

THE MILE-LONG SPACESHIP

They knew that some entity, living somewhere, had awareness of them, and their immense ship. But they couldn't find out where he was, because he didn't know. . . .

BY KATE WILHELM

Illustrated by From

Allan Norbett stirred uncontrollably, huddling up under the spotless hospital sheet seeking warmth. He stared furthfully as consciousness slowly returned and with it the blinding stab of pain through his head. A moan escaped his lips. Immediately a nurse was at his side, gently, firmly forcing him back on the bed.

THE MILE-LONG SPACESHIP

"You must remain completely still, Mr. Norbett. You're in St. Agnes' Hospital. You suffered a fractured skull in the accident, and surgery was necessary. Your wife is outside waiting to see you. She is uninjured. Do you understand me?"

The words had been spoken slowly, very clearly, but he had grasped only fragments of them.

The Mile-long Spaceship Kate Wilhelm, 1963 **The Mile-long Spaceship** Kate Wilhelm, 1980 *The Interplanetary Laser Jousting Tournament (HB)* John Barry, 2019-08-28

The Interplanetary Laser Jousting Tournament HB Or Relativity Revised By John Barry It is said that two spaceships going away from each other at very high speeds are able to see light from the other travelling at the proper speed of light because space contracts and time slows down What would happen if these two spacecrafts passed each other Would space suddenly invert and time change speed How would a spaceship travelling between two light sources such as stars see light from both going the right speed at the same time If on the other hand light travels at a broad range of speeds and we can detect only that which is going the right speed for us then where is all the other light hiding An electron in a cyclotron that is accelerated toward a target at close to the speed of light gains mass If the target were racing away at a near equal speed would that extra mass turn out to not be there This book suggests an alternate theory to special relativity and a few experiments to prove it or help us to learn something new Intergalactic Jesus Christ Superstar Stanley Lotegeluaki, 2013-12-31 Jesus Christ is a superstar on millions and billions of other planets besides the earth Jesus is worshipped throughout infinity through countless stars and countless universes He might be the humble carpenter to us but He is known as God to alien Christians in faraway universes Jesus is worshipped in endless infinite multiple universes Jesus is truly the StarChild The Church and Israel own a googolplex universes and has doled out some for the nations The Church and Israel own more universes then there are atoms in our universe of 200 billion galaxies And each galaxy has about a 100 200 billion stars If you count the atoms in each star planet asteroid dust particle the Church owns more universes then all the atoms in our entire universe combined So Jesus is generous the Church and Israel is generous and extremely zealous to give you universes and serve you Jesus is God He can be in more then one place at once He is in us and He is in the alien Christians Christs body can appear in different places at the same time like when He visits different families in multiple universes at the same time and still remain on His throne in heaven and also in Jerusalem He is worshipped throughtout infinity So worship Him in the spirit like all alien Christians do O human race We will be one with the cosmos praising Jesus THE AFRICANS WENT THROUGH THE GREAT TRIBULATION WITH SLAVERY THE JEWS WENT THROUGH THE TRIBULATION WITH HITLER THE NATIVE AMERICAN INDIANS WENT THROUGH THE TRIBULATION WHEN THE EUROPEANS EXTERMINATED THEM THE CHINESE WENT THROUGH THE GREAT TRIBULATION WITH MAO AND THE CULTURAL LEAP FORWARD THE RUSSIANS WENT THROUGH THE TRIBULATION WITH STALIN THE ONLY PEOPLE WHO WERE SPARED THE TRIBULATION ARE THE AMERICAN CHRISTIANS IN THE U S A AND THEY ARE THE LOUDEST IN SAYING A GREAT TRIBULATION WILL HAPPEN TO CHRISTIANS WAKE UP EVERYBODY ELSE HAS ALREADY GONE THROUGH IT THE GREAT TRIBULATION STARTED WITH THE DEATH OF STEPHEN UNTIL TODAY 2000 AD ITS OVER SORRY YOU MISSED IT BE HAPPY YOU WERE SPARED JESUS IS COMING BACK IN MY LIFETIME AND

Invisible Planets Hannu Rajaniemi,2016-05-26 Mindblowingly inventive and beautifully written short stories from the most exciting new name in SF Hannu Rajaniemi exploded onto the SF scene in 2010 with the publication of his first novel *The Quantum Thief* Acclaimed by fellow authors such as Charles Stross Adam Roberts and Alastair Reynolds and brilliantly reviewed everywhere from *Interzone* to the *Times* and the *Guardian* he swiftly established a reputation as an author who could combine extraordinary cutting edge science with beautiful prose and deliver it all with wit warmth and a delight in the fun of storytelling It is exactly these qualities that are showcased in this his first collection of short stories Drawn from anthologies magazines and online publications and brought together in book form for the first time in this collection here is a

Partners in Wonder Eric Leif Davin,2005-12-07 Partners in Wonder revolutionizes our knowledge of women and early science fiction Contrary to accepted interpretations women fans and writers were a welcome and influential part of pulp science fiction from the birth of the genre Davin finds that at least 203 female authors under their own female names published over a thousand stories in science fiction magazines between 1926 and 1965 This work explores the distinctly different form of science fiction that females produced one that was both more utopian and more empathetic than that of their male counterparts Partners in Wonder presents for the first time a complete bibliography of every story published by women writers in science fiction magazines from 1926 to 1965 and brief biographies on 133 of these women writers It is thus the most comprehensive source of information on early women science fiction writers yet available and of great importance to scholars of women's studies popular culture and English literature as well as science fiction *The Fifth Head of Cerberus* Gene Wolfe,1994-03-15 First published in 1972 this SF masterpiece has been out of print for most of a decade Now this subtle ingenious and poetic book Ursula Le Guin entertains a new generation of readers with the story of two far flung sister planets and a man's quest to find remnants of a lost **One Sad Universe** David B. Roach,2023-04-26 What would you do if you found yourself in another universe This happened to Neal Goodson Despite familiar surroundings his growing perception was that he was in a parallel world He yearned to find love but every day something felt off He learned even the calendar was different As he tried to make sense of it all more and more things were different Also he wondered how this became what seemed like a one world government He felt there were increasing personal threats As he looked for answers

his fears became reality He encountered three intelligent robots who may or may not help him get home He met situations head on and overcame them with unexpected help One Sad Universe is the story of one man s determination and a testament to the power of the human spirit

Science Fiction, New Space Opera, and Neoliberal Globalism Jerome Winter, 2016-11-15 One of the few points critics and readers can agree upon when discussing the fiction popularly known as New Space Opera a recent subgenre movement of science fiction is its canny engagement with contemporary cultural politics in the age of globalisation This book avers that the complex political allegories of New Space Opera respond to the recent cultural phenomenon known as neoliberalism which entails the championing of the deregulation and privatisation of social services and programmes in the service of global free market expansion Providing close readings of the evolving New Space Opera canon and cultural histories and theoretical contexts of neoliberalism as a regnant ideology of our times this book conceptualises a means to appreciate this thriving movement of popular literature
