Dreams in Early Modern England Janine Riviere, 2017-04-28 Dreams in Early Modern England shows the variety and complexity of the early modern English discourses on dreams from the role of dreams and dream theory in framing religious scientific and philosophical debates to the way that dreams continued to offer important spiritual and supernatural guidance and lastly how ordinary people exercised agency over their lives through interpreting and using dreams While today we tend to conceptualize dreams and dreaming as largely psychological this study shows how early modern people understood dreams and dreaming as many different things most significantly as political religious medical philosophical and supernatural

Death until Resurrection Joseph Saligoe, 2020-03-11 What really happens to the soul when people die This groundbreaking book may appeal both to Luther experts and to those who know little about the Reformer It demonstrates that Luther constantly taught over the last twenty four years of his life that death is like an unconscious sleep It also shows why this matters today for Christians Death until Resurrection is a great first step in understanding God s plan for renewal of the creation that can alleviate our common fears about death Seeing what exactly the scriptural writers meant regarding death as interpreted by one of the most prominent church leaders ever also provides the benefit of helping us better understand core doctrines such as our resurrection the nature of hell and eternal life through salvation This book offers that which very few writers on Luther have done an explanation that can unravel his apparent contradictions and the Luther paradox on the nature of death and the soul using Luther s own words scattered throughout his voluminous writings Learn which group of widely acclaimed authors or experts on Luther was correct about what Luther believed about death Lohse and George or Althaus and Thiselton **The Reformation and the Irrepressible Word of God** Scott M.

Are You Predestined? Harry Audley Flannery B.A. J.D. LL.M, 2015-03-30 Death There has to be more to life death just can't be the end of it all Hope We all keep within our souls our hearts and our minds a vision of a future of some kind a resurrection a continuation or an opportunity to see and talk to the loved ones who preceded us Oh how we hope God how we hope and pray that there is more to life than death The ultimate symbol of hope for many on earth is the Bible The words within its covers were used so far back in time that they just can't be without meaning The words convey so much for our minds our spirit and our understanding of an everlasting future And the understandings and consequences are forever being reviewed and taught through the works of Reformation era biblical thinkers such as John Calvin and Martin Luther And one of the central questions of that time was Does predestination provide us any answers This book has its origins in the 1960s while the author majored in both religion and history at Ohio Wesleyan University At the time there was no work in the literature solely devoted to comparing and contrasting the words of John Calvin and Martin Luther in regard to their thoughts about the doctrine of predestination nor was there an extensive bibliography devoted to this subject The search and the passion to understand whether we live or die from an eternal perspective is an ongoing mental and spiritual effort for all of us We have the Bible and we have the Koran We have many religions and many authors have written on the subject of human existence and human destiny The writings from hundreds and thousands of years in our past cannot be insignificant and those writers deserve our full attention as we seek the truth of our very being God bless

The Crux of Theology Allen G. Jorgenson, Kristen E. Kvam, 2022-05-20 The title of this book plays upon the central place a theology of the cross holds in Lutheran theologies especially lucid in Luther's Heidelberg Disputation 1518 The 500th anniversary of this document coincided with the 70th anniversary of the Declaration of Human Rights by the United Nations wherein the preamble points to a global aspiration of a common good shaped by freedom justice and peace This book is located at the intersection of these

two themes asserting that the cross has material content in being the means by which Christ in suffering solidarity with individuals communities and the cosmos advances freedom justice and peace Employing a variety of methods and exploring a broad range of geographic locales the contributors illumine the misuse of Reformation themes and offer a corrective in service of a common good that is publicly accountable and theologically sound The book thereby explores how contemporary Lutheran theology has utility both for analyzing injustice and for advancing justice in local as well as global contexts

Against Returning to Egypt Jeff B. Pool, 1998 Against Returning to Egypt is study of a doctrinal statement recently adopted by the Southern Baptist Convention The Report of the Presidential Theological Study Committee Using criteria developed from the SBC's historic distinction between confessions of faith and creeds Professor Jeff Pool takes the measure of this doctrinal statement and finds it wanting He argues that the Report represents the greatest theological threat to the denomination in the history of the SBC This threat consists primarily in that the Report intentionally erases the historic Baptist distinction between confessions of faith and creeds and in addition in that it presents and in fact is based upon a radically Calvinistic revision of the SBC's historic perspectives on several central Christian doctrines This investigative study has significance for other traditions and histories during these tumultuous times rightly characterized as times of fundamentalist resurgence The principles motives and aspirations examined here appear not only in other denominational histories but in other political social and cultural realms as well

The Natural Family Allan C. Carlson, 2017-07-05 Sixty years ago the UN declared the family to be the natural and fundamental unit of society Today many people are unsure as to what the word family even means In response to this confusion The Natural Family Bulwark of Liberty defines the family based on universal human experience Insisting without apology on the reality of the natural family the manifesto issues a personal call to men and women to rediscover this fundamental source of life joy and freedom Carlson and Mero frankly admit that those who should have defended marriage were asleep when the full scale assault on the family began in the 1960s Even more seriously most of them joined the assault by eventually adopting the very assumptions philosophical social and economic which almost extinguished the family's traditional legal and social privileges Family values is now an empty slogan for those with some nostalgic attachment to the family but who have no idea what the family really is Carlson and Mero examine why the family is in crisis the ways in which the natural family is the source of culture and freedom and what families can do to preserve the most fundamental and wholesome relationship on earth Assured that human nature is on their side Carlson and Mero can be both realistic about the family's plight and relentlessly optimistic about the future The Natural Family is a road map especially for the young for rebuilding a culture of freedom joy and love Perhaps the most succinct thorough and impressive pro family argument yet made
