Luisa Lambri Luisa Lambri, Matthew Drutt, 2004 Essay by Matthew Drutt Foreword by James T Demetrios **Imagined Utopias in the Built Environment** Anna Novakov, 2017-01-06 Beginning with the early history of London's Vauxhall pleasure gardens this volume surveys visionary architecture and urban planning from the 18th century to the present. The recurrence of themes of technology individual agency and communal living in the work of Le Corbusier Eileen Gray Charles and Ray Eames and Constant Nieuwenhuys testifies to the continued search for an ideal personal and public space. Inspired by works of fiction such as Utopia Herland Mizora World of Women and Homo Ludens and the films Metropolis and Stalker artists and architects created fantastic plans for individual homes housing complexes and entire urban centers. The resulting projects discussed here manifest the modern anxiety between the liberation of the individual and the needs of the collective. The urban landscape from the 18th to the 21st centuries has been woven into the fabric of architecture as a way to improve day to day life as well as to create personal identity within an expanding public world. The seven chapter topics are arranged chronologically and begin with the design of social space in Georgian era pleasure gardens and conclude with a study of contemporary Utopian groups that utilize early literary references as a focus for their societies. As such the book builds upon the understanding of technology and architecture in its many forms as a shared benchmark for the expansion of individual rights and the growth of Utopian ideas in modern European and American society. **Luisa Lambri Luisa Lambri, 2005**

FotoFest H2004, 2004 **Res: Anthropology and Aesthetics, 47** Francesco Pellizzi, 2005-09-30 Res is a journal of anthropology and comparative aesthetics dedicated to the study of the object in particular cult and belief objects and objects of art. The journal presents contributions by philosophers art historians archaeologists critics linguists architects artists among others. **Contemporary Art About Architecture** Nora Wendl, 2017-07-05 An important resource for scholars of contemporary art and architecture this volume considers contemporary art that takes architecture as its subject. Concentrated on works made since 1990 Contemporary Art About Architecture A Strange Utility is the first to take up this topic in a sustained and explicit manner and the first to advance the idea that contemporary art functions as a form of architectural history theory and analysis. Over the course of fourteen essays by both emerging and established scholars this volume examines a diverse group of artists in conjunction with the vernacular canonical and fantastical structures engaged by their work. I Mangano Ovalle Matthew Barney Monika Sosnowska Pipo Nguyen Duy and Paul Pfeiffer are among those considered as are the compelling questions of architecture's relationship to photography the evolving legacy of Mies van der Rohe the notion of an architectural unconscious and the provocative concepts of the unbuilt and the unbuildable. Through a rigorous investigation of these issues Contemporary Art About Architecture calls attention to the fact that art is now a vital form of architectural discourse. Indeed this phenomenon is both pervasive and in its individual incarnations compelling a reason to think again about the entangled histories of architecture and art. **Luisa Lambri Luisa Lambri, Darsie**
