Lyrics of the Middle Ages Hubert Creekmore, 1961 **German and Italian Lyrics of the Middle Ages** Frederick Goldin, 1984-01-01 **Lyrics of the Middle Ages** Hubert Creekmore, 1961 **Lyrics of the Middle Ages** Hubert Creekmore, 1959

From the Introduction The literature of the Middle Ages has been unduly neglected in this century especially in the lyric phase by both the teacher and the reader For the reader let it be said that he has had scant opportunity to do otherwise than neglect unless he sought out old books in a library New books have offered him little more than the scattered introductory sections in anthologies of translation and the scholarly collections of early English poetry Two or three recent anthologies of medieval writing give so little lyric poetry that it seems to have been considered rather a necessary blemish among the pages of prose than a brilliant manifestation of the spirit of the times This collection is intended to fill the gap in a modest way but is not a remedy for academic deficiencies I may touch upon later It is I believe the first anthology to present only medieval poetry in translation in a broader than national scope As for those teachers whom I charge at the outset they tend in the main to stress medieval historical events social and economic revolutions and religious thought When they turn to literature at all it is usually to the long narrative poems romances and epics The student has it is true in English courses a smattering of medieval creative writing before Chaucer tossed at him The Shepherd's Play or Everyman fragments from Morte Arthur or Gawaine and the Green Knight Beowulf and a handful of lyrics The effect of this isolation from the main stream of European literature in lyric poetry particularly is to instill in the student the notion that for a thousand years almost nothing was written that might interest him It is then easy for him to accept the term Dark Ages and seek brighter reading matter elsewhere page xv

Words and Music in the Middle Ages John Stevens, John E. Stevens, 1986-10-16 This book examines the relation of words and music in England and France during the three centuries following the Norman Conquest The basic material of the study includes the chansons of the troubadours and trouvères and the varied Latin songs of the period In

addition to these lyric forms the author discusses the relations of music and poetry in dance song in narrative and in the ecclesiastical drama Professor Stevens examines the ready made often unconscious and misleading assumptions we bring to the study and performance of early music In particular he affirms the importance of Number in more than one sense as a clue to the aesthetic of the greater part of repertoire to the relation of words and melody and to the baffling problem of their rhythmic interpretation This is the first wide ranging study of words and music in this period in any language It will be essential reading for scholars of the music and the literature of medieval Europe and will provide a basic and comprehensive introduction to the repertoire for students *Themes and Images in the Medieval English Religious Lyric* Douglas

Gray, 2019-07-05 Originally published in 1972 *Themes and Images in the Medieval English Religious Lyric* discusses themes and images in religious lyric poetry in Medieval English poetry The book looks at the affect that tradition and convention had on the religious poetry of the medieval period It examines the background of the lyrics including the Latin tradition which was inherited by medieval vernacular and shows how religious lyric poetry presents through a rich variety of images the significant incidents in the scheme of Christ's redemption such as the Annunciation the Nativity the Passion and the Resurrection It also considers the lyrics which were designed to assist humanity in the task of living in a Christian life as well as those which prepared them for death

Medieval Lyric William Doremus Paden, 2000 An essential volume for medievalists and scholars of comparative literature Medieval Lyric opens up a reconsideration of genre in medieval European lyric Departing from a perspective that asks how medieval genres correspond with twentieth century ideas of structure or with the evolution of poetry this collection argues that the development of genres should be considered as a historical phenomenon embedded in a given culture and responsive to social and literary change

German Literature of the High Middle Ages Will Hasty, 2006 New essays on the first flowering of German literature in the High Middle Ages and especially during the period 1180-1230 The High Middle Ages and particularly the period from 1180 to 1230 saw the beginnings of a vibrant literary culture in the German vernacular While significant literary achievements in German had already been made in earlier centuries they were a somewhat precarious vernacular extension of Christian Latin culture But the vernacular literary culture of the High Middle Ages was an integral part of broader cultural developments in which the unquestioned validity of traditional authoritative models began to lose its hold A secular culture began to emerge in which positive value began to be attached to the however transitory allegiances pleasures and loves of life In new essays dealing with the most significant literary genres the heroic epics the romances the love lyrics and political poetry and with broader political social and cultural issues control of aggression territorialization this third volume of the Camden House History of German Literature demonstrates how the emergence of a vernacular literary culture in Germany was an important part of a broader cultural transformation in which medieval people began to redefine themselves their relationships to one another and the position of humanity in the scheme of things Contributors Albrecht Classen Nicola McLelland Rodney Fisher Neil Thomas Marion Gibbs and Sidney Johnson Rüdiger Krohn Will Hasty Nigel Harris Susann Samples Sara Poor Michael Resler Rüdiger Brandt Elizabeth A Andersen Ulrich Müller and Franz Viktor Spechtler Ruth Weichselbaumer W H Jackson Charles Bowlus Will Hasty is Professor of German Studies and co-founder and co-director of the Center for Medieval and Early Modern Studies at the University of Florida

Cultures of Witnessing Emma Lipton, 2022-05-10 Like other compilations of medieval urban drama the plays that were performed in the streets of York on the Feast of Corpus Christi from the late fourteenth century until the third quarter of the sixteenth have most frequently been discussed in the context of the devotional cultures and practices of the later Middle Ages The pageants preoccupation with law and with witnessing in particular has received much less attention Emma Lipton observes yet the cycle of forty-seven plays which together tell the story of human history from the Creation through the Last Judgment contains an extended sequence that stages the trials of Christ leading up to the

Crucifixion and legal discourse features prominently elsewhere as well. While the play collections associated with other cities also engage with legal concepts, the York Plays devote an unusual amount of attention to the law. Lipton contends: "It is no coincidence that the plays themselves are preserved alongside a wide range of legal records in the York Memorandum Books, repositories of civic documents that were kept in the city's guildhall." Engaging both theater and legal studies, Lipton is concerned in particular with the interfaces in the York Plays between dramatic practice and legal concepts of witnessing. In medieval English courts, witnesses were defined as neighbors; they spoke both to what they had seen and heard and also to common knowledge of events. At the same time, many legal theorists were concerned by how the temporal gap between initial experience and testimony might reshape the record of the past in light of the motives and emotions of individual witnesses and allied groups. With chapters focusing on space, speech, affect, and temporality, *Cultures of Witnessing* considers how civic performance and the legal theory and practice of witnessing promoted a shared sense of urban citizenship and how this in turn provides a way to theorize late medieval religious drama whose players performed on the streets and neighborhoods in which they conducted their daily lives.
