Kenney, 2023-03-15 No person in the world is more recognizable than an American president These men are larger than life and as the leader of the free world they have the opportunity to shape history in ways that most of us cannot imagine Some objects such as the Resolute desk Air Force One or the presidential seal are symbolic of the position itself but each president has at least one artifact that largely defines his life and his presidency For example George Washington's ill fitting dentures plagued him for most of his life affecting the very image of his face that we have all come to recognize Millions of Americans were comforted by Franklin D Roosevelt's fireside chats as he spoke into a radio microphone during the Great Depression and World War II John F Kennedy memorialized a coconut husk with a message he wrote after his PT boat was destroyed in the Pacific Ocean into a paperweight he kept on his desk in the Oval Office Bill Clinton appeared on late night television playing the saxophone to appeal to younger voters Exploring the American Presidency through 50 Historic Treasures brings together significant artifacts from the lives of the men who have led our nation through times of great prosperity and terrible tragedy When we look at our presidents through the lens of the material culture they left behind it humanizes them and creates relevance to our own lives This book features full color images of 50 artifacts that were chosen by the very people who work at presidential sites and historical museums

stewarding the legacies of our presidents      Media Management in the Age of Lyndon B. Johnson Benjamin W. Quail, 2022-01-01 This book looks broadly at how the contentious relationships between the media and US President Lyndon B Johnson affected the national consciousness during the turbulent period of his leadership Johnson had to deal with a particularly difficult and divisive period in American history and his relationship with the press undoubtedly contributed to an atmosphere of friction within the United States A more specific purpose of this research monograph is ultimately to shine a light on the trials and tribulations that Johnson faced as a president dealing with new forms of communication in the 1960s It aims to show the difficulties that he had in adapting a very personal style of leadership which had served him well in the Senate in the role he undertook as leader of a nation Further to this it builds on this foundation to argue that Johnson developed a reactive passive stance to dealing with the media one that ultimately contributed to a loss in popularity and status as leader a blow he never recovered from during his time in office
