Dawson's passion for the sea and his keen eye for detail propelled him to capture the essence of the marine world in all its moods and manifestations. From tranquil harbors to raging storms, from majestic sailing ships to humble fishing boats, his paintings evoke a sense of awe and wonder at the power and beauty of the ocean. Beyond the biographical details, this book also provides a comprehensive analysis of Dawson's artistic techniques. Explore his use of color, composition, and perspective, and uncover the secrets behind his ability to bring the sea to life on canvas. Moreover, this book explores the broader cultural and historical context in which Dawson's work emerged. The Victorian era's fascination with maritime exploration, the rise of steamships, and the growing awareness of the sea's ecological significance all contributed to the popularity of marine art. The preparation of German entrepreneurs for the different cultural peculiarities of negotiations with Chinese business partners

Monika Koeckeritz, 2015-03-05. Today, the People's Republic of China is emerging as one of the major global economies. But a lot of negotiations between German and Chinese businessmen have failed in China because German entrepreneurs have not been sufficiently prepared for the different cultural peculiarities of negotiations with Chinese business partners. This dissertation will analyse the cultural peculiarities of negotiations with Chinese business partners. Different theories about culture, communication, and negotiations and their interactions are examined. The researcher will analyse differences between the German and Chinese business culture, including the values influencing the German and Chinese business behaviour and communication style. A comparison of the German culture and negotiation skills with the Chinese culture and negotiation skills will be drawn. Prerequisites to commitment in China will be investigated, and the Chinese framework of communication will be identified. Furthermore, the Chinese bargaining and negotiation tactics, as well as the purpose and format of Chinese negotiations, will be discovered, and the importance of *guanxi* and *mianxi* and their effects on business behaviour will be identified. The researcher will also advance the hypothesis that China has faced and will face the influence of materialism as a force undermining traditional values. To prove this hypothesis, she will analyse potential factors and forces that influence Chinese culture and, with it, the negotiations with Chinese business partners.

Marque and Reprisal Kenneth B.

Moss, 2019-04-22. Letters of marque might suggest privateers of the Elizabethan era or the American Revolution. But such conventions are duly covered in the US Constitution, and the private military instruments they sanction are very much at work today in the form of mercenaries and military contractors. A history of such practices up to the present day. Marque and

Reprisal by Kenneth B Moss offers unique insight into the role of private actors in military conflicts and the reason they are increasingly deployed in our day Along with an overview of mercenaries and privateers Marque and Reprisal provides a comprehensive history of the marque and reprisal clause in the US Constitution reminding us that it is not as arcane as it seems and arguing that it is not a license for all forms of undeclared war Within this historical context Moss explains why governments and states have sought control over warfare and actors and why private actors have reappeared in force in recent conflicts He also looks ahead to the likelihood that cyberwar will become an important venue for private warfare Moss wonders if international law will be up to the challenges of private military actors in the digital realm Is international law in fact equipped to meet the challenges increasingly presented in our day by such extramilitary activity A government makes no more serious decision than whether to resort to military force and war and when doing so Moss suggests it should ensure that such actions are accountable not on the sly and not decided in the marketplace Marque and Reprisal should inform future deliberations and decisions on that count
