Poetics aims to uncover deep historical stratifications and asynchronicities in which formal solutions may display elective affinities with other chronologically distant solutions to analogous social and political problems By recovering the traditional nexus of philology and history Persistent Forms seeks to reinvigorate poetics as a theoretical discipline that would respond to such critical and intellectual developments as Marxism New Historicism the study of world literature practices of distant reading and a renewed attention to ritual oral poetics and genre

Crafting Characters Koen De Temmerman, 2014-02-27 The oldest European novels were written in ancient Greek during the first few centuries of the

Common Era Despite the gold rush towards these novels in the last two decades and the resurgence of interest in representations of character in literary studies and Classical studies in particular no volume has yet been devoted to exploring character and characterization in the ancient Greek novels This study analyses the characterization of the protagonists in the five extant so called ideal Greek novels those of Chariton Xenophon of Ephesus Achilles Tatius Longus and Heliodorus De Temmerman offers close readings of techniques of characterization used in each novel and combines modern mainly but not exclusively structuralist narratology and ancient rhetoric He argues that three conceptual couples central to ancient theory of character typification individuation idealistic realistic characterization and static dynamic character construct character in these narratives more ambiguously more elusively and in more complex ways than has so far been realized Throughout the different chapters it also becomes clear how intimately presentations of character are intertwined with self portrayal and performance of the self
