*Remember the Liberty!* Ernest Gallo,Ronald Kukal,Phillip Nelson,Phillip Tournay,Raymond McGovern,2017-05-19 One of the most explosive and hidden secrets in U S history one that has never been previously told *Remember the Liberty* explores how a sitting U S president collaborated with Israeli leaders in the fomentation of a war between them and their Arab neighbors A war that would ensure a victory for Israel and include the acquisition of additional land This book will finally identify the real cause of the vicious attack on a U S Naval ship After the botched plan was executed the ship refused to sink

even after being hit by a torpedo leading the attack to be cancelled and a massive cover up invoked Including severe threats for the crewmembers to keep their lips sealed That cover up is barely still in place and completely exposed Written largely by the survivors themselves the truth is finally being told with the real story revealed **LBJ: From Mastermind to "The Colossus"** Phillip F. Nelson, 2014-11-04 Phillip F Nelson s new book begins where LBJ The Mastermind of the JFK Assassination left off Now president Johnson begins to push Congress to enact long dormant legislation that he had previously impeded always insisting that the timing wasn t right Nelson argues that the passage of Johnson s Great Society legislation was designed to take the focus of the nation off the assassination as well as lay the groundwork for building his own legacy Nelson also examines Johnson s plan to redirect US foreign policy within days of becoming president as he maneuvered to insert the US military into the civil war being fought in Vietnam This he thought would provide another means to achieve his goal of becoming a great wartime president In addition Nelson presents evidence to show that the Israeli attack on the USS Liberty in 1967 was arguably directed by Johnson against his own ship and the 294 sailors on board as a way to insert the US military into the Six Day War It only failed because the Liberty refused to sink Finally Nelson presents newly discovered documents from the files of Texas Ranger Clint Peoples that prove Johnson was closely involved with Billie Sol Estes and had made millions from Estes s frauds against taxpayers These papers show linkages to Johnson s criminal behavior the very point that his other biographers ignore Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home [National Library of Medicine Current Catalog](#) National Library of Medicine (U.S.), 1992

[Bibliography of the History of Medicine](#) ,1993 *Southern Honor* Bertram Wyatt-Brown, 2007-08-31 A finalist for the Pulitzer Prize and the American Book Award hailed in The Washington Post as a work of enormous imagination and enterprise and in The New York Times as an important original book Southern Honor revolutionized our understanding of the antebellum South revealing how Southern men adopted an ancient honor code that shaped their society from top to bottom Using legal documents letters diaries and newspaper columns Wyatt Brown offers fascinating examples to illuminate the dynamics of Southern life throughout the antebellum period He describes how Southern whites living chiefly in small rural agrarian surroundings in which everyone knew everyone else established the local hierarchy of kinfolk and neighbors according to their individual and familial reputation By claiming honor and dreading shame they controlled their slaves ruled their households established the social rankings of themselves kinfolk and neighbors and responded ferociously against perceived threats The shamed and shameless sometimes suffered grievously for defying community norms Wyatt Brown

further explains how a Southern elite refined the ethic Learning gentlemanly behavior and deliberate rather than reckless resort to arms softened the cruder form which the author calls primal honor In either case honor required men to demonstrate their prowess and engage in fierce defense of individual family community and regional reputation by duel physical encounter or war Subordination of African Americans was uppermost in this Southern ethic Any threat whether from the slaves themselves or from outside agitation had to be met forcefully Slavery was the root cause of the Civil War but according to Wyatt Brown honor pulled the trigger Featuring a new introduction by the author this anniversary edition of a classic work offers readers a compelling view of Southern culture before the Civil War *Choosing War* Fredrik

Logevall,2023-09-01 In one of the most detailed and powerfully argued books published on American intervention in Vietnam Fredrik Logevall examines the last great unanswered question on the war Could the tragedy have been averted His answer a resounding yes Challenging the prevailing myth that the outbreak of large scale fighting in 1965 was essentially unavoidable *Choosing War* argues that the Vietnam War was unnecessary not merely in hindsight but in the context of its time Why then did major war break out Logevall shows it was partly because of the timidity of the key opponents of U S involvement and partly because of the staunch opposition of the Kennedy and Johnson administrations to early negotiations His superlative account shows that U S officials chose war over disengagement despite deep doubts about the war s prospects and about Vietnam s importance to U S security and over the opposition of important voices in the Congress in the press and in the world community They did so because of concerns about credibility not so much America s or the Democratic party s credibility but their own personal credibility Based on six years of painstaking research this book is the first to place American policymaking on Vietnam in 1963 65 in its wider international context using multiarchival sources many of them recently declassified Here we see for the first time how the war played in the key world capitals not merely in Washington Saigon and Hanoi but also in Paris and London in Tokyo and Ottawa in Moscow and Beijing *Choosing War* is a powerful and devastating account of fear favor and hypocrisy at the highest echelons of American government a book that will change forever our understanding of the tragedy that was the Vietnam War In one of the most detailed and powerfully argued books published on American intervention in Vietnam Fredrik Logevall examines the last great unanswered question on the war Could the tragedy have been averted His answer a resounding yes Challenging *The Psychohistory Review* ,1998 *The News-letter of the Society for the Study of Southern Literature* Society for the Study of Southern Literature,1990 **The**

**Contemporary American President** Robert E DiClerico,2016-12-05 Debuting in its first edition *The Contemporary American President* explores the potential and limitations of presidential influence in times of rising public expectation for the office and the declining ability of presidents to meet it It focuses on six major areas concerning the presidency selection power accountability decision making personality and leadership and offers an appreciation of the challenges of the office as the institution attempts to function in an increasingly controversial political environment **Profiles in Power** Jelte

Olthof, Maarten Zwiers, 2020-08-31 The turbulent and unpredictable presidency of Donald Trump has intensified public and scholarly attention to the personalities of presidents *Profiles in Power* approaches the presidency as a personal affair that is shaped in part by the character of the occupants of the Oval Office and their attempts to craft public personas In ten biographical essays that focus on individual presidents and on one First Lady the authors in this volume build on a renewed interest in presidential studies that emphasizes individual agency As such the book seeks to bring the personal aspect of the presidency back into U S political history See inside the book
