M Commerce Crash Course:

M-commerce Crash Course P. J. Louis, 2001 In this volume P J Louis offers a technical insider's view of the Internet in its evolving mobile business incarnation m commerce The author aims to take the mystery out of the Internet business space by breaking it down into its fundamental components he provides a quick tour of basic Internet technologies then discusses the wireless Internet and the evolution from e commerce to m commerce Wireless Communications and Mobile Commerce Nansi Shi, 2004-01-01 Mobile commerce is based on the rapidly growing applications of wireless technologies and mobile communications This study collects holistic perspectives to explore strategic considerations regarding potential opportunities and issues in mobile commerce **Permission Marketing of Informediaries in M-Commerce Advertising** Ali-Reza Moschtaghi, 2002-03-12 Inhaltsangabe Abstract The expectations for M Commerce are very high The mobile user seeks for facilitation of his daily habits and companies anticipate generating high revenue stream through new mobile applications After telecommunication companies have paid high prices for the UMTS licenses in Europe M Commerce has started to be the new hype In those countries which did not have auctions but beauty contests M Commerce has been also shifted into the spotlight Although M Commerce is still in its infancy it predicts to have a huge impact on many ways of people's lives New buzz words like anywhere and anytime have evolved in order to describe the great potential of M Commerce Growth opportunities in terms of new arising mobile business models seem promising but only the future will be able to answer the question of success Mobile devices offer a broad range of opportunities from entertainment service e g music games or video up to transactions e g banking shopping auctions It is still unclear if all the emerging opportunities can be commercialized successfully Nevertheless many scenarios of how the world could be like in the future have been made Below an excerpt of the daily routine of a future mobile user is presented Nancy D Amato prepares to leave her office just before five o'clock She uses her mobile phone for a quick check of the local weather forecast sees that fine conditions are expected for the evening and decides to leave her umbrella by her desk Nancy is due to meet her boyfriend Peter at seven o'clock so she has two hours in town to waste As soon as the clock reaches five she receives a text message telling her that the bar across the street has a happy hour when drinks are cheaper Nancy deletes the message almost without reading it She has given her mobile service provider permission to send her unsolicited local promotional messages after five otherwise she would have to pay a higher subscription rates but that does not mean she actually has to read the message does it Five minutes later another message arrives with a coupon offering a discount at the local branch of her favorite coffee bar She shows the coffee shop attendant the numbered message on her phone's screen and he keys in the number on the till when charging for the coffee Now comfortably seated with her cappuccino Nancy begins to plan her evening She uses her mobile to check which movies are showing nearby after seven **Cross-Media Service Delivery** Diomidis Spinellis, 2012-12-06 The digitisation of traditional media formats such as text images video and sound provides us with the ability to store process

and transport content in a uniform way This has led the formerly distinct industries of media telecommunications and information technology to converge Cross media publishing and service delivery are important new trends emerging in the content industry landscape Mass media organizations and content providers traditionally targeted content production towards a single delivery channel However recent economic and technological changes in the industry led content providers to extend their brands to cover multiple delivery channels Following the content industry trend to create once and publish everywhere COPE a number of architectures technologies and tools are currently being developed and deployed to facilitate the automatic conversion of content to multiple formats and the creation of innovative multi platform services This new approach enables the seamless access to information over different network infrastructures and client platforms This work aims to bring together a cross disciplinary core of contributors to address the technical and business issues of cross media publishing and service delivery The volume is based on papers presented at the conference on Cross Media Service Delivery CMSD 2003 that took place in Santorini Greece in May 2003 Each contribution was reviewed by at least two reviewers typically three From the 30 papers that were submitted 20 were selected for presentation at the conference Those were further shepherded by programme committee members to be improved according to the review suggestions
