**The Lure of Africa: American Interests in Tropical Africa, 1919-1939** Edward H. McKinley, 1974 A totally engrossing and brilliantly researched examination of Africa as Americans saw it at what may have been its most crucial stage of development Even though outward signs indicated neither resentment nor truculence but almost total passivity during the years from 1919 to 1939 Africa was in fact invisibly poised on the brink of independence From publisher's statement on jacket flap American Evangelical Enterprise in Africa Henry Efeso Mokosso, 2007 Original Scholarly Monograph

**USA, India, Africa During and After the Cold War** Okoth, Pontian Godfrey, 2015-03-16 The Cold War period witnessed competition from political economic ideological diplomatic military and social dimensions between the United States of America USA and the then Union of Soviet Socialist Republics USSR In the superpower rivalries India and Africa were adversely affected in many ways The situation did not change for the better in the post Cold War period which has witnessed the domination of the world by the US and its allies the Group of Eight G 8 industrialised countries This domination has been characterised by the process of Americanization of the worlds otherwise termed globalisation in virtually all spheres of life USA India Africa During and After the Cold War demonstrates that both the United States and The Soviet Union used African States India and other Third World countries for their own geopolitical considerations that the foreign policy and foreign relations of the US were meant to subject Africa and India to the dictates of US imperialism The book assesses the impact of the Cold War and the post Cold War order on Africa India and the entire world and argues that the Non Aligned Movement is still relevant to the Third World countries despite the demise of the Cold War The book analyses issues from the African point of view as opposed to hitherto Western view points but provides a balanced appreciation of the complex forces that shape foreign policies and foreign relations globally It is a valuable contribution to modern diplomatic history and targets university students researchers foreign affairs ministries and practicing diplomats

The United States and Africa Peter Duignan, Lewis H. Gann, L. H. Gann, 1987-04-24 Tracing the reciprocal relationship between Africa and North America from the seventeenth century slave trade onwards two leading authorities in the field provide a major revision to traditional colonial African history as well as to US history Departing from prior accounts that tended to emphasise only the role of the colonial metropolises in developing Africa the authors show how American pioneers missionaries traders prospectors miners engineers scientists and others have helped to shape Africa They also point to the equally important impact made by Africa on the United States through trade and immigration and through the influence of Africans on the arts and agriculture among other facets of American life In a study of exceptionally broad scope the authors devote particular attention to the development of United States policy regarding Africa the impact of private enterprise the operation of governmental lobbies the administration of foreign aid and the involvement of Africa in the Cold War

African, American David Peterson del Mar, 2017-06-15 Africa has long gripped the American imagination From the Edenic

wilderness of Edgar Rice Burroughs's Tarzan novels to the black Zion of Garvey's Back to Africa movement all manner of Americans whether white or black male or female have come to see Africa as an idealized stage on which they can fashion new more authentic selves In this remarkable panoramic work David Peterson del Mar explores the ways in which American fantasies of Africa have evolved over time as well as the role of Africans themselves in subverting American attitudes to their continent Spanning seven decades from the post war period to the present day and encompassing sources ranging from literature film and music to accounts by missionaries aid workers and travel writers *African American* is a fascinating deconstruction of Africa as it exists in the American mindset *Africa, Asia, and South America Since 1800* A. **The Cold War and the Color Line** Thomas BORSTELMANN, 2009-06-30 After World War II the United States faced two preeminent challenges how to administer its responsibilities abroad as the world's strongest power and how to manage the rising movement at home for racial justice and civil rights The effort to contain the growing influence of the Soviet Union resulted in the Cold War a conflict that emphasized the American commitment to freedom The absence of that freedom for nonwhite American citizens confronted the nation's leaders with an embarrassing contradiction Racial discrimination after 1945 was a foreign as well as a domestic problem World War II opened the door to both the U S civil rights movement and the struggle of Asians and Africans abroad for independence from colonial rule America's closest allies against the Soviet Union however were colonial powers whose

interests had to be balanced against those of the emerging independent Third World in a multiracial anticommunist alliance. At the same time U S racial reform was essential to preserve the domestic consensus needed to sustain the Cold War struggle. *The Cold War and the Color Line* is the first comprehensive examination of how the Cold War intersected with the final destruction of global white supremacy. Thomas Borstelmann pays close attention to the two Souths: Southern Africa and the American South as the primary sites of white authority's last stand. He reveals America's efforts to contain the racial polarization that threatened to unravel the anticommunist western alliance. In so doing he recasts the history of American race relations in its true international context, one that is meaningful and relevant for our own era of globalization.

**Table of Contents:** Preface, Prologue, 1 Race and Foreign Relations before 1945, 2 Jim Crow's Coming Out, 3 The Last Hurrah of the Old Color Line, 4 Revolutions in the American South and Southern Africa, 5 The Perilous Path to Equality, 6 The End of the Cold War and White Supremacy, Epilogue, Notes, Archives and Manuscript Collections, Index, Reviews of this book.

In rich, informing detail, enlivened with telling anecdote, Cornell historian Borstelmann unites under one umbrella two commonly separated strains of the U S post WWII experience: our domestic political and cultural history where the Civil Rights movement holds center stage and our foreign policy where the Cold War looms largest. No history could be more timely or more cogent. This densely detailed, book-wide ranging work, in its sources, contains lessons that could play a vital role in reshaping American foreign and domestic policy.

**Publishers Weekly Reviews of this book:** Borstelmann traces the constellation of racial challenges each administration faced, focusing particularly on African affairs abroad and African American civil rights at home, rather than highlighting the crises that made headlines. By avoiding the crutch of turning points for storytelling convenience, he makes a convincing case that no single event can be untied from a constantly thickening web of connections among civil rights, American foreign policy, and world affairs.

**Jesse Berrett Village Voice Reviews of this book:** Borstelmann analyzes the history of white supremacy in relation to the history of the Cold War, with particular emphasis on both African Americans and Africa. In a book that makes a good supplement to Mary Dudziak's *Cold War Civil Rights*, he dissects the history of U S domestic race relations and foreign relations over the past half century. This book provides new insights into the dynamics of American foreign policy and international affairs and will undoubtedly be a useful and welcome addition to the literature on U S foreign policy and race relations.

**Apartheid's Reluctant Uncle** Thomas Borstelmann, 1993. Borstelmann's history of Cornell U brings to light the neglected history of Washington's strong but hushed backing for the white supremacist National Party government that won power in South Africa in 1948 and for its formal establishment of apartheid.
