1936-1940

August

The early days of August saw little combat activity; the main event to take place was the equipping of 1. Staffel, Erpr. Gr. 210 with fighter-bomber Bf 110 D-0/86. Conversion training to the use of the armed C-0 variant, 2. Staffel suffered the loss of two aircraft on 6 August; one was lost when it was pulled out of its dive too late during dive-bombing practice and crashed with the loss of both crewmen, and the other, on a test flight to check a repaired faulty engine, was abandoned by its crew when engine problems arose once more. In the latter aircraft the Bordfunker's position was occupied by an engineer from Daimler-Benz to monitor engine performance; he baled out safely. The pilot, Uffr. Heinrich Schulteis, baled out but hit the frame of the aircraft and was killed.

8 August - Convoy 'Peewit'

Leaving Southampton on 7 August, convoy 'Peewit' was closely monitored by reconnaissance aircraft and was first attacked by German surface boats in the early hours of 8 August. The first attack on the convoy, shortly after 09:00 hours, was met with spirited opposition by defending RAF fighters. A second attack was launched in the early afternoon on the convoy, which had already suffered losses from the morning assault. On this occasion, fighter escort for the bombers was provided by the Bf 110s of I./ZG 1. Once again they tangled with intercepting British fighters, and once again their claims for victories were somewhat optimistic: 13. A feature of their claims was that they were all scored at low-level, between 500 and 1,000 metres. Set against that, 14. Staffel lost one Bf 110 and crew, with a further five returning to France with varying degrees of damage, one of whose pilots succumbed to his wounds.

11 August - central Channel and Thames estuary

Action early on 11 August involved the Bf 109s of 3./Erpr. Gr. 210 shooting down barrage balloons protecting Dover Harbour, and the Bf 110s of that unit then following up and bombing the harbour. All aircraft returned safely to Calais-Marck.

Later in the morning two major raids built up, both featuring Bf 110s, and the RAF reacted in strength to each of them. Heading out of the Cherbourg Peninsula towards the Dorset coast, the Luftwaffe formation was tracked by British radar. Both Gruppen of ZG 2 provided the fighter escort along with Bf 109s of JG 2 and JG 27 for Ju 88s and He 111s drawn from KG 54 and KG 27 respectively. Eight RAF squadrons rose to meet what was the largest raid yet to be sent against England.

Arriving at their holding point, the Bf 110s formed a large defensive circle to draw the RAF fighters away from the incoming bombers. The ruse worked, and soon a heavy dogfight developed between the Spitfires and Hurricanes and the Bf 110s of ZG 2. This was sufficient for the bombers to get through

ABOVE: One of the early 70-series Bf 110s, which was produced in great numbers. The aircraft was a versatile machine, capable of being used as a fighter, bomber, or reconnaissance aircraft. It was also used as a night fighter, and was the first German aircraft to be equipped with a radar scanner. The Bf 110 was a twin-engine, high-wing aircraft, and was the first German aircraft to be equipped with a retractable landing gear. It was also the first German aircraft to be equipped with a self-sealing fuel tank.

ABOVE: Piloten Pte. Gerhard (left) of 13./GrGr 1 and Pte. Friedrich Lindemann of 14./GrGr 1. Jentsch was killed in action on 8 August in LI+KDL. Lindemann suffered the same fate in LI+CK on 27 September.

least known of the Luftwaffe's fighter force during World War II this new two volume work sets the record straight providing the aviation and military historian with a comprehensive and detailed study of this often ignored facet of the air war between 1939 and 1945 **Germany and the Second World War** Horst Boog, Werner Rahn, Reinhard Stumpf, Bernd

Milan N. Vego, 2009 Smallholder farmers and pastoralists fulfil an invaluable yet undervalued role in conserving biodiversity They act as guardians of locally adapted livestock breeds that can make use of even marginal environments under tough climatic conditions and therefore are a crucial resource for food security But in addition by sustaining animals on natural vegetation and as part of local ecosystems these communities also make a significant contribution to the conservation of wild biodiversity and of cultural landscapes This publication provides a glimpse into the often intricate knowledge systems that pastoralists and smallholder farmers have developed for the management of their breeds in specific production systems and it also describes the multitude of threats and challenges these often marginalized communities have to cope with **Flypast**, 2006 **German Aircraft Industry and Production, 1933-1945** Ferenc A. Vajda, Peter

Dancey, 1998 Beskriver den tyske flyindustri i perioden 1933-45 herunder de store flyforhold under 2 verdenskrig **Aces at Kursk** Christopher A Lawrence, 2024-07-25 The Battle of Kursk in July 1943 is known for being the largest tank battle in history A Russian victory it marked the decisive end of the German offensive capability on the Eastern Front and set the scene for the Soviet successes that followed While many have focused on the tank engagements especially the Battle of Prokhorovka there was an intense air battle going on overhead that was bigger than the Battle of Britain As part of the German offensive the Luftwaffe's VIII Air Corps deployed around 1 100 aircraft in the south alone while the opposing Soviet Second and Seventeenth air armies initially deployed over 1 600 aircraft There was a similar effort surrounding the German attack in the north The battle in the south began with a Soviet air strike on German airfields and a fight for control of the air

that continued throughout the day across the front On the first day of the battle 5 July 1943 the Germans flew at least 2 387 sorties in the south while the two Soviet air armies flew 1 688 sorties That first day of battle resulted in 19 to 27 German planes and 189 Soviet aircraft shot down This was an aerial engagement like no other ever seen before Involved on the German side were the 52nd and 3rd Fighter Wings The 52nd Fighter Wing was the most accomplished fighter wing in history and many of its top aces were involved in the combats over the Kursk battlefield These included Walter Krupinski 197 claimed kills in the war G nther Rall the third highest scoring ace in history 275 claimed kills and the highest scoring ace in history Erich Hartmann 352 claimed kills Opposing them were what were to become three of the top five Soviet aces Kirill Yevstigneyev 53 claimed kills Nikolai Gulayev 55 claimed kills and the top scoring Allied ace of the war Ivan Kozhedub 62 claimed kills This was indeed the battle of the aces But there was also the massive ground attack effort by both sides including the Junkers Ju 87 Stuka fitted with 37mm anti tank guns flown by the man who would become most decorated soldier of the Third Reich Hans Ulrich Rudel The aerial battle involved hundreds of Soviet Sturmoviks or IL 2s Stalin s armored ground attack plane The battle featured the famous attack by Luftwaffe Hs 129s and Fw 190s on Soviet armor on 8 July 1943 Aces at Kursk is not just a war story but a revealing investigation that analyses the entire air battle that turned the tide of the war on the Eastern Front The Ardennes, 1944-1945 Christer Bergström, 2014-12-19 A comprehensive photo filled account of the six week long Battle of the Bulge when panzers slipped through the forest and took the Allies by surprise In December 1944 just as World War II appeared to be winding down Hitler shocked the world with a powerful German counteroffensive that cracked the center of the American front The attack came through the Ardennes the hilly and forested area in eastern Belgium and Luxembourg that the Allies had considered a quiet sector Instead for the second time in the war the Germans used it as a stealthy avenue of approach for their panzers Much of US First Army was overrun and thousands of prisoners were taken as the Germans forged a fifty mile bulge into the Allied front But in one small town Bastogne American paratroopers together with remnants of tank units offered dogged resistance Meanwhile the rest of Eisenhower s broad front strategy came to a halt as Patton from the south and Hodges from the north converged on the enemy incursion Yet it would take an epic six week long winter battle the bloodiest in the history of the US Army before the Germans were finally pushed back Christer Bergström has interviewed veterans gone through huge amounts of archive material and performed on the spot research in the area The result is a large amount of previously unpublished material and new findings including reevaluations of tank and personnel casualties and the most accurate picture yet of what really transpired from the perspectives of both sides With nearly four hundred photos numerous maps and thirty two superb color profiles of combat vehicles and aircraft it provides perhaps the most comprehensive look at the battle yet published *Information Bulletin*, 1943 Warfare and Armed Conflicts Micheal Clodfelter, 2017-05-23 In its revised and updated fourth edition this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015 with new statistical and analytical

information Figures include casualties from global terrorism the wars in Iraq and Afghanistan and the fight against the Islamic State New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions Arranged roughly by century and subdivided by world region chronological entries include the name and dates of the conflict precursor events strategies and details the outcome and its aftermath **Operation Barbarossa: the Complete**
