The Fall of Soviet Communism, 1986-1991 Jeremy Smith, 2017-03-16 The fall of communism and the break up of the Soviet Union into 15 independent states in December 1991 was one of the most significant events of the 20th century In the last years of Soviet rule images of mass protests on the streets of Moscow Tbilisi and Vilnius bloodshed in Baku striking miners Mikhail Gorbachev wooing the West and Boris Yeltsin defiantly mounting a tank in front of the White House building in Moscow shattered all of the old certainties about the seemingly unbreakable communist system Gorbachev and Yeltsin were the dominant figures in this process but non Russian national movements workers intellectuals and international developments all had roles to play Jeremy Smith presents the dramatic events of 1985-91 in a clear and succinct form setting out a variety of interpretations for the demise of communism in the Soviet Union and suggesting new approaches to answering the unresolved question of why it happened Smith discusses the long term and short term factors behind the extraordinary collapse assessing the impact of economic crisis nationalism personalities and democratization in the process

Klein, Marshall I. Pomer, 2001 This work delivers the unpopular message that the West has played a pivotal role in the Russian economic disaster of the 1990s The 26 contributions to this book examine this topic which is divided into three parts theory evidence and policy *Chronology of Twentieth-Century History: Business and Commerce* Frank N. Magill, 2014-04-23 First Published in 2004 Volume II provides the hard facts and the history behind the headlines significant 20th century events in the evolution of all aspects of business and commerce are described in chronologically arranged articles The text of each article is divided into two sections Summary of the Event describes the event itself and the circumstances leading up to it and Impact of the Event analyzes the influence of the event on the evolution of business practice or on a major industry in both the short and long terms Each article concludes with a fully annotated Bibliography **The Transformation of the World Economy, 1980-93** Robert Solomon, 1994-10-28 The transformation since 1980 of many industrial countries Communist nations and numerous developing countries entails a shift away from government involvement in economies toward greater reliance on market forces This book analyses these dramatic changes in the context of the increasing economic interdependence under the influence of the revolution in computer technology and telecommunications **Russia's Bitter Path to Modernity** Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia's Soviet development within Russia's own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole

peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former's mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states **Soviet Constitutional Crisis** Robert S. Sharlet, 1992 Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev Andropov and Chernenko to the radical legal restructuring of the Gorbachev years Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR Sharlet a noted authority on Soviet law and constitutional development demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development In effect he argues one of Gorbachev's most durable achievements may be his redefinition of Soviet politics into a legal idiom along with his relocation of policymaking from behind the closed doors of Party conclaves into the more open emergent arena of constitutional government In analyzing the politics of law from the Brezhnev era to the rise of Yeltsin the author takes account of the war of laws the symbolic uses of the Soviet constitution and even the fact that the leaders of the failed coup attempted to justify their seizure of power on constitutional grounds Constitutionalism has sufficiently suffused Soviet public life the book concludes that most of the sovereign republics as successors to the former USSR have begun designing their futures to varying degrees in constitutional forms **States And Markets** Guoli Liu, 2019-06-21 Initial excitement in the West over the reform of Soviet communism under Gorbachev and then euphoria over the disintegration of the USSR have now been replaced by concern controversy and sometimes despair over prospects for democracy and a market economy in the countries of the former Soviet Union Despair is reflected in the popular joke that the transition from a communist centrally planned economy to a capitalist market economy is like the transition from fish soup to an aquarium Only time will tell if the aquarium analogy holds water Meanwhile as policy makers in Russia and elsewhere in the former Soviet Union grapple with strategies tactics and details scholars and policy advisors continue to debate questions of sequence timing and appropriate models **Soviet Politics** Richard Sakwa, 2012-11-12 Soviet Politics in Perspective is a new edition of Richard Sakwa's successful textbook Soviet Politics an introduction Thoroughly revised and updated it builds on the previous editions comprehensive and accessible exploration of the Soviet system from its rise in 1919 to its collapse in 1991 The book is divided into five parts which focus on key aspects of Soviet politics They are historical perspectives beginning with the Tsarist regime on the eve of Revolution the rise and development of Stalinism through to the decline of the regime under Brezhnev and his successors and Gorbachev's attempts to revive the system institutions of Government such as the Communist Party security apparatus the military the justice system local government and participation theoretical approaches to Soviet politics including class and gender politics the role of ideology and the shift from dissent to pluralism key policy areas the command economy and reform nationality politics and foreign and defence

policy an evaluation of Soviet rule and reasons for its collapse Providing key texts and bibliographies this book offers the complete history and politics of the Soviet period in a single volume It will be indispensable to students of Soviet and post Soviet politics as well as the interested general reader

Democratization and Revolution in the USSR, 1985-91 Jerry F. Hough, 1997-05-01 Democratization and Revolution in the USSR 1985-91 presents a strikingly new view of the Gorbachev era and the reasons for the collapse of the Soviet Union Written by one of America's most distinguished specialists on the former Soviet Union this is the first comprehensive overview of the Gorbachev period and describes it as a real revolution not mere reform According to Hough despite Mikhail Gorbachev's talk of a regulated market he never understood that a market must be created on a solid institutional and legal base He was determined to use democratization to free himself from party control but he saw democracy as a way of achieving near universal consensus not a mechanism for forcing through difficult choices The many memoirs that have become available in the last few years including those of Gorbachev himself show that Premier Nikolai Ryzhkov and the bureaucrats in his government actually were the serious economic reformers in the leadership Gorbachev opposed the key transitional steps at every stage and was far closer to the assumptions of shock therapy than he or his opponents ever recognized Hough explains that Gorbachev was not alone in thinking that the destruction of old institutions was enough to unleash a market Westerners also talked of leaping a chasm in a single jump as if democratic and market institutions existed pre-created on the other side But precisely because Gorbachev and later Boris Yeltsin was encouraged in all his worst mistakes by Western advice his failure has crucial implications for Western thinking about the process of democratization and marketization This unprecedented book explores those implications in depth Selected by Choice as an Outstanding Book for 1998

The Transformation of the World Economy R. Solomon, 1999-06-02 This revised extended and updated edition of Robert Solomon's well received The Transformation of the World Economy assesses the remarkable changes in the world economy in recent decades The impact of marketization of globalization in both industry and finance and of increased policy coordination as a response at regional and global level are analysed The policy impact of changing philosophies of economic policy in the US Britain Western Europe the USSR Russia and Eastern Europe China Asia the Middle East Africa and Latin America are analysed

Restructuring Political Power in China An Chen, 1999 Chen argues that to prevent party cadre opposition to market restructuring the nemesis of change in other communist states national leaders manipulated legislative channels and party regulations to allow citizen participation in the implementation of reform programs Opportunistic realignments at the political level involving the central leadership local party cadres and ordinary citizens brought people power into the policymaking process That power suggests Chen may also presage China's constitutional evolution toward a democratic form of government
