Luftwaffe In The North African Campaign A Photo Chronicle 1941-1943:

The Mediterranean Air War Robert S. Ehlers, Jr., 2015-03-27 Without what the Allies learned in the Mediterranean air war in 1942-1944 the Normandy landings and so perhaps the Second World War II would have ended differently This is one of many lessons of The Mediterranean Air War the first one volume history of the vital role of airpower during the three year struggle for control of the Mediterranean Basin in World War II and of its significance for the Allied successes in the war's last two years Airpower historian Robert S Ehlers opens his account with an assessment of the pre war Mediterranean theater highlighting the ways in which the players' strategic choices, strengths and shortcomings set the stage for and ultimately shaped the air campaigns over the Middle Sea Beginning with the Italian invasion of Abyssinia Ehlers reprises the developing international crisis initially between Britain and Italy and finally encompassing France, Germany, the US, other members of the British Commonwealth and the Balkan countries He then explores the Mediterranean air war in detail with close attention to turning points, joint and combined operations and the campaign's contribution to the larger Allied effort In particular his analysis shows how and why the success of Allied airpower in the Mediterranean laid the groundwork for combined arms victories in the Middle East, the Indian Ocean area, North Africa and the Atlantic northwest Europe Of grand strategic importance from the days of Ancient Rome to the Great Power rivalries of the eighteenth and nineteenth centuries the Middle Sea was no less crucial to the Allied forces and their foes Here in the successful offensives in North Africa in 1942 and 1943 the US and the British learned to conduct a coalition air and combined arms war Here in Sicily and Italy in 1943 and 1944 the Allies mastered the logistics of providing air support for huge naval landings and opened a vital second aerial front against the Third Reich bombing critical oil and transportation targets with great effectiveness The first full examination of the Mediterranean theater in these critical roles as a strategic and tactical testing ground for the Allies and as a vital theater of operations in its own right *The Mediterranean Air War* fills in a long missing but vital dimension of the history of World War II

Luftwaffe in Africa, 1941-1943 Jean-Louis Roba,2019-11-19 This WWII history examines Nazi air force operations in Egypt and Libya with more than 100 rare wartime photographs When Mussolini s army was defeated on the Libyan Egyptian border at the beginning of 1941 Adolph Hitler had no choice but to send reinforcements to help his ally The Luftwaffe deployed an air detachment first to Sicily then to North Africa This volume examines the small expeditionary force solely devoted to protecting Italian possessions in the Mediterranean and Middle Eastern theater When General Erwin Rommel

launched his Afrika Korps to the east the Luftwaffe had to go on the offensive to cover the advance As British air forces were strengthened German High Command was obliged to send more aerial units into what it had initially considered a peripheral arena of the war Losses in bombers and fighters were high on both sides By the time the Allies landed in Morocco and Algeria at the end of 1942 the Wehrmacht's fate was sealed The last German units capitulated in Tunisia in May 1943
