Lugard The Years Of Adventure 1858 1898:

Lugard Dame Margery Freda Perham, 1956 *Lugard*, 1956 **Lugard** Margery Perham, 1960 Lugard Margery Perham, 1956 **Lugard: The years of adventure, 1858-1898.** [1960 Margery Freda Perham, 1960 **The Decline and Fall of the British Empire, 1781-1997** Piers Brendon, 2010-02-09 A WASHINGTON POST BOOK WORLD NOTABLE BOOK

After the American Revolution the British Empire appeared to be doomed Yet it grew to become the greatest most diverse empire the world had seen Then within a generation the mighty structure collapsed a rapid demise that left an array of dependencies and a contested legacy at best a sporting spirit a legal code and a near universal language at worst failed states and internecine strife The Decline and Fall of the British Empire covers a vast canvas which Brendon fills with vivid particulars from brief lives to telling anecdotes to comic episodes to symbolic moments The Oxford History of the British Empire: Historiography Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries **Uganda** Great Britain. Colonial Office, 1957 **Moving the Maasai** L. Hughes, 2006-01-10 This is the scandalous story of how the Maasai people of Kenya lost the best part of their land to the British in the 1900s Drawing upon unique oral testimony and extensive archival research Hughes describes the intrigues surrounding two enforced moves and the 1913 lawsuit while explaining why recent events have brought the story full circle *Colonialism* Melvin E. Page, 2003-09-16 The most exhaustive reference work available on this critical subject in world history focusing on the politics economy culture and society of both colonizers and colonized The history of the last 500 years is the history of imperialism writes editor Melvin Page In the Americas as a result of imperialist conquest disease famine and war nearly wiped out a population estimated in the tens of millions Africa was devastated by the slave trade an integral part of imperialism from the 1400s to the 1800s In Asia even though native populations survived native political institutions were destroyed Imperialism also forged the two most important ideologies of the last five centuries racialism and modern nationalism In more than 600 essays presented in this three volume encyclopedia Page and other leading scholars historians political scientists economists and sociologists analyze the origins of imperialism the many forms it took and its impact worldwide They also explore imperialism's bitter legacy the gross inequities of global wealth and power that divide the former conquerors primarily Europe the United States and Japan from the people they conquered **Ghosts of Empire** Kwasi Kwarteng, 2012-01-01 This fascinating book shows how the later years of the British Empire were characterised by accidental oversights irresponsible opportunism and uncertain pragmatism **Erased** Patricia Owens, 2025-01-21 How a field built on the intellectual labor and expertise of women erased them The academic field of international relations presents its own history as largely a project of elite white men And yet women played a prominent role in the creation of this new cross disciplinary field In *Erased* Patricia Owens shows that since its beginnings in the early twentieth century international relations relied on the intellectual labour of women and their expertise on such subjects as empire and colonial

administration anticolonial organising non Western powers and international organisations Indeed women were among the leading international thinkers of the era shaping the development of the field as scholars journalists and public intellectuals and as heterosexual spouses and intimate same sex partners Drawing on a wide range of archival sources and weaving together personal institutional and intellectual narratives Owens documents key moments and locations in the effort to forge international relations as a separate academic discipline in Britain She finds that women s ideas and influence were first marginalised and later devalued ignored and erased Examining the roles played by some of the most important women thinkers in the field including Margery Perham Merze Tate Eileen Power Margaret Cleeve Coral Bell and Susan Strange Owens traces the intellectual and institutional legacies of misogyny and racism She argues that the creation of international relations was a highly gendered and racialised project that failed to understand plurality on a worldwide scale Acknowledging this intellectual failure and recovering the history of women in the field points to possible sources for its renewal

Collaborative Colonial Power Wing Sang Law, 2009-07-01 Law Wing Sang provides an alternative lens for looking into Hong Kong s history by breaking away from the usual colonial and nationalist interpretations Drawing on both English and Chinese sources he argues that from the early colonial era colonial power has been extensively shared between colonizers and the Chinese who chose to work with them This exploration of the form of colonial power includes critical discussions of various cultural and institutional aspects looking into such issues as education language use political ideologies and other cultural and political concerns These considerations permit the author to shed new light from a historical perspective on the complex and hotly debated question of Hong Kong identity But it is not written just out of an interest in things of the past Rather the arguments of this book shed new light on some current issues of major relevance to post colonial Hong Kong In making critical use of post colonial approaches this book not only makes an original and important contribution to Hong Kong studies but also makes evident that Hong Kong is an important case for all interested in examining the colonial experience in East Asia This book is of interest to all with an interest in Hong Kong s history and current issues but also more widely to those who study the phenomenon of colonialism in the Asian region

Exporting empire Christopher Prior, 2017-03-01 For Africans rank and file colonial officials were the most visible manifestation of British imperial power But in spite of their importance in administering such vast imperial territories the attitudes of officials who served between the end of the nineteenth century and the Second World War as well as what shaped such attitudes have yet to be examined in any systematic way In this original and revisionist work Prior draws upon an enormous array of private and official papers to address some key questions about the colonial services How did officials education and training affect the ways that they engaged with Africa How did officials relate to one another How did officials seek to understand Africa and Africans How did they respond to infrastructural change How did they deal with anti colonial nationalism This work will be of value to students and lecturers alike interested in British imperial and African history

Colonialism and Development

Michael A. Havinden, David Meredith, 2002-06-01 British colonial rule of the tropics is the critical background to contemporary development issues This study of Britain's economic and political relationship with its tropical colonies provides detailed analyses of trade and policy The considerations of past successes and failures elucidate current opportunities and developments No other book covers this broad topic with such detail and clarity **Nigeria** Richard Bourne, 2015-10-15 If you want to understand Nigeria's history in one succinct go this is a very good choice Noo Saro Wiwa Known as the African Giant Nigeria's story is complex and often contradictory How despite the ravages of colonialism civil war ongoing economic disappointment and most recently the Boko Haram insurgency has the country managed to stay together for a hundred years Why despite an abundance of oil mineral and agricultural wealth have so many of its people remained in poverty These are the key questions explored by Richard Bourne in this remarkable and wide ranging account of Nigeria's history from its creation in 1914 to the historic 2015 elections and beyond Featuring a wealth of original research and interviews this is an essential insight into the shaping of a country where despite the seemingly dashed optimism that was raised at independence there still remains hope the Nigeria project may still succeed *A Sacred Trust* Michael D Callahan, 2004-09-29 The second volume explains how the League of Nations mandates system fused two of the predominant and compelling global forces of the twentieth century imperialism and Wilsonian internationalism After the First World War Britain and France administered most of Germany's former tropical African colonies as mandates under the supervision of the League as a sacred trust of civilization This system of international trusteeship changed British and French rule in Africa In short mandates were not colonies Mandates meant less militarism more commercial equality a greater emphasis on the interests of Africans and an end to the extension of European national sovereignty over colonized peoples Accountability to the League also required the British and French to reconsider traditional economic strategic and ideological assumptions about their empires In the process the sacred trust sowed the seeds of self doubt about the very purpose and future of European imperialism The mandates system continued to represent a genuine internationalisation and reformation of colonialism and had long term economic political and cultural consequences for Africans and Europeans within the mandated territories Despite the Depression repeated Anglo French foreign policy failures growing humiliations for Geneva and war in Africa and Europe the principles and practices of international trusteeship proved persistent Mandates demonstrated the relevance of international law the importance of the League of Nations and the impact of Wilsonian principles on international relations and European imperialism *Colonial Situations* George W. Stocking, 1991-10-01 As European colonies in Asia and Africa became independent nations as the United States engaged in war in Southeast Asia and in covert operations in South America anthropologists questioned their interactions with their subjects and worried about the political consequences of government supported research By 1970 some spoke of anthropology as the child of Western imperialism and as scientific colonialism Ironically as the link between anthropology and colonialism became more widely accepted within

the discipline serious interest in examining the history of anthropology in colonial contexts diminished This volume is an effort to initiate a critical historical consideration of the varying colonial situations in which and out of which ethnographic knowledge essential to anthropology has been produced The essays comment on ethnographic work from the middle of the nineteenth century to nearly the end of the twentieth in regions from Oceania through southeast Asia the Andaman Islands and southern Africa to North and South America The colonial situations also cover a broad range from first contact through the establishment of colonial power from District Officer administrations through white settler regimes from internal colonialism to international mandates from early pacification to wars of colonial liberation from the expropriation of land to the defense of ecology The motivations and responses of the anthropologists discussed are equally varied the romantic resistance of Maclay and the complicity of Kubary in early colonialism Malinowski's salesmanship of academic anthropology Speck's advocacy of Indian land rights Schneider's grappling with the ambiguities of rapport and Turner's facilitation of Kaiapo cinematic activism Provides fresh insights for those who care about the history of science in general and that of anthropology in particular and a valuable reference for professionals and graduate students Choice Among the most distinguished publications in anthropology as well as in the history of social sciences George Marcus *Anthropologica*

Churchill and Africa C. Brad Faught, 2023-09-30 This timely book fills a lacuna in the extensive literature on Churchill's life and times It covers his long relationship with Africa during the most important period in Anglo African history from nineteenth century imperial rule to independence and the emergence of modern Africa Churchill first went to Africa during the British reconquest of Sudan in 1898 and would spend almost the next sixty years dealing with Africa as soldier journalist government minister and finally prime minister Churchill's story is one of transition from the height of late Victorian British imperialism to the acceptance of African nationalism in the middle years of the twentieth century He helped to shape British colonial policy in Africa from the first decade of the twentieth century through the Second World War and colonial Kenya's Mau Mau crisis of the 1950s Few British leaders were as closely involved with Africa as was Churchill *Children Of Ham* Fred Morton, 2019-03-04 *Children of Ham* Freed Slaves and Fugitives Slaves on the Kenya Coast 1873 to 1907 is a chronological account of the repeated bids for freedom made by slaves and ex slaves on the Kenya coast and of the obstacles placed in their way by the British the Busaidi Arabs and the peoples of the coast Efforts to escape slavery are as old as slavery itself on the Kenya coast but the principal story begins in 1873 when Britain pressured the sultan of Zanzibar to abolish the ocean going slave trade Thereafter political and military conflict intensified on the coast while opportunities for slaves to escape increased accordingly This period ending roughly with the abolition of the legal status of slavery in 1907 corresponds to the imperial scramble from its earliest stages to the effective establishment of European rule
