Robbins, 1982 For years the logging industry and the rich timberlands of the East and West coasts have evoked images of Jigger Jones and Paul Bunyan lusty lumbermen of folk history Behind these myths however lie the realities of ruthless competition heedless exploitation of forestlands and massive overproduction that once threatened to destroy the lumber industry **The Pacific Northwest Lumber Industry and Its Development** Robert W. Vinnedge, 1923 **Problems of the Softwood Lumber Industry** United States. Congress. Senate. Committee on Commerce, 1962 Industrial Relations in the West Coast Lumber Industry Cloice R. Department of Commerce, Axel Hansteen Oxholm, 1922 *Competition and Oligopsony in the Douglas Fir Lumber Industry* Walter J. Mead, 2023-11-15 This in depth analysis of the Douglas fir lumber industry investigates the relationship between industry structure firm behavior and performance outcomes While the lumber production sector exemplifies characteristics of pure competition with numerous mills and firms producing homogeneous products the timber input market operates as an oligopsony In this setting a few large buyers wield significant influence leading to price disparities and market power that smaller firms cannot match The study highlights the dichotomy between competitive lumber production and the noncompetitive dynamics of timber acquisition The book explores key issues such as economies of scale in production market concentration and the elasticity of demand and supply for both timber and lumber By scrutinizing the auction markets for federal timber and the effects of concentrated timberland ownership it sheds light on policy questions like the equitable distribution of public resources and the economic efficiency of market structures Combining theoretical insights with empirical data this study offers valuable findings for economists industry stakeholders and policymakers aiming to balance competition and sustainability in resource management This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1966 **The Lumber Industry: Conditions in production and wholesale distribution including wholesale prices** , 1914 The Lumber
