Lure Of Fundamentalism:

Catholicism and Fundamentalism Karl Keating, 2009-09-03 Karl Keating defends Catholicism from fundamentalist attacks and explains why fundamentalism has been so successful in converting Romanists After showing the origins of fundamentalism he examines representative anti Catholic groups and presents their arguments in their own words His rebuttals are clear detailed and charitable Special emphasis is given to the scriptural basis for Catholic doctrines and beliefs

In-Between God Stephen Pickard, 2011-12-28 In Between God explores three important areas for contemporary Christianity theology community and discipleship Part One inquires into the rhythms of faith as it interacts with themes of uncertainty and doubt the nature of theological discourse the task of systematic theology evangelism and the various ways in which theology is done Part Two discusses the importance of place in relation to the church and themes of innovation undecideability and new forms of monastic community Part Three addresses themes in discipleship simplicity mysticism the passions and pilgrimage A red thread connecting these essays is the character of the triune God who is the energy and life in between all things The Unity Principle Ellis Rivkin, 2003 Presents a dynamic interpretation of Jewish history from biblical to modern times as a set of interconnected and evolving events and relationships that spring directly from Judaism s core beliefs

Fear Itself Stephen Hessel, Michèle Huppert, 2010 What are fear horror and terror This question central to our endeavour cannot be answered by one unified voice It always cracks falters and fades before it can fully enunciate its proclamation We the authors know this and have planned accordingly This volume presents meditations on this issue springing from the four corners of intellectual inquiry Each author provides a distinctive approach with which to address the issue at hand Literary theory psychoanalysis media studies political science and many more disciplines occupy the same space between the covers of this book We hope that through the cacophony of our diversity we will fill in the inevitable gaps when our voices fall short Abiding Faith Scott Cowdell, 2014-06-26 Australian theologian Scott Cowdell explores how

having faith has changed under the influence of modernity and post modernity in the West Following the understanding of faith typical of Saint Paul the Fathers and the medieval monastic theologians faith is returned from pious sentimentality and arid philosophy of religion to the realm of participating knowing paradigmatic imagination and personal transformation where it belongs as a form of life shaped by encounter with Jesus Christ and worked out through the Eucharistic community

Diversity K. April, M. Shockley, 2006-11-28 This unique collection of papers from authors whose experience and nationalities are themselves diverse captures intellectual and personal reflections on diversity The authors offer unique perspectives into diversity on an individual level as well as the experiential challenges of implementing diversity programs at the country public sector company and civil society levels In doing so the book identifies a variety of elements that define a multi faceted reality that is at once contradictory deeply personal artistic emotionally evocative and intellectually stimulating

The Lure of Fundamentalism Julianne Schultz, 2005 Fundamentalism is the new ideology Religion has become a more

potent force in world affairs than it has been for generations with devastating consequences Our desire to be safe is shaping decisions in unprecedented ways Fundamentalism has become a metaphor for dogmatic solutions to complex problems from schooling to the environment foreign relations and health **Uncertainty and Risk** Gabriele Bammer, Michael Smithson, 2012-05-04 This is a major and deeply thoughtful contribution to understanding uncertainty and risk Our world and its unprecedented challenges need such ways of thinking Much more than a set of contributions from different disciplines this book leads you to explore your own way of perceiving your own area of work An outstanding contribution that will stay on my shelves for many years Dr Neil T M Hamilton Director WWF International Arctic Programme This collection of essays provides a unique and fascinating overview of perspectives on uncertainty and risk across a wide variety of disciplines It is a valuable and accessible sourcebook for specialists and laypeople alike Professor Renate Schubert Head of the Institute for Environmental Decisions and Chair of Economics at the Swiss Federal Institute of Technology This comprehensive collection of disciplinary perspectives on uncertainty is a definitive guide to contemporary insights into this Achilles heel of modernity and the endemic hubris of institutional science in its role as public authority It gives firm foundations to the fundamental historic shift now underway in the world towards normalizing acceptance of the immanent condition of ignorance and of its practical corollaries contingency uncontrol and respect for difference Brian Wynne Professor of Science Studies Lancaster University Bammer and Smithson have assembled a fascinating important collection of papers on uncertainty and its management The integrative nature of *Uncertainty and Risk* makes it a landmark in the intellectual history of this vital cross disciplinary concept George Cvetkovich Director Center for Cross Cultural Research Western Washington University *Uncertainty* governs our lives From the unknowns of living with the risks of terrorism to developing policies on genetically modified foods or disaster planning for catastrophic climate change how we conceptualize evaluate and cope with uncertainty drives our actions and deployment of resources decisions and priorities In this thorough and wide ranging volume theoretical perspectives are drawn from art history complexity science economics futures history law philosophy physics psychology statistics and theology On a practical level uncertainty is examined in emergency management intelligence law enforcement music policy and politics Key problems that are a subject of focus are environmental management communicable diseases and illicit drugs Opening and closing sections of the book provide major conceptual strands in uncertainty thinking and develop an integrated view of the nature of uncertainty uncertainty as a motivating or demotivating force and strategies for coping and managing under uncertainty **Letters to a Young Evangelical** Tony Campolo, Anthony Campolo, 2006-11-28 A best selling minister and social activist offers an uplifting vision of what it means to be an evangelical and offers loving guidance to all of those who wish to lead a genuinely Christian life in a confusing world *The Palgrave Handbook of Global Mormonism* R. Gordon Shepherd, A. Gary Shepherd, Ryan T. Cragun, 2020-11-12 This handbook explores contemporary Mormonism within a global context The authors provide a nuanced picture of a historically

American religion in the throes of the same kinds of global change that virtually every conservative faith tradition faces today They explain where and how the Church of Jesus Christ of Latter day Saints has penetrated national and cultural boundaries in Latin America Oceania Europe Asia and Africa as well as in North America beyond the borders of Mormon Utah They also address numerous concerns within a multinational multicultural church What does it mean to be a Latter day Saint in different world regions What is the faith s appeal to converts in these places What are the peculiar problems for members who must manage Mormon identities in conjunction with their different national cultural and ethnic identities How are leaders dealing with such issues as the status of women in a patriarchal church the treatment of LGBTQ members increasing disaffiliation of young people and decreasing growth rates in North and Latin America while sustaining increasing growth in parts of Asia and Africa

Christianity and the Culture Machine Vincent F. Rocchio, 2016-08-05 Christianity and the Culture Machine is a precedent shattering approach to combining theories of media and culture with theology In this intensive examination of Christianity s role in the cultural marketplace the author argues that Christianity s inability to effectively contest the ideology of secular humanism is not a theological shortcoming but rather a communications problem the institutional church is too wedded to an outmoded aesthetic of Christianity to communicate effectively Privileging authority and obedience over the egalitarian and transformative goal of Christianity the church fails to recognize how it undermines the vitality of the Christian narrative and message In the absence of a more compelling vision offered by the official church a new aesthetic can be found forming within the margins of popular culture texts Despite its past failures in representing the Bible in mainstream film and television the culture industry now offers more compelling versions of core Christian theology without even realizing it within the margins of the main storylines This book analyzes the aesthetic principles employed by these appropriations and articulations of Christian discourse as a means of theorizing what a new aesthetic of Christianity might look like

The Oxford Handbook of Christian Fundamentalism Andrew Atherstone, David Ceri Jones, 2024-01-18 This authoritative volume offers the fullest account to date of Christian fundamentalism its origins in the nineteenth century and its development up to the present day It looks at the movement in global terms and through a number of key subjects and debates in which it is actively engaged

Fundamentalism in America Philip Melling, 2013-12-02 This important book challenges the idea that religious fundamentalism can adequately be understood as a paranoid xenophobic faith It demonstrates instead how it draws upon a long tradition of evangelical and millennialist scripture in its engagement with issues at the spiritual and ethical core of postmodernity in the United States The

author examines the varieties of fundamentalism as they appear in prophecy sermon film and fiction In its wide ranging consideration of the rhetoric of the New World Order the literature of prophecy Cold War films television evangelism cross border texts and post nationalist writing *Fundamentalism in America* provides a vital and compelling account of the present state of religious and nationality identity in the United States **Feminist Review** The Feminist Review

outlining its characteristics and the history of key fundamentalist movements around the world considering examples from Christianity Islam Buddhism and Hinduism The book argues that fundamentalism develops when modern lay religious leaders challenge the authority of secular states and traditional religious establishments These new leaders and their followers seek to infuse religious values and practices into all spheres especially law politics education and science The patterns of religious authority and leadership that characterize fundamentalism have their roots in a Christian context but were globalized through intense intercultural contacts after the mid nineteenth century Fundamentalism is a thoroughly modern and global phenomenon because it presupposes the globalization of ideas and practices concerning religious leadership and organization as well as universal changes in the relationship of religion to modern societies and states

Theory of Fundamentalism Stephen C. Pelletiere,1995 Islamic fundamentalism is growing at such a rapid rate that many

believe it threatens to take over the Middle East To prevent this enormous resources have been summoned not only from within the region but in the West as well Yet for all the efforts to contain if not turn back the fundamentalists the movement appears likely to pose a security challenge well into the next century Dr Stephen Pelletiere points out that containment of fundamentalism depends first and foremost on accurate information about the nature of the movement He examines the origins of the various fundamentalist groups that are challenging the area s governments and explains why they were able to grow in the face of official repression by some of the most sophisticated and well equipped security services in the world The author concludes by building a theory about fundamentalism which implies a need to redirect policy for coping with it Dr Pelletiere maintains that the solution is not to try to crush the movement that has been attempted numerous times and consistently has failed Rather the way to proceed is to locate and act on the basic split within the movement between its socially constructive and other more violent elements Fundamentalism and Education in the Scopes Era A.

Laats,2010-05-24 This book takes a new look at one of the most contentious periods in American history The battles over schools that surrounded the famous Scopes monkey trial in 1925 were about much more than evolution Fundamentalists fought to maintain cultural control of education As this book reveals for the first time the successes and the failures of these fundamentalist campaigns transformed both the fundamentalist movement and the nature of education in America In turn those transformations determined many of the positions of the culture wars that raged throughout the twentieth century

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him.
