Transit □ 'Norden' och 'Europa' Petra Broomans, Ester Jiresch, Janke Klok Klok, Anja Schüppert, 2019-04-30 The IASS International Association for Scandinavian Studies is the international organization for the research of Nordic literature culture and linguistics Since 1956 the IASS conference has been organized every other year In 2016 the 31th IASS conference took place in Groningen Netherlands This 2016 conference revolved around the 21st century as an era characterized by dynamics with different implications These ongoing global transitions are reflected in the humanities the dichotomy between centre and periphery has invaded the literary discourse In many small language areas more translated literature is being published than literature written in the national language This implies that cultural mediators play a major role in the production of literature Their efforts are made visible in a transnational approach to the history of literature

Poetic Critique Michel Chaouli, Jan Lietz, Jutta Müller-Tamm, Simon Schleusener, 2021-03-22 Poetic critique is that not an oxymoron Do these two forms of behavior the poetic and the critical not pull in different even opposite directions For many scholars working in the humanities today they largely do but that has not always been the case Friedrich Schlegel for one believed that critique worthy of its name must itself be poetic Only then would it stand a chance of responding adequately to the work of art Taking Schlegel's idea of poetische Kritik as a starting point this volume reflects on the possibility of drawing these alleged opposites closer together In light of current debates about the legacy of critique it investigates whether a concept such as poetic critique or poetic criticism lends itself to enriching our intellectual practice by engaging with the poetic potential of criticism and the critical value of art and literature *E. Vuillard* Guy Cogeval, Édouard Vuillard, Kimberly Jones, Laurence Des Cars, National Gallery of Art, Washington D.C., Dario Gamboni, Mary Anne Stevens, Royal Academy of Arts (Great Britain), 2003-01-01 The long and illustrious career of Edouard Vuillard spans the fin de siècle and the first four decades of the twentieth century during which time the French painter printmaker and photographer created an extraordinary body of work This is the first volume to explore Vuillard's rich and varied career in its totality presenting nearly 350 works that demonstrate the full range of his subject matter and reveal both the public and private sides of this quintessentially Parisian artist In a series of illustrated essays and catalogue entries the authors explore Vuillard's complex and diverse artistic development beginning with his academic training in Paris in the late 1880s and the innovative Nabi paintings of the 1890s for which he is best known including his provocative disquieting middle class interiors and his work associated with the avant garde theatre The authors also examine Vuillard's splendid but lesser known large scale decorations his luminous landscapes and the elegant portraits from the last decades of his career In addition to paintings the volume includes a substantial selection of drawings and graphics together with a large group of striking photographs by the artist many of which are published here for the first time This illustrated catalogue accompanies the most comprehensive exhibition ever devoted to the work of Edouard Vuillard 1868 1940 The exhibition opens at the National Gallery of Art in
