There are many myths about serial killers that they are all dysfunctional loners all white males only motivated by sex that they all travel and operate across a wide area cannot stop killing are all insane or evil geniuses and that they all want to get caught Of course there are some serial killers who fit into these categories but the married Green River Killer was not a dysfunctional loner there are plenty of female and non Caucasian serial killers Dr Harold Shipman was certainly not motivated by sex many serial killings such as the Ipswich prostitute murders carried out by Steve Wright happen within a confined area the BTK Killer Dennis Rader stopped killing in 1991 but wasn't caught until fourteen years later Many serial killers may have a low animal cunning or be street smart but few of them are Mensa level geniuses Each of the thirty cases covered here is unusual in some respect perhaps in the way in which the killer carried out their crimes the choice of victims the way in which they were apprehended or the method of their execution The cases are presented alphabetically by country from Australia via Colombia Great Britain Indonesia Iran South Africa and elsewhere to the United States and then chronologically They come from across history and from all over the world The author has gone back as far as possible to contemporary source material newspaper accounts trial evidence interviews with perpetrators or survivors rather than rely on the increasingly blurred truth to be found online and in far too many collections *Screen Tourism and Affective Landscapes* Erik Champion, Christina Lee, Jane Stadler, Robert Moses Peaslee, 2022-12-30 This book explores ways in which screen based storyworlds transfix transform and transport us imaginatively physically and virtually to the places they depict or film Topics include fantasy quests in computer games celebrity walking tours dark tourism sites Hobbiton as theme park surf movies and social gangs of Disneyland How physical virtual and imagined locations create a sense of place through their immediate experience or visitation is undergoing a revolution in technology travel modes and tourism behaviour This edited collection explores the rapidly evolving field of screen tourism and the affective impact of landscape with provocative
