Lyric Generations:

   Lyric Generations G. Gabrielle Starr,2015-11-01 Eighteenth century British literary history was long characterized by two central and seemingly discrete movements the emergence of the novel and the development of Romantic lyric poetry In fact recent scholarship reveals that these genres are inextricably bound constructions of interiority developed in novels changed ideas about what literature could mean and do encouraging the new focus on private experience and self perception developed in lyric poetry In Lyric Generations Gabrielle Starr rejects the genealogy of lyric poetry in which Romantic poets are thought to have built solely and directly upon the works of Chaucer Spenser Shakespeare and Milton She argues instead that novelists such as Richardson Haywood Behn and others while drawing upon earlier lyric conventions ushered in a new language of self expression and community which profoundly affected the aesthetic goals of lyric poets Examining the works of Cowper Smith Wordsworth Coleridge and Keats in light of their competitive dialogue with the novel Starr advances a literary history that considers formal characteristics as products of historical change In a world increasingly defined by prose poets adapted the new forms characters and moral themes of the novel in order to reinvigorate poetic practice   *The Lyric Generation* François Ricard,1994   *British Women Poets and the Romantic Writing Community* Stephen C. Behrendt,2009-02-02 Approaching the work of Romantic era British women poets through the lenses of public radicalism war and poetic form This compelling study recovers the lost lives and poems of British women poets of the Romantic era Stephen C Behrendt reveals the range and diversity of their writings offering new perspectives on the work of dozens of women whose poetry has long been ignored or marginalized in traditional literary history British Romanticism was once thought of as a cultural movement defined by a small group of male poets This book grants women poets their proper place in the literary tradition of the time In an approach ripe for classroom teaching Behrendt first reviews the subject thematically exploring the ways in which the poems addressed both public concerns and private experiences He next examines the use of particular genres including the sonnet and various other long and short forms In the concluding chapters Behrendt explores the impact of national identity providing the first extensive study of Romantic era poetry by women from Scotland and Ireland In recovering the lives and work of these women Behrendt reveals their active participation within the rich cultural community of writers and readers throughout the British Isles This study will be a key resource for scholars teachers and students in British literary studies women s studies and cultural history   **Eighteenth-Century Poetry and the Rise of the Novel Reconsidered** Kate Parker,Courtney Weiss Smith,2013-12-24 Eighteenth Century Poetry and the Rise of the Novel Reconsidered beginswith the brute fact that poetry jostledup alongside novels in the bookstallsof eighteenth century England Indeed by exploringunexpected collisions and collusionsbetween poetry and novels this volumeof exciting new essays offers a reconsideration of the literary and cultural history of the period Thenovel poached from and featured poetry and the modern subjects and objects privileged by rise of the novel scholarship are only one part of a world full of animate

things and people with indistinct boundaries Contributors Margaret Doody David Fairer Sophie Gee Heather Keenleyside ShelleyKing Christina Lupton Kate Parker Natalie Phillips Aran Ruth Wolfram Schmidgen Joshua Swidzinski and Courtney Weiss Smith **Medieval France** William W. Kibler,1995 Arranged alphabetically with a brief introduction that clearly defines the scope and purpose of the book Illustrations include maps B W photographs genealogical tables and lists of architectural terms **The English Lyric Tradition** R. James Goldstein,2017-04-03 Modern readers can sometimes be unsure about the language and the literary conventions of medieval and Renaissance verse lyrical works written at a time before poetry was assumed to be about personal expression This readers guide introduces to a 21st century audience some of the greatest masterpieces of English poetry spanning five centuries Focusing on poems by Chaucer Wyatt Shakespeare Milton and others the author discusses the development of poetic technique explains the rhetorical culture of earlier centuries and describes the various lyric forms including lover s complaints sonnets and elegies that poets used to communicate with readers Urban Science Education for the Hip-Hop Generation Christopher Emdin,2010-01-01 Christopher Emdin is an assistant professor of science education and director of secondary school initiatives at the Urban Science Education Center at Teachers College Columbia University He holds a Ph D in urban education with a concentration in mathematics science and technology a master s degree in natural sciences and a bachelor s degree in physical anthropology biology and chemistry His book Urban Science Education for the Hip Hop Generation is rooted in his experiences as student teacher administrator and researcher in urban schools and the deep relationship between hip hop culture and science that he discovered at every stage of his academic and professional journey The book utilizes autobiography outcomes of research studies theoretical explorations and accounts of students experiences in schools to shed light on the causes for the lack of educational achievement of urban youth from the hip hop generation Poetry and Its Others Jahan Ramazani,2013-11-05 What is poetry Often it is understood as a largely self enclosed verbal system suspended from any mutual interaction with alien discourse in the words of Mikhail Bakhtin But in Poetry and Its Others Jahan Ramazani reveals modern and contemporary poetry s animated dialogue with other genres and discourses Poetry generates rich new possibilities he argues by absorbing and contending with its near verbal relatives Exploring poetry s vibrant exchanges with other forms of writing Ramazani shows how poetry assimilates features of prose fiction but differentiates itself from novelistic realism metabolizes aspects of theory and philosophy but refuses their abstract procedures and recognizes itself in the verbal precision of the law even as it separates itself from the law s rationalism But poetry s most frequent interlocutors he demonstrates are news prayer and song Poets such as William Carlos Williams and W H Auden refashioned poetry to absorb the news while expanding its contexts T S Eliot and Charles Wright drew on the intimacy of prayer though resisting its limits and Paul Muldoon Rae Armantrout and Patience Agbabi have played with and against song lyrics and techniques Encompassing a cultural and stylistic range of writing unsurpassed by other studies of poetry Poetry

and Its Others shows that we understand what poetry is by examining its interplay with what it is not **Singing by Herself** Amelia Worsley,2024-08-15 Singing by Herself reinterprets the rise of literary loneliness by foregrounding the female and feminized figures who have been overlooked in previous histories of solitude Many of the earliest records of the terms lonely and loneliness in British literature describe solitaries whose songs positioned them within the tradition of female complaint Amelia Worsley shows how these feminized solitaries for whom loneliness was both a space of danger and a space of productive retreat helped to make loneliness attractive to future lonely poets despite the sense of suspicion it evoked Although loneliness today is often associated with states of atomized interiority soliloquy and self enclosure this study of eighteenth century poetry disrupts the presumed association between isolation singular speech and bounded models of poetic subjectivity In five chapters focused on lonely poet figures in the works of John Milton Anne Finch Alexander Pope Thomas Gray and Charlotte Smith which also take account of the wider eighteenth century fascination with literary loneliness Singing by Herself shows how poets increasingly associated the new literary mode of being alone with states of disembodiment dispersal and echoic self doubling Seemingly solitary lonely voices often dissolve into polyvocal allusive community Worsley argues when in dialogue with each other and also with classical figures of feminized lament such as Sappho Echo and Philomela The book s provocative reflections on lyric mean that it will have a broad appeal to scholars interested in the history of poetry and poetics as well as to those who study the literary history of gender affect and emotion   Wordsworth and the Passions of Critical Poetics S. Allen,2010-07-30 This scholarly study presents a new political Wordsworth an artist interested in autonomous poetry s redistribution of affect No slave of Whig ideology Wordsworth explores emotion for its generation of human experience and meaning He renders poetry a critical instrument that through acute feeling can evaluate public and private life   **Failures of Feeling** Wendy Anne Lee,2018-12-18 This book recovers the curious history of the insensible in the Age of Sensibility Tracking this figure through the English novel s uneven and messy past Wendy Anne Lee draws on Enlightenment theories of the passions to place philosophy back into conversation with narrative Contemporary critical theory often simplifies or disregards earlier accounts of emotions while eighteenth century studies has focused on cultural histories of sympathy In launching a more philosophical inquiry about what emotions are Failures of Feeling corrects for both of these oversights Proposing a fresh take on emotions in the history of the novel its chapters open up literary history s most provocative cases of unfeeling from the iconic scrivener who would prefer not to and the reviled stock figure of the prude to the heroic rape survivor the burnt out man of feeling and the hard hearted Jane Austen herself These pivotal cases of insensibility illustrate a new theory of mind and of the novel predicated on an essential paradox the very phenomenon that would appear to halt feeling and plot actually compels them Contrary to the assumption that fictional investment relies on a richness of interior life Lee shows instead that nothing incites the passions like dispassion   **pt. 1, The epic and lyric poets** John Pentlans Mahaffy,1908   *The Auden Generation* Samuel

Hynes,2011-04-30 This is a study of a literary generation writing in a period of expanding fears and ever more urgent political and social crises The pace of the time itself the sense of time passing and an end approaching gave a special quality to the Thirties The public world pressed insistently on the private world For those who came of literary age Auden Day Lewis MacNeice Spender Graham Greene Isherwood and Orwell among them writing became a form of action In the process a generation discovered itself and found its own expression   *pt.     Singing the Dead Reyes Bertolín Cebrián,2006 This book outlines the evolution of Greek heroic epic from funeral laments and creates a model for epic evolution using Greek other Indo European and non Indo European materials Singing the Dead conceives the epic as a post Mycenean phenomenon associated with the first migrations away from the ancestors tombs to the Ionian coast Physical separation from the tombs impelled the development of narration concerning the ancestors and the rite at the tomb was substituted by stories that eventually became epic   John Armstrong's The Art of Preserving Health Adam Budd,2016-05-06 John Armstrong s 2000 line poem The Art of Preserving Health was among the most popular works of eighteenth century literature and medicine It was among the first to popularize Scottish medical ideas concerning emotional and anatomical sensibility to British readers doing so through the then fashionable georgic style Within three years of its publication in 1744 it was in its third edition and by 1795 it commanded fourteen editions printed in London Edinburgh Dublin and Benjamin Franklin s shop in Philadelphia Maintaining its place amongst more famous works of the Enlightenment this poem was read well into the nineteenth century remaining in print in English French and Italian It remained a tribute to

sustained interest in eighteenth century sensibility long after its medical advice had become obsolete and the nervous complaints it depicted became unfashionable Adam Budd s critical edition includes a comprehensive biographical and textual introduction and explanatory notes highlighting the contemporary significance of Armstrong s classical medical and social references Included in his introduction are discussions of Armstrong s innovative medical training in charity hospitals and his close associations with the poet James Thomson and the bookseller Andrew Millar evidence for the poem s wide appeal and a compelling argument for the poem s anticipation of sensibility as a dominant literary mode Budd also offers background on the new physiology taught at Edinburgh as well as an explanation for why a Scottish trained physician newly arrived in London was forced to write poetry to supplement his medical income This edition also includes annotated excerpts from the key literary and medical works of the period including poetry medical prose and georgic theory Readers will come away convinced of the poem s significance as a uniquely engaging perspective on the place of poetry medicine the body and the book trade in the literary history of eighteenth century sensibility
