[Image Analysis And Processing Iciap 2005](#) Fabio Roli, Sergio Vitulano, 2005-08-25 This volume contains the Proceedings of the 13th International Conference on Image Analysis and Processing ICIAP 2005 held in Cagliari Italy at the conference centre Centro della Cultura e dei Congressi on September 6-8 2005 ICIAP 2005 was the thirteenth edition of a series of conferences organized every two years by the Italian

group of researchers affiliated to the International Association for Pattern Recognition (IAPR) with the aim to bring together researchers in image processing and pattern recognition from around the world. As for the previous editions, conference topics concerned the theory of image analysis and processing and its classical and Internet-driven applications. The central theme of ICIAP 2005 was Pattern Recognition in the Internet and Mobile Communications Era. The interest for such a theme was confirmed by the large number of papers dealing with it: the special session devoted to pattern recognition for computer network security and the emphasis of two invited talks on Internet and mobile communication issues. ICIAP 2005 received 217 paper submissions. Fifteen papers were collected into the two special sessions dealing with Pattern Recognition for Computer Network Security and Computer Vision for Augmented Reality and Augmented Environments.

Advances in Computer Games

H. Jaap van den Herik, Hiroyuki Iida, Ernst A. Heinz, 2013-06-05

I feel privileged that the 11th Advances in Computer Games Conference (ACG 10) takes place in Graz, Styria, Austria. It is the first time that Austria acts as host country for this major event. The series of conferences started in Edinburgh, Scotland, in 1975 and was then held four times in England, three times in The Netherlands, and once in Germany. The ACG 10 conference in Graz is special in that it is organised together with the 11th World Computer Chess Championship (WCCC), the 10th Computer Olympiad (CO), and the European Union Youth Chess Championship. The 11th WCCC and ACG 10 take place in the Dom im Berg Dome in the Mountain, a high-tech space with multimedia equipment located in the Schlossberg in the centre of the city. The help of many sponsors, large and small, is gratefully acknowledged. They will make the organisation of this conference a success. In particular, I would like to thank the European Union for designating Graz as the Cultural Capital of Europe 2003. There are 24 accepted contributions by participants from all over the world: Europe, Japan, USA, and Canada. The specific research results of the ACG 10 are expected to find their way to general applications. The results are described in the pages that follow. The international stature together with the technical importance of this conference reaffirms the mandate of the International Computer Games Association (ICGA) to represent the computer games community.
