Lure of the Open ,2016 Staff Development in Open and Flexible Education Colin Latchem,Fred Lockwood,2005-07-15 Open learning is the fastest growing type of education world wide This book brings together the experiences insights and findings of some of the world s leading staff developers in open and flexible learning *Weaving Words into Worlds* Caroline Durand-Rous,Margot Lauwers,2023-10-10 Weaving Words into Worlds comes as the third spinoff of the international ecopoetics conference organized in Perpignan in 2016 Reflecting upon how the many stories we tell directly influence the world we live in each of the contributions in this international volume directs our attention to the constant ecopoetic weaving of word to the world at work via the many entanglements between mind matter and meaning whether on a local or a global scale It encapsulates how the words stories and concepts we humans articulate as we try to make sense of the world we inhabit give part of its shape to the web of ecological relations that we depend on for survival It seeks to cast light on the disenchanted and reenchanting powers of stories and poiesis in general as stories retain the power to make us either become oblivious to and destroy or to feel and honor the many complex ties between the multitudinous nature cultures intertwined within the fabric of a multispecies world always in the making This book offers a total of fourteen articles written by international scholars in ecocriticism and ecopoetics who by their analyses of literature and or films and

the political subtext they thus render visible aim at showing how the study of environmentally minded media may renew our attention to the entangled agencies of the human and the more than human realm Thus this work offers to counter a reproach ecocriticism has often been met with namely the over presence of US scholars and the lack of diversity in subjects in the field since the articles presented provide a wide variety of approaches and topics with examples of UK and Native American literature Polynesian myth graphic novels or haiku In doing so the book expands on the fields of ecocriticism and ecopoetics adding to this branch of study and enriching it with high quality academic studies
