Macarthurs War Korea And The Undoing Of An American Hero:

MacArthur's War Stanley Weintraub, 2000 Offers a chronological account of the events that took place in the Korean War during the months Douglas MacArthur was in command **Great Military Leaders** William T. Worthington, 2002
Great Military Leaders A Bibliography with Vignettes *Mac Arthur's War* Stanley Weintraub, 2004-07 **MacArthur's Korean War Generals** Stephen R. Taaffe, 2016-03-14 Wedged chronologically between World War II and Vietnam the Korean War which began with North Korea's invasion of South Korea in June of 1950 possessed neither the virtuous triumphalism of the former nor the tragic pathos of the latter Most Americans supported defending South Korea but there was considerable controversy during the war as to the best means to do so and the question was at least as exasperating for American army officers as it was for the general public A longtime historian of American military leadership in the crucible of war Stephen R Taaffe takes a close critical look at how the highest ranking field commanders of the Eighth Army acquitted themselves in the first decisive year in Korea Because an army is no better than its leadership his analysis opens a new perspective on the army's performance in Korea and on the conduct of the war itself In that first year the Eighth Army's leadership ran the gamut from impressive to lackluster a surprising unevenness since so many of the high ranking officers had been battle tested in World War II Taaffe attributes these leadership difficulties to the army's woefully unprepared state at the war's start army personnel policies and General Douglas MacArthur's corrosive habit of manipulating his subordinates and pitting them against each other He explores the personalities at play their pre war experiences the manner of their selection their accomplishments and failures and of course their individual relationships with each other and MacArthur By explaining who these field corps and division commanders were Taaffe exposes the army's institutional and organizational problems that contributed to its up and down fortunes in Korea in 1950 1951 Providing a better understanding of MacArthur's controversial generalship Taaffe's book offers new and invaluable insight into the army's life and death struggle in America's least understood conflict *MacArthur and the American Century* William M. Leary, 2001-01-01 General Douglas MacArthur has been hailed as the greatest soldier in American history While not everyone would agree with that assessment there is no question that MacArthur played a prominent role in the emergence of the United States as a world power in the twentieth century A distinguished combat soldier during World War I and an innovative educator at West Point in the 1920s MacArthur became the army's chief of staff during the Great Depression He went abroad in the 1930s to prepare the Philippines for war His stand against the Japanese following Pearl Harbor made him a national hero and his subsequent campaign against Japanese forces in the Southwest Pacific only added to his reputation The Korean War gave MacArthur a final opportunity to display his military skills MacArthur and the American Century assembles for the first time a nuanced and full scrutiny of MacArthur's entire career Essays by such experts as Stanley L Falk and D Clayton James accompany materials by Dwight D Eisenhower and MacArthur himself providing analysis and evaluation of the immense impact this

dramatic figure had on war peace and the American imagination , **Douglas MacArthur** Earle Rice (Jr.),2013 A look at the life and military accomplishments of General Douglas MacArthur whose career included serving as commander of the United States Army in the Far East during World War II **The War for Korea, 1950-1951** Allan R. Millett,2021-09-07 In The War for Korea 1945 1950 A House Burning one of our most distinguished military historians argued that the conflict on the Korean peninsula in the middle of the twentieth century was first and foremost a war between Koreans that began in 1948 In the second volume of a monumental trilogy Allan R Millett now shifts his focus to the twelve month period from North Korea s invasion of South Korea on June 25 1950 through the end of June 1951 the most active phase of the internationalized Korean War Moving deftly between the battlefield and the halls of power Millett weaves together military operations and tactics without losing sight of Cold War geopolitics strategy and civil military relations Filled with new insights on the conflict his book is the first to give combined arms its due looking at the contributions and challenges of integrating naval and air power with the ground forces of United Nations Command and showing the importance of Korean support services He also provides the most complete and sympathetic account of the role of South Korea s armed forces drawing heavily on ROK and Korea Military Advisory Group sources Millett integrates non American perspectives into the narrative especially those of Mao Zedong Chinese military commander Peng Dehuai Josef Stalin Kim Il sung and Syngman Rhee And he portrays Walton Walker and Matthew Ridgway as the heroes of Korea both of whom had a more profound understanding of the situation than Douglas MacArthur whose greatest flaw was not his politics but his strategic and operational incompetence Researched in South Korean Chinese and Soviet as well as American and UN sources Millett has exploited previously ignored or neglected oral history collections including interviews with American and South Korean officers and has made extensive use of reports based on interrogations of North Korean and Chinese POWs The end result is masterful work that provides both a gripping narrative and a greater understanding of this key conflict in international and American history **Reelpolitik II** Beverly Merrill Kelley,2004-02-16 Reelpolitik II moves past typical left right political distinctions to examine political ideologies cycling through U S history during the 50s and 60s These eight Cold War movies especially equipped the moviegoer with a unique vantage point to scrutinize the arms race the Red Scare the Korean Conflict and the Vietnam War They also helped audiences to observe the way film functions as a purveyor of American mythology a megaphone to shout political messages a metaphorical route to the emotions a flattering mirror an unflattering microscope and a magic carpet ride back to the future Truman and MacArthur Michael D. Pearlman,2008-03-12 Truman and MacArthur offers an objective and comprehensive account of the very public confrontation between a sitting president and a well known general over the military s role in the conduct of foreign policy In November 1950 with the army of the Democratic Peoples Republic of Korea mostly destroyed Chinese military forces crossed the Yalu River They routed the combined United Nations forces and pushed them on a long retreat down the Korean peninsula Hoping to strike a decisive

blow that would collapse the Chinese communist regime in Beijing General Douglas MacArthur the commander of the Far East Theater pressed the administration of President Harry S Truman for authorization to launch an invasion of China across the Taiwan straits Truman refused MacArthur began to argue his case in the press a challenge to the tradition of civilian control of the military He moved his protest into the partisan political arena by supporting the Republican opposition to Truman in Congress This violated the President's fundamental tenet that war and warriors should be kept separate from politicians and electioneering On April 11 1951 he finally removed MacArthur from command Viewing these events through the eyes of the participants this book explores partisan politics in Washington and addresses the issues of the political power of military officers in an administration too weak to carry national policy on its own accord It also discusses America's relations with European allies and its position toward Formosa Taiwan the long standing root of the dispute between Truman and MacArthur

Accidental Gods Anna Della Subin, 2021-12-07 NAMED A BEST BOOK OF THE YEAR BY ESQUIRE THE IRISH TIMES AND THE TIMES LITERARY SUPPLEMENT SHORTLISTED FOR THE PEN HESSELL TILTMAN PRIZE A provocative history of men who were worshipped as gods that illuminates the connection between power and religion and the role of divinity in a secular age Ever since 1492 when Christopher Columbus made landfall in the New World and was hailed as a heavenly being the accidental god has haunted the modern age From Haile Selassie acclaimed as the Living God in Jamaica to Britain's Prince Philip who became the unlikely center of a new religion on a South Pacific island men made divine always men have appeared on every continent And because these deifications always emerge at moments of turbulence civil wars imperial conquest revolutions they have much to teach us In a revelatory history spanning five centuries a cast of surprising deities helps to shed light on the thorny questions of how our modern concept of religion was invented why religion and politics are perpetually entangled in our supposedly secular age and how the power to call someone divine has been used and abused by both oppressors and the oppressed From nationalist uprisings in India to Nigerien spirit possession cults Anna Della Subin explores how deification has been a means of defiance for colonized

peoples Conversely we see how Columbus Cort s and other white explorers amplified stories of their godhood to justify their dominion over native peoples setting into motion the currents of racism and exclusion that have plagued the New World ever since they touched its shores At once deeply learned and delightfully antic Accidental Gods offers an unusual keyhole through which to observe the creation of our modern world It is that rare thing a lyrical entertaining work of ideas one that marks the debut of a remarkable literary career

A History of the Modern Chinese Army Xiaobing Li, 2007-06-01 Since the establishment of the Red Army in 1927 China s military has responded to profound changes in Chinese society particularly its domestic politics shifting economy and evolving threat perceptions Recently tensions between China and Taiwan and other east Asian nations have aroused great interest in the extraordinary transformation and new capabilities of the Chinese army In A History of the Modern Chinese Army Xiaobing Li a former member of the People s Liberation Army PLA provides a comprehensive examination of the PLA from the Cold War

to the beginning of the twenty first century that highlights the military's central function in modern Chinese society. In the 1940s the Chinese army was in its infancy and many soldiers were rural conscripts and volunteers who had received little formal schooling. The Chinese military rapidly increased its mobility and weapon strength and the Korean War and Cold War offered intense combat experience that not only allowed soldiers to hone their fighting techniques but also helped China to develop military tactics tailored to the surrounding countries whose armies posed the most immediate threats. Yet even in the 1970s the completion of a middle school education nine years was considered above average and only 4 percent of the 224 top Chinese generals had any college credit hours. However in 1995 the high command began to institute massive reforms to transform the PLA from a labor intensive force into a technology intensive army. Continually seeking more urban conscripts and emphasizing higher education the PLA Reserve Officer Training and Selection program recruited students from across the nation. These reservists would become commissioned officers upon graduation and they majored in atomic physics, computer science and electrical engineering. Grounding the text in previously unreleased official Chinese government and military records as well as the personal testimonies of more than two hundred PLA soldiers, Li charts the development of China's armed forces against the backdrop of Chinese society, cultural traditions, political history and recent technological advancements. *A History of the Modern Chinese Army* links China's military modernization to the country's growing international and economic power and provides a unique perspective on China's establishment and maintenance of one of the world's most advanced military forces.

Surviving the Unipolar Era A.B. Abrams, 2025-01-01 On June 29 1950 the U.S. launched its first ever air strikes on the North Korean capital Pyongyang marking the start of what would become the longest conflict in history between two industrial powers. Four decades later the end of the Cold War in 1989 and the disintegration of the Soviet Union in 1991 marked the beginning of a new phase of the conflict with a new unipolar world order centered on the power of the U.S. and Western world leaving North Korea in unprecedented isolation. Now unsupported in its fight against a Western superpower intent on its destruction the small but technologically adept and heavily militarized East Asian state would need to adopt more radical measures to ensure its security. Over the next 35 years the conflict would transform from a period of North Korean decline in the face of tremendous economic and military pressure to one of an ascent in its power and decline in the West as international order evolved past the unipolar era. *Surviving the Unipolar Era* elucidates the conflict's transformation beginning with unprecedented U.S. led efforts to achieve North Korea's total collapse and elimination through maximum pressure and ending three decades later with a subsiding of Pyongyang's international isolation and the modernization of its economy, armed forces and nuclear deterrent. A.B. Abrams highlights how the small state has been able to hold its own in multiple standoffs with the world's superpower successfully weather economic sanctions and prevent penetration of its information space and the implications that this has had for the country, the region and the wider world. He details the strong consistency in American objectives and the evolution of consensus across five

separate administrations on how these should be pursued as the circumstances of the conflict transformed In the context of prevailing geopolitical economic and security trends Abrams projects the future course of the conflict including aspects such as Western difficulties coming to terms with North Korea s ascent U S policy priorities going forward and the growing opportunities that an emerging new global cold war is likely to provide Pyongyang *Crucible of Power* Howard Jones,2009 Employing a narrative approach that uncovers the tangled and often confusing nature of foreign affairs *Crucible of Power* focuses on the personalities security interests and post war Cold War tendencies behind the formulation and implementation of U S foreign policy since 1945 The book includes updated coverage of the Bush administration s foreign policy with particular emphasis on the Middle East Selections from key foreign policy documents appear in each chapter Nuclear Weapons Stuart Casey-Maslen,2021-11-04 Offers an overview of international law policy and practice on nuclear weapons
