you need to know about Crowley's fundamental principles to get the most out of using the Thoth deck Many use the deck simply because the artwork is so beautiful but there is so much more to it than that DuQuette starts with the basic historical background of this extremely popular deck before delving into descriptions of each card in depth from both a purely tarot perspective and from an expanded magickal point of view Each card is described in detail regarding its straight tarot meaning which is then expanded upon with all the other attributions Crowley intended This unique guide will be of great interest to all tarot readers who use the Thoth Tarot especially those looking for correspondences with other occult systems to enhance their readings and will be treasured by students of Aleister Crowley's works
